

Chapter 54: My Genes Evolve Infinitely

HIGH-PRICED MOONSTONE ESSENCE

Not long after, Liu Xi also came out.

Although he has a lot of injuries on his body, and his armor is even a little broken, there is a smile on his face.

Liu Xi came back, saw Lu Yuan, smiled and said:

‘Brother Lu Yuan, how is it? What level did you enter this trial? With your strength, you should be able to enter the elite trial, right?’

Lu Yuan smiled and nodded: ‘Well, I passed Elite 2 level.’

Hearing what Lu Yuan said, a flash of surprise flashed in Liu Xi’s eyes, and he smiled:

‘You have just awakened for half a month, and you can already pass Elite Level 2? If you awakened earlier, I am afraid that your current strength will surpass me. Your talent is indeed amazing...I really don’t consider joining our Tianfu Consortium. I can also apply for other benefits for you. With your talent, I believe the senior management will agree.’

Lu Yuan shook his head and smiled: ‘Forget it, I can’t stand the bondage.’

It is impossible to work part-time, and it is impossible to work part-time in this life.

‘Pity.’

Lu Yuan changed the subject: ‘Looking at Brother Liu’s expression, did you pass the Elite Level 3 trial?’

‘Hahaha, I barely made it through.’

Liu Xi was smug and smiling.

Lu Yuan smiled and said: 'There are probably no more than ten genetic warriors here who can pass Elite 3, and Brother Liu's strength is considered top here.'

'Hahaha, brother Lu Yuan praised.'

For the praise of ordinary people, Liu Xi may not care too much, after all, his status is not low in Shayan City.

But Lu Yuan is a very talented genius. Lu Yuan's praise makes Liu Xi very useful.

At this moment, a genetic warrior from the Tianfu consortium next to Liu Xi whispered:

'Supervisor, in this trial, there was a man who broke into the trial of genius.'

'Trial of genius?!'

Liu Xi was shocked.

It was only after this Gene Warrior and Zhuo Ming's babbled explanations that he understood.

He widened his eyes, a little shocked.

'Someone can pass the Elite Level 4 trial?! That's a total of 1,000 dark gray stone men! How did he do it?!'

Lu Yuan nodded in agreement, and exclaimed:

'It's really strong, I don't know who it is.'

Liu Xi glanced at Lu Yuan, then smiled and said:

'Brother Lu Yuan, don't be discouraged. You can pass Elite Level 2 as soon as you awaken. If you awakened last year, you would definitely be able to enter

the genius trial. You don't need to feel lost. Your talent is extremely high. The tester may not necessarily be better than you.'

Lu Yuan is a little dazed.

discouraged?

When did I get discouraged?

That tester is definitely not better than him, probably as strong as him?

is him after all.

Lu Yuangan smiled and said:

'Brother Liu is right, I will continue to work hard.'

Liu Xi smiled and nodded.

After a while, Green also came out.

His face is still a little black, the armor on his body is almost torn, and the huge shield is a little pitted.

But there is still a slight smile on his face.

'The captain is out!'

Zhuo Ming and the others were all pleasantly surprised.

They greeted him.

The blonde youth asked with a smile:

'Captain, how is it? Which level did you reach?'

Green smiled all over his face: 'Good luck, using various means to finally pass the Elite 2 trial.'

Hearing this, Zhuo Ming looked shocked.

‘Captain, you have risen! You have gone through the same level of trial as Yuan Ge!’

Green looked black when he heard this:

‘Hunboy, what do you mean? Lu Yuan is strong, am I weak?!’

Zhuo Ming and the blond young man glanced at each other, and they all laughed dryly without speaking.

Green looked even darker when he saw this.

Just then, Liu Xi came over and smiled:

‘Mr. Green, you passed the Elite Level 2 level, should you get a drop of Moonstone Essence? That’s it. I want to buy this Moonstone Essence from you. I wonder if you want to cut your love?’

Green was taken aback, looking at Liu Xi:

‘Mr. Liu wants to buy this moonstone essence? What price do you plan to offer?’

‘Mr. Green, you are a friend of Brother Lu Yuan, and that is my friend. The price I will give is definitely not low, 3000 Lingjing, how about it?’

Hearing this, Lu Yuan was taken aback, a little surprised.

The effect of 1 drop of Moonstone Essence is equivalent to 100 drops of Moonstone Spirit Dew.

And the spiritual power contained in the Moonstone Linglu and Lingjing is similar.

The spiritual power contained in 1 drop of moonstone essence is equivalent to 100 spiritual crystals.

Although Moonstone Essence has many effects such as healing and enhancing physical strength.

But Lu Yuan still didn't expect Liu Xi to quote such a high price.

Not only Lu Yuan was shocked, but Green and Zhuo Ming were also shocked.

Green's eyes widened and looked at Liu Xi: '3000 Lingjing? The price...'

'What's wrong? Mr. Green, I am very sincere. This is the highest price I can give, and it won't be low.'

Liu Xi frowned slightly.

'No, no, Mr. Liu, I think the price is a bit high.'

Liu Xi was taken aback, and then smiled: 'Hahaha, are you willing to sell?'

Zhuo Ming and the blond young man beside are all looking forward to Green.

Green also nodded: 'I sold it!'

Even though Moonstone Essence has various effects, it only has 1 drop after all, which is not very useful to him.

can sell 3000 Lingjing, but a fool will not sell it!

Liu Xi also showed a smile: 'Then trade it.'

The two quickly completed the transaction.

Green got a bunch of spirit crystals, smiled happily.

And Liu Xi was also very satisfied and smiled.

He turned his head and looked at Lu Yuan: 'Brother Lu Yuan, do you want to sell your moonstone essence?'

Lu Yuan smiled and shook his head: 'I won't sell it, I plan to keep it for my own use.'

He doesn't have only one drop of Moonstone Essence, he has 139 drops of Moonstone Essence. If he sells it and replaces it with Spirit Crystals, it will have 417,000!

For a trainee-level genetic warrior, this is an extremely huge asset.

However, Lu Yuan now has no shortage of spirit crystals, and he still needs to cultivate with moonstone essence.

'Hahahaha, yes, you can hunt hundreds of beast monsters every day, how can you lack spirit crystals?'

Liu Xi smiled and shook his head, and did not ask for the sale.

.....

In the ruins space, new genetic warriors come in from time to time, and genetic warriors who have completed trials leave.

Especially the lone traveler, after the trial came out, he had already found a chance to leave secretly.

But because many genetic warriors died in the trial, the number of genetic warriors in the ruins space at this moment was reduced by more than half at the beginning.

Green and Liu Xi both have their own teams, so naturally they need to wait for the team members here.

After a while, both of them frowned.

Liu Xi looked at the Shiman Tower: 'It has been so long and no one has come out yet. It seems that the rest should be dead inside.'

Green looked at his team, only he, Zhuo Ming, the blond youth and the black short-haired man came out alive.

He frowned slightly, then sighed:

‘It seems that Xiaoyu and John should have failed.’

‘In that case, then we have to leave.’

Liu Xi said, he looked at Lu Yuan, ‘Brother Lu Yuan, do you want to leave with us? This trial, everyone who comes out alive will have gained a lot, I’m afraid someone will look at those who come out alive.’

Lu Yuan also understands.

After all, as long as the tester is killed, the harvest this time will fall out.

Naturally someone will be intercepted.

I am afraid that in the next time, there will be a lot of chaos in the UU Reading www.uukanshu.com underground palace.

Lu Yuan thought about it, then nodded:

‘Well then, let’s leave together.’

Although he is not afraid of difficulties, but he does not like troubles. By following Liu Xi and the others, he can avoid a lot of troubles.

Green smiled and said, ‘Then let’s be together.’

After everyone said, a group of people left the relic space.

.....

in the group of kobolds.

Bertha watched Lu Yuan and Liu Xi leave with a cold look in her eyes.

She turned her head to look at Mauss on the side: ‘Mauss! Didn’t you say that they won’t leave together?! Now you give me an explanation!’

Maus’s eyes drifted away: ‘This... they really didn’t come together before. I’m afraid it’s because of the ruins this time, everyone has gained, and it’s safer to leave together, right?’

‘I don’t care what their reasons are! What about my next plan?’

Bertha’s expression is cold.

‘Miss San, this time Lu Yuan is with the people from the Tianfu Consortium, so we probably won’t have a chance to start. However, we still have a chance. After all, we already know that he is here. We just need to stare at him in the future. I can find the opportunity.’

Jingba reminded Bertha.

Bertha heard the words, took a deep breath, and slowly calmed down her dissatisfaction.

She nodded: ‘What you said makes sense. If that’s the case, you will stare at him in the future! This ** human being has progressed too fast. I am afraid that I will make progress again after passing the trial this time. Kill him before he becomes stronger!’

Jingba grinned, showing sharp teeth:

‘Don’t worry, Miss San, he won’t be proud of it after a long time.’
