

Chapter 62: My Genes Evolve Infinitely

ALIEN, BOSS FIERCE BEAST, CATWOMAN

Among the six people standing there was Framing.

Flaming lowered his head and said:

‘My lord, after our investigation, the black shadows that appeared this time are probably caused by an alien. There have been three alienation incidents in Xili City in the past ten years, and there is one extraordinarily serious incident. After being retracted, it is impossible to determine the source of this alien substance. But what is certain is that this alien substance should be in the slum area now, and it is getting stronger. It is very dangerous.’

Li Qinghe spit out his smoke and slowly said:

‘Can you be sure who is in the hands now?’

A capable woman with short hair opened the mouth and said: ‘My lord, I have joined the black flag department in the slum area. After learning about the slum area in recent years, I have initially screened out people who may possess alien objects.’

‘Huh? Tell me about it.’

‘The first one was Jing Kang, the governor of the slum area. He was a family member of Xili City. He was not favored at Jing’s house. He was eventually sent to this area to govern and provide for the elderly, meaning exile. But Jing Kang’s channel is undoubtedly the largest in the slum area. If there are alien objects, he has the greatest probability of being exposed.’

‘The second is Dulong Lucius. He is a well-known wilderness hunter. He is based in a slum area. With Lucius’s strength and status, he can put his station in other cities, but he chose here. There may be reasons for this. In recent

years, Lucius's strength has improved rapidly, and it may also be related to this alien.'

'The third is Xue Ren, the leader of the Wild Dog Gang. This person is from the bottom of a slum. His father forced his mother to be a prostitute and forced him to beg. He eventually killed his father when he was twelve years old. Join the gang and start activities. This person is cruel and unscrupulous in order to achieve his goal. The black dog gang he founded is now the largest gang in the slum, and he does all kinds of illegal activities. He is also a genetic warrior, but his strength is not very strong. It can be said that there is a certain possibility.'

'The fourth one is the law enforcement officer Shuihu. He is very strong, but he has colluded with gangs and acted as a cover for the actions of many gangs. He is even the boss behind the large gang, the Qingzhu Gang...'

'Fifth...'

Li Qinghe listened quietly, took a cigarette, and fell silent.

She slowly said:

'These characters, focus on staring, hurry up, I want to end in a month, can it be done?'

A few people were taken aback, staring at each other, and Flamming opened his mouth and said:

'Oh, my lord...for a month, isn't it a bit too anxious? These are old foxes. It's not that simple to want them to show their flaws.'

'Um?'

Li Qinghe glanced at him, and Flamming lowered his head quickly.

Li Qinghe smiled: 'I just want to end this matter soon, lest someone rush me.'

Several people glanced at each other, their eyes a little startled.

‘As an adult, who dares to urge you?’

‘Don’t ask if you shouldn’t ask.’

Li Qinghe waved his hand: ‘Go ahead, I’m going to the place of origin.’

‘Yes!’

.....

The place of origin, outside the sandstone city.

Lu Yuan thought for a while, but in the end he didn’t go to the sandstone underground palace.

Luyuan’s current fame makes it easy for people to pay attention to the sandstone underground palace.

His strength has improved too much now, and it would not be suitable if he is in the outer circle.

In the inner circle, it is easy to be suspected.

There is no need for that.

On the other hand, although the hunter might not be too close to the warriors who have been to the ruins now, it is inevitable that they may encounter that kind of brain.

He doesn’t like trouble either.

A stable development is good.

It’s better to go to a place where few people know him.

Luyuan saw the map around Shayan City.

He found his destination, which is a place called Guhai Oasis.

Sand Rock City is surrounded by desert Gobi.

However, there are also oases above the desert Gobi.

Guhai Oasis is the largest oasis among them.

The fierce beasts on the oasis are not very similar to other areas, but are more like fierce beasts in the forest.

The fierce beasts there are all strong.

The lowest ones are ordinary fierce beasts with a tempering degree of 50%.

It is even said that in the depths of the oasis, there are infinitely close to Tier 1 boss-level fierce beasts.

That's very strong.

For Lu Yuan, the periphery of Guhai Oasis is very suitable for him now.

Moreover, Guhai Oasis is very big, as long as he doesn't show his strength in front of people, he will not be discovered.

Lu Yuan moved in the direction of the Guhai Oasis.

Guhai Oasis and Sandstone Underground Palace are in opposite directions.

Lu Yuan left through another gate.

Outside the city gate is a desert. The ancient sea oasis is hundreds of kilometers away from the sandstone city. At the speed of a genetic warrior, it will take several days to pass.

Lu Yuan is not in a hurry. There are fierce beasts in the desert. He can hunt the beasts while moving.

.....

The bazaar outside the palace in the sandstone ground.

Bertha Vimy looked at Jingba next to him, her face full of impatient:

‘So many days have passed, haven’t you seen that human being reappear?!’

Jingba twitched the corners of his mouth, looking helpless:

‘Yes, Miss San, I haven’t seen the human again. After he followed Liu Xi back to Sandstone City last time, we lost his trace.’

Bertha frowned: ‘He’s not going to another place again?!’

‘This...isn’t it?’

Jingba hesitated and said:

‘For Lu Yuan, the sandstone underground palace is the area he is most familiar with. If you go to other areas, you may face a lot of dangers when you are familiar with that area. For a normal genetic warrior, it will not be so fast. Change the area.’

Bertha frowned: ‘Then why hasn’t he appeared for so long?’

‘This...maybe he gained a lot last time. Want to wait until he digests all these gains before coming out?’

Bertha thought for a while, and felt that what Jingba said was reasonable.

She nodded: ‘Humph! Then wait a while.’

Jingba nodded, and said, ‘Don’t worry, Miss San, I will let people keep staring at this place, I will tell you the first time there is Lu Yuan’s movement.’

‘That’s good, I also went hunting.’

Bertha nodded and entered the underground palace.

.....

Two days later, Lu Yuan walked out about a hundred kilometers in the desert.

Along the way, he also killed hundreds of sand scorpions, sand ants and sand wolves, and collected a lot of materials.

Fortunately, with the improvement of his cultivation level, the space of the war pattern is getting bigger and bigger, and it is not too much to let it go.

Otherwise, losing some materials, Lu Yuan still feels a little bit painful.

A piece of Gobi area, Lu Yuan sat in the shade under a stone pillar to rest.

He took out a water glass, drank a few sips, and exhaled slightly.

‘Is it almost a hundred kilometers away... I don’t know when I can get the mount, it’s too difficult to run like this.’

Lu Yuan sighed, took out another piece of chocolate, tore open the package and chewed.

Boom!

At this moment, there was a sudden roar in the desert in the distance.

Lu Yuan was shocked and turned his head abruptly to look over. Not far away, Lu Yuan saw a piece of yellow sand rising, forming a sand wave.

A wave of sand surging quickly approached in the direction of the landing edge.

Lu Yuan stood up abruptly, looking at Sha Lang with some caution.

‘what is that?’

Soon, he was in the sand waves and saw a huge beast.

It was a huge crocodile over two meters tall, covered with thick armor.

The crocodile was swimming in the sand, and the tremendous force caused the sand waves.

The crocodile’s pupils are dark yellow, with a cold and tyrannical aura.

Lu Yuan saw the crocodile, his pupils shrank and his scalp numb.

‘Sand crocodile?! Such a big one?? Isn’t he the boss? Why is it so unlucky?!’

He didn’t even think about it, UU read www.uukanshu.com and fled directly away from the sand crocodile.

That is, boss-level fierce beast!

After running a few hundred meters, he lay down in the sand, watching the sand waves in the distance, sweat on his forehead.

The sand crocodile obviously did not notice the land margin, and moved on without changing its direction.

When it passed the location where Lu Yuan was, its huge tail swayed and hit the one-meter-thick stone pillar that Lu Yuan was sitting on while resting before.

The stone pillar cracked and collapsed directly.

Lu Yuan couldn’t help swallowing.

This destructive power...

Although this stone pillar has been eroded by wind and sand all the year round, it is not that hard, but Lu Yuan can’t interrupt it even with his full strength.

Unexpectedly, the sand crocodile would break its tail as soon as it swung.

Is this a boss-level beast?

At this moment, Lu Yuan’s eyes widened, and he looked behind Sha Lang with shock.

A black shadow flashed past, chasing the sand crocodile in front of him continuously.

The black shadow is a cat girl with black cat ears, black cat tail, and black long hair.

The girl seemed to feel something, she turned her head and glanced at Lu Yuan's direction.

There is no expression on her beautiful face, and there is no wave in her dark eyes.

Lu Yuan seemed to be stared at by a peerless beast, and his whole body was cold.

The cat girl only glanced at Lu Yuan before she retracted her gaze, and continued to chase the huge sand crocodile.

Lu Yuan's whole body seemed to lose strength, he fell softly to the ground, breathing continuously.

There was disbelief in his eyes.

The boss-level sand crocodile is being hunted down? !

That catwoman is so strong, just looking at him, he felt the threat of death.
