

Chapter 66: My Genes Evolve Infinitely

YOU CAN LEAVE XILI CITY

11 noon the next day.

Lu Yuan's body suddenly appeared in the simple room.

There is a slight smile on his face.

I spent seven days in the Land of Origin this time, and it was a good harvest.

Guhai Oasis' fierce beasts are generally strong, and even the elite fierce beasts Luyuan have encountered three.

After was killed, he also obtained a set of elite quality leather armor.

Although this is not for him, he can take it to auction.

Not only that, in the past seven days, he has harvested 340,000 spiritual crystals.

This is quite a wealth.

The only regret is that after the moonstone essence is used up, he has to continue to use the spirit crystal to refine the gene chain.

The improvement effect of tempering degree is now much slower.

In addition, his tempering degree has exceeded 90%, and the improvement has been slower.

In these seven days, his tempering degree only reached 93%.

At this rate, it is estimated that it will take nearly a week to reach 100%.

Even Lu Yuan is already so slow. He can understand why Wang Xiangxiang and Cao Yan, the children of genetic warrior families, are not short of spirit crystals, but it took nearly three years to break through the first level.

Using Lingjing to practice, the speed is still a bit slow.

It's a pity that you can never find such a treasure as the moonstone essence.

For this speed, Lu Yuan is already very satisfied.

A week later, he has only just awakened for about a month.

Lu Yuan stopped paying attention to the harvest this time, and took out his mobile phone to look at it as he went to wash.

He saw the message from Li Qinghe.

‘Brother destiny, the black rat gang and the wild dog gang were merged last night, and the slums will be more dangerous these days and nights. You should pay attention to safety when you go out.’

Lu Yuan smiled, holding a toothbrush in his mouth, and replied to Li Qinghe, asking her to also pay attention to safety.

Then, Lu Yuan found someone @他 in the future God of War group.

He opened it, and someone reprinted an article.

‘Last night, the gangs in the southern district merged on a large scale! 》

It was yesterday about the gun battle in the slum area last night.

Lu Yuan opened it and took a look.

In , the specific content of the fire is unknown. It can only be known that it is the black rat gang and the wild dog ganging the fire. The number of participants and the number of deaths and injuries cannot be counted.

Lu Yuan can also understand.

Which reporter would dare to risk his life to investigate the gang here ?

Even the police dare not, do they think they are living too long ?

The news about gangs in slums has always been like this.

Wang Xiangxiang: ‘Lu Yuan, is this your side ? It’s so dangerous ? There are hundreds of people merging together ?’

Zhuo Ming: ‘Brother Yuan, are you okay ?’

Gu Yu: ‘How could something happen to Brother Yuan ? His strength is so strong, ordinary pistols are not a threat to him, right ?’

Winnie: ‘Don’t think too much about it, maybe Lu Yuan was in the place of origin at that time.’

Lu Yuan watched the people chat, smiled and replied:

‘I just passed by yesterday, and I encountered a gunfight, and it was quite loud.’

When Lu Yuan spoke, all of them bubbled up.

Zhuo Ming: ‘Really ? Brother Yuan, did you bump into the fire ?!’

Lu Yuan: ‘He Zhihuo merged ? I also encountered a few genetic warriors fighting, four besieged one, but unfortunately those four were counter- killed.’

Lu Yuan talked about the previous situation again, and chatted with a few people again, and stopped chatting any more.

He thought of the previous battle.

According to this situation, Pate may have been completely cold ?

No, if the four genetic warriors were senior members of the Black Rat Gang, the entire Black Rat Gang might be gone.

If this is the case, then who does he look for to investigate those shadows?

Lu Yuan feels a little headache.

While thinking, he walked out of the room, took the cold steamed buns and fritters and soy milk on the table, and went out to sell the ingredients.

.....

the following few days.

The whole slum area calmed down.

The last gun battle seemed to have never happened before, and no abnormalities continued to appear.

Although the Wild Dog Gang destroyed the Black Rat Gang, it was very low-key and did not continue to engage in trouble.

Lu Yuan's daily life is also very regular.

At night, enter the land of origin to hunt down the beasts and obtain spirit crystals.

Since the time spent in Origin Land increased to seven days, no matter how he improved his cultivation base, his stay time would not continue to increase.

Lu Yuan guessed this should be the limit.

Next time to increase the residence time, he may have to wait for him to break through the first order.

Because of his strength, Lu Yuan has gained a lot every day.

The tempering degree has reached 98%.

After coming out of the place of origin, Lu Yuan routinely went to the crazy wolf material shop to find Xue Wang to sell materials.

Unknowingly, his deposit has exceeded 10 million.

As the deposit increased, Lu Yuan found himself a little numb.

Things like money, he seems to have no idea.

After all, he can make millions every day, and he seems to be unable to use it up.

Even, Lu Yuan spent a lot of money to buy high-quality potions and higher-level potent potions.

A potent potion for healing requires 120,000 per bottle, 200,000 for speed potions, and 150,000 for defensive potions.

Not only that, Lu Yuan also bought a scorpion venom potion, which cost a full 350,000 for a potent potion, and 200,000 for a detoxification potion.

Even so, he still can't run out of money.

Lu Yuan also said that he couldn't accept it for a while.

How to use so much money better?

.....

On this day, Lu Yuan once again came to the crazy wolf material shop.

Xue Wang, who was playing a game, raised his head. After seeing Lu Yuan, he smiled:

‘Oh, Lao Lu! Are you here? How is your harvest today?’

Lu Yuan smiled: ‘Look at it for yourself.’

Lu Yuan took out a bunch of materials.

The materials are densely packed and piled up into hills in the open space in the center.

‘Tsk tusk, every time I see you come up with so many materials, I still find it a little unbelievable. You alone can compare to the gains of two or three teams.’

Xue Wang couldn't help but shook his head and sighed.

Lu Yuan rolled his eyes: 'What are you doing with so much nonsense? Just count.'

Xue Wang counted up the materials with a smile.

'Huh? An elite wolf claw? Have you hunted an elite beast again?'

Xue Wang looked at the pitch-black claws that were dozens of centimeters long in his hand, raised his eyebrows, and smiled.

'Well, there are many elite and fierce beasts in Guhai Oasis, and you can always come across with luck.'

'Are there any elite-level weapons? I will buy them too.'

Xue Wang said.

'I plan to sell it at the Shayan City auction house.'

Lu Yuan rolled his eyes: 'Money is not very useful, I want to change to Lingjing.'

'Damn! You really have one?'

Xue Wang's eyes widened, a little surprised.

After all, elite-level genetic weapons are already quite precious.

Lu Yuan smiled.

Just when Xue Wang was about to speak again, the store door was pushed open with a creak.

Xue Wang inadvertently raised his head and glanced, his body stiffened and he stopped in place.

Lu Yuan glanced at Xue Wang's expression, then glanced back with some confusion.

After seeing the person behind him, Lu Yuan's pupils shrank, his eyes were a little shocked, and cold sweat came out from his back.

That was a handsome middle-aged man with gray hair mixed in between his black hair and a hint of majesty and gloom on his face.

He stood there, the sun was blocked behind him, casting a shadow.

is exactly the besieged genetic warrior Lu Yuan saw a few days ago.

Based on the scene Lu Yuan saw at the time, his strength is probably already second-tier.

Unexpectedly, I would meet him here.

Does this guy recognize him ? !

Lu Yuan was a little palpitated. U U Reading www.uukanshu.com

Xue Wang, who had been squatting on the ground, had a cold face and stood up.

'What are you doing here ? You are not welcome here!'

The middle-aged man glanced at Lu Yuan beside him and then looked away.

He looked at Xue Wang and said lightly:

'I know you don't like me. In that case, you can leave Xili City and live where you want to go.'

Xue Wang was taken aback, looked at the middle-aged man in a bit of amazement, and then sneered:

'What ? You asked someone to come and take me back before, but now you don't take me back ?'

The middle-aged man looked at Xue Wang and fell silent.

Then, he slowly shook his head:

‘I’m leaving, if you want to leave, just leave.’

said, the middle-aged man turned around and walked out of the shop, and the door closed again.

The atmosphere in the store fell into silence.

Xue Wang looked at the store door with no expression on his face, and didn’t know what he was thinking.

Lu Yuan felt relieved.

It seems that this guy did not come to him, but to Xue Wang.

He remembered the black men who came to Xue Wang before.

They are called Master Xue Wang.

Now Xue Wang said that this middle-aged man asked him to take him back.

Could it be this middle-aged man or Xue Wang’s father?

and many more...

Lu Yuan was shocked suddenly.

The last time I met this middle-aged man was an ambush by a high-level black mouse gang.

In other words, he is the top of the wild dog gang?

Tier 2 strength... Isn’t this the boss of the wild dog gang?

Lu Yuan looked at Xue Wang in surprise.

Isn’t Xue Wang the prince of the Wild Dog Gang?

I didn't expect him to have such an identity.
