

# Chapter 67: My Genes Evolve Infinitely

## MEET THE BOSS AGAIN

After the atmosphere fell silent, Lu Yuan looked at Xue Wang, and tentatively asked:

‘Old Xue, who was that person just now?’

Xue Wang recovered, he sneered:

‘It’s just a villain.’

Lu Yuan looked at Xue Wang, who was silently counting the materials after speaking, and knew that he didn’t mean to say more, so he stopped asking more questions.

Anyway, that person didn’t come for him.

.....

Outside the crazy wolf material store.

Xue Ren walked out and walked towards a black levitating car with a vicious dog’s head engraved on it.

Outside the suspended car door, a man in black wearing black sunglasses opened the back door and stood respectfully.

Xue Ren stood in front of the car door, turned his head and glanced at the crazy wolf material shop.

After being silent, he turned and entered the car.

Just when the man in black was about to close the door, Xue Ren thought of something and said lightly:

‘There is another person in the store, check who he is.’

Xue Ren always felt that he seemed to perceive the breath of the person in the store.

Hearing what Xue Ren said, the man in black paused and nodded:

‘Yes.’

The floating car vacated, turned around, and left quickly.

Xue Ren looked at the material shop that disappeared in his eyes, slowly closed his eyes, leaned on the chair, and sighed.

.....

The place of origin, the ancient sea oasis.

In a forest.

An ancient sea python, almost the thickness of a bucket, opened its mouth in the blood basin and bit down towards the edge of the landing.

Lu Yuan let out a low cry, squeezed the epee with both hands, and chopped it down forcefully.

The heavy sword carried an extremely fierce sword wind, and a jet of black sword light flashed past the neck of the ancient sea giant python.

The heavy sword instantly cut open the thick ling armor of the ancient sea giant python, as if there were no obstacles, it slashed directly across the thick body, and cut its head off.

Blood was gushing, the ancient sea python fell heavily, the headless corpse twisted fiercely, and the tail was thrown on a tree trunk, shaking the big tree more than ten meters long.

Lu Yuan looked at the corpse on the ground gradually losing its movement, the corners of his mouth raised, showing a slight smile.

‘A sharp beast with a tempering degree of at least 90%, I didn’t expect it to be killed with a single sword. Heigang is too strong!’

During this period of time, through Lu Yuan’s continuous efforts, his black steel strength has broken through the first level, reaching a level close to the second level.

can increase the strength by 80%!

Just like this, Lu Yuan only needs a single sword to kill an elite beast whose strength is not much weaker than him.

is especially this kind of rough skin and thick flesh.

This is all the power brought by Heigangjin.

A green ball of light emerged from the body of the ancient sea python.

Lu Yuan’s eyes lit up, and he put the light group away and saw that it was a set of elite-level leather armor.

This is already the third set of elite armor that Lu Yuan has now acquired.

The other two sets are also Lu Yuan’s gains in the past few days.

He didn’t even sell it, and planned to take it back to the auction of Sandstone City.

put away the light ball, Lu Yuan picked up the other dropped items, and then left the area.

The movement of the ancient sea pythons was not small.

This place is not as dense as the sandstone underground palace. The surrounding fierce beasts are denser. If you stay in place, you might encounter a group of fierce beasts.

Not long after, Lu Yuan walked to a river almost five meters wide.

Seeing the river, Lu Yuan was a little surprised, and then thought that it might be a tributary of the ancient sea.

He looked at both sides, thinking that one side should lead to the ancient sea.

There is the most central area of the entire oasis. It is said that there are a large number of elite beasts, and even the chief beasts appear from time to time.

This is not something that Lu Yuan can handle alone.

But he should still be fine if he wants to run.

He didn't worry, and ran over after finding a direction at random.

Not long after, Luyuan discovered that there were two ancient sea giant crocodiles over three meters long and covered with gray armors crawling on the ground on the river beach.

They are enjoying the sun enjoying themselves.

Lu Yuan raised his eyebrows and walked over with the heavy sword.

Two giant crocodiles noticed the land margin when they were close to 20 meters.

They looked at Lu Yuan one after another, and rushed towards him with an angry roar.

The speed of the giant crocodile on the shore is not slow, of course it is still a lot worse than that of Luyuan.

Lu Yuan stepped on the ground, his body passed through the center of the two giant crocodiles, and the sword light flashed by.

Blood spouted from the necks of the two giant crocodiles, and the huge corpses slid forward several meters.

Lu Yuan put away the spirit crystal and materials, and moved on.

As you walk along the river, you can encounter ancient sea giant crocodiles from time to time.

Some are watching the sun on the beach, and some are soaking in the river, like dead trees.

The strength of the ancient sea giant crocodile is similar to that of the sand crocodile, ranging from 50% to 100%.

is distributed in ancient seas and branches, and is one of the predators in this area.

Of course, that is for other fierce beasts.

For Lu Yuan, it was a prey.

After walking a distance along the river, Lu Yuan found that the forest had reached its end.

In front of him is a small mountain range.

The direction of the river is a valley.

At the mouth of the valley, the river beach has widened a lot, and both sides are almost 20 meters wide, extending from outside the valley to the inside of the valley.

On the river beach, there are more than 20 ancient sea giant crocodiles crawling on the ground, screaming at the sun.

There are two huge monsters with a pitch black body, more than eight meters long, and a horn on their foreheads.

An elite level ancient sea giant crocodile.

Seeing two elite-level fierce beasts, Lu Yuan showed a surprised smile. Without even thinking about it, he rushed over with his sword.

When they rushed to a distance of more than 30 meters, two elite ancient sea giant crocodiles who were taking a nap looked up.

After seeing Lu Yuan, they roared and rushed towards Lu Yuan.

was awakened by two elite-class ancient sea giant crocodiles, as did other ancient sea giant crocodiles, roaring towards Lu Yuan.

Lu Yuan grinned, his whole body burst out, the body of black iron coupled with the strength of black steel, a sword almost cut the fastest ancient sea giant crocodile in two.

His figure flickered, and every sword could take away a normal-level ancient sea giant crocodile corpse.

At this moment, an elite level ancient sea giant crocodile rushed in front of Lu Yuan.

Its body lin armor flashed with black light, and it roared and opened its blood basin and bit towards Lu Yuan.

Lu Yuan kicked his legs on the ground and rose two meters into the air, avoiding the bite of the giant crocodile.

Looking at the behemoth below, a cold light flashed in Lu Yuan's eyes.

He clenched the heavy sword and chopped it down heavily.

The lin armor flashing with jet black light shattered in an instant under the terrifying slash, and the blade penetrated into the back of the giant crocodile.

At the same time, the terrifying power directly caused the giant crocodile to stand unstable, and its body was directly overwhelmed on the river beach.

After using Hei Gangjin, Lu Yuan's power at the moment was overwhelming.

He stepped on the giant crocodile, with both hands hard, the heavy sword directly penetrated the giant crocodile.

The giant crocodile screamed and lost its vitality.

At this moment, the stench of the wind blows on his face.

Lu Yuan turned his head and saw that another elite giant crocodile had arrived in front of him, opening his mouth to swallow Lu Yuan.

Lu Yuan smiled, pressed the upper jaw of the ancient sea giant crocodile with his left hand, and with force, his body directly rose into the air, avoiding the attack.

The ancient sea giant crocodile rushed over the corpse of his companion, and Lu Yuan had fallen on its head~[www.mtlnovel.com](http://www.mtlnovel.com)~ The ancient sea giant crocodile saw Lu Yuan standing on top of its head. Lu Yuan threw it out.

But it's too late.

Lu Yuan's sword directly penetrated its head, ending its life.

Both elite fierce beasts were killed, and the remaining ordinary fierce beasts naturally did not pose much threat to Lu Yuan.

He easily killed all the remaining giant crocodiles.

He collected the fallen spirit crystals and materials.

entered the valley.

Not long after entering the valley, Lu Yuan successively encountered ancient sea giant crocodiles.

There are many more than outside.

even occasionally encounter elite giant crocodiles.

Luyuan was besieged by twenty or thirty giant crocodiles for a long time.

It's a pity that the ordinary level ancient sea giant crocodile can't even defeat the defense of the land edge.

has no threat to Lu Yuan.

Lu Yuan walked all the way into the valley, killing hundreds of ancient sea giant crocodiles, and probably had to harvest more than 6,000 spirit crystals.

Lu Yuan wondered if he had entered the crocodile den.

Not long after, Lu Yuan came to the end of the valley.

At the end of the valley is a pool with a radius of more than 30 meters.

There are four elite ancient sea giant crocodiles crawling and resting on the side of the pool.

When Lu Yuan was about to kill the four elite ancient sea monsters, the water in the pool suddenly seemed to be boiling and surging.

The next moment, a huge head poked out.

The head alone is five or six meters long.

At this moment, on this head, a pair of fierce vertical pupils are looking at Lu Yuan, which enters the range of the pool.

Lu Yuan looked at this huge head, his pupils shrank, his whole body tense.

This body type... the boss? !
