

Chapter 69: My Genes Evolve Infinitely

TRANSFER OF INITIATIVE

‘Roar!’

Feeling the abnormality behind him, the leader of the ancient sea giant crocodile roared, his body suddenly turned, trying to press Lu Yuan under him.

Lu Yuan was shocked when he felt the change.

If he was pressed down by such a huge body, even if his defensive ability is already so strong, I am afraid it would be a bit too much.

With his feet on the ground, he instantly rose into the air and jumped to the side.

The ancient sea giant crocodile flipped its body dexterously, and a blue light flashed again on the unicorn.

嗤嗤嗤!!

Three consecutive water arrows shot towards the landing edge at extremely fast speeds, appearing in front of Lu Yuan almost instantaneously.

Lu Yuan’s pupils shrank, his figure flickered, and he avoided the three water arrows dangerously and dangerously.

The arrow of water fell on the ground and made a roar.

Before Lu Yuan had time to rejoice, the ancient sea giant crocodile leader and the three elite giant crocodile still alive simultaneously rushed towards Lu Yuan.

The leader of the ancient sea giant crocodile leapt forward, while condensing water arrows again.

Lu Yuan hurriedly moved around, and quickly hid behind an elite giant ancient sea crocodile.

He felt a little grateful.

Fortunately, this ancient sea giant crocodile's combat skills are biased towards the guardian system and the elemental system, and its speed is not particularly powerful.

Although it is a boss-level fierce beast, after drinking a potent speed potion, Lu Yuan can barely escape the attack of the ancient sea giant crocodile boss.

As for the elite level ancient sea giant crocodiles, their speed is naturally slower.

Lu Yuan basically didn't care about it.

Boom! !

Lu Yuan just breathed a sigh of relief when he felt threatened.

a roar sounded, and a big hole appeared on the elite side of the ancient sea giant crocodile he was avoiding, and a water arrow shot at him.

Unexpectedly, Lu Yuan's pupils shrank, only having time to block with his sword.

The arrow of water hit Lu Yuan's epee.

The powerful force threw him away almost instantly.

The tremendous strength made Lu Yuan almost unable to hold the epee in his arms, and there was a sharp pain all over his body. He couldn't help coughing up a mouthful of blood.

Lu Yuan looked at the ancient sea giant crocodile who fell in a pool of blood and was shocked.

I didn't expect this ancient sea giant crocodile leader to be so cruel, even his own men would be beaten.

Moreover, the power of this water arrow is so powerful that it directly opened a hole for the elite-level ancient sea giant crocodile. Even so, the remaining power still injured him.

If it is a full-blown water arrow, I am afraid that a single blow will cause him to be seriously injured.

Just then, the piercing sound rang out again.

A water arrow shot at him.

Lu Yuan was in the air at the moment. He twisted his body and barely moved.

The arrow of water slashed across Lu Yuan's face, and wisps of blood appeared on his face.

The powerful body of black iron and powerful defensive potions seemed to have no effect at all.

The combat skills of the boss-level fierce beasts are too powerful.

After landing, Lu Yuan moved quickly again, avoiding the water arrow for the next second.

His figure flickered, passing the corpses of four ancient sea giant crocodiles and two still alive ancient sea giant crocodiles as bunkers, avoiding a series of water arrows attack in a thrilling manner.

The pressure of suffocation caused a cold sweat on Lu Yuan's forehead.

As long as he is slightly careless, he may be hit by a water arrow.

As long as he is hit, he will be cold.

Lu Yuan looked at the ancient sea giant crocodile leader who was constantly jetting water arrows, not knowing how to deal with it.

Even if he wanted to escape, the constant influx of ancient sea crocodiles made him lose his escape route.

Lu Yuan glanced at the direction of the exit, roaring continuously.

More than a dozen giant ancient sea crocodiles rushed in one after another and rushed towards Lu Yuan.

This is just an ordinary giant crocodile of the ancient sea, it is even difficult to break the defense of the land edge.

However, as long as they block the edge of the land for a moment, the edge of the land may be hit by a water arrow.

With the constant influx of the ancient sea giant crocodiles, it became more and more difficult for him to avoid.

The body of the ordinary ancient sea giant crocodile is too short to even block the sight of Luyuan.

And their defenses are too weak, it is difficult to even reduce the power of water arrows.

Their only use is to increase the difficulty for Lu Yuan to avoid.

Lu Yuan even had to jump on the back of the ancient sea giant crocodile to escape.

Water arrows are constantly shooting out, and from time to time they will accidentally injure the ancient sea giant crocodile, and the ground is already full of corpses.

The blood stained the beach and even flowed into the pool.

The air is full of blood.

The only thing Lu Yuan can do now is to wait for the ancient sea giant crocodiles to rush in, and when the entrance is vacant, he can escape.

A few minutes later, Lu Yuan struggled to avoid the attack of the water arrows, and always paid attention to the location of the entrance.

He could see that there were fewer and fewer ancient sea giant crocodiles in the distance, and a smile appeared in his heart.

If this continues, it is not difficult to escape!

He took out a spiritual crystal and quickly absorbed it.

In a short time, Lu Yuan has absorbed more than ten spirit crystals.

Spiritual energy consumption far exceeds his imagination.

At this moment, the leader of the ancient sea giant crocodile in the distance suddenly let out an angry roar.

Lu Yuan was startled, and quickly looked over.

He saw the unicorn of the ancient sea giant crocodile gleaming with blue light continuously.

However, as soon as the water vapor condensed, it collapsed.

Lu Yuan was taken aback for a moment, and then he showed a look of surprise.

‘This is...I don’t have the power to release combat skills?!’

Thinking about it, Lu Yuan is already close to 100% temperament anyway, and he has recorded elite genes, and there is a lot of spiritual power that can be stored in his body.

Even he has added spiritual power a dozen times.

Even if it is a boss with a tempering degree of 100%, no matter how much spiritual power, it should almost be exhausted, right?

What’s more, according to the size of the ancient sea giant crocodile.

The leader of the ancient sea giant crocodile that is less than 15 meters long has a tempering degree of about 80%, or even lower.

The amount of spiritual power must be less.

Losing spiritual power, he could not release the water arrows again, and the threat of the ancient sea giant crocodile to the land edge was naturally much smaller.

Lu Yuan’s pressure suddenly decreased.

also seemed to understand that his spiritual power was almost exhausted. The ancient sea giant crocodile leader tried twice, but after failing to condense the water arrow, it roared and gave up the water condensate arrow, and instead rushed towards Lu Yuan.

The ancient sea giant crocodile leader, as a boss-level fierce beast, is naturally not slow, but after all, it is not a speed specialty.

And Lu Yuan uses powerful speed potions, and the tempering degree has reached 98%, plus there are genetic weapons such as Moonstone that can be fully upgraded.

The speed of Luyuan is still faster than that of the ancient sea giant crocodile leader.

Moreover, the corpses of the ancient sea giant crocodile were all over the ground. The body of the ancient sea giant crocodile was too huge. It turned out that it might be a blocking corpse for the land edge, but at this moment, it was the ancient sea giant crocodile leader who blocked it.

Lu Yuan dodged the pursuit of the ancient sea giant crocodile leader and became free and easy.

Seeing that the leader of the ancient sea giant crocodile slapped the corpse of the ancient sea giant crocodile that was more than five meters long in front of it, when he rushed towards Lu Yuan, Lu Yuan had already stepped on the back of the ancient sea giant crocodile and retreated instantly. A distance of several meters.

‘Roar!!’

Seeing that Lu Yuan was so flexible, the ancient sea giant crocodile leader became even more angry.

Lu Yuan saw the ancient sea giant crocodile angrily, his heart moved, watching the ancient sea giant crocodile’s eyes change.

Lu Yuan originally thought it would be good to be able to escape.

Now that the leader of the ancient sea giant crocodile has lost the only powerful long-range attack ability, and can’t catch up with him, he feels that he can do it again.

Maybe, have a chance to kill a boss? !

A hint of excitement flashed in Lu Yuan’s eyes.

An item dropped by a boss is naturally much better than an elite beast.

Anyway, his speed is faster than that of the ancient sea giant crocodile leader.

He is now advancing, retreating and defensive, and the initiative is already on his side.

The only trouble now is the powerful defensive ability of the ancient sea giant crocodile leader.

You must know that although Lu Yuan’s body of black iron does not increase the power much, he also added the increase of Moonstone, the increase of Heigangjin, and the increase of potent potions.

Even so, he still couldn’t break through the heavy armor of the ancient sea giant crocodile leader.

One can imagine how strong the defense of the ancient sea giant crocodile leader is.

Lu Yuan looked at it while avoiding the chase of the angry giant crocodile boss.

He discovered that not all of the lin armors of the ancient sea giant crocodile were so hard.

The lin armor on the back is the hardest~www.mtlnovel.com~ but the lin armor on the side abdomen and stomach is indeed light black, and it looks obviously weaker.

Maybe there is hope ?

Lu Yuan narrowed his eyes.

At this moment, the powerful force in Lu Yuan's body suddenly began to disappear quickly.

His face changed, and it was time for the powerful potion.

His speed began to decline, and the leader of the ancient sea giant crocodile was about to rush to Lu Yuan almost instantly.

Lu Yuan was sweating from his back, and quickly took out a few bottles of medicine and drank it again.

Of course, all of them are powerful potions.

After drinking the potion, Lu Yuan snorted, and a trace of blood overflowed from the corner of his mouth.

Continuously using such a powerful potion, the power of the backlash even if he has such a powerful defense is a little overwhelming.

The tingling sensation in Lu Yuan's whole body became stronger.

He even felt that he couldn't make it last until the end of the drug's effect.

A quick fight!

Lu Yuan rushed towards the leader of the ancient sea giant crocodile.

The ancient sea giant crocodile leader who was extremely angry because he couldn't catch up with Lu Yuan unexpectedly rushed over by himself, he suddenly let out a cheerful roar, opened his blood basin and greeted him with a big mouth.

Just as the two were about to collide with each other, Lu Yuan suddenly jumped out of the gap between the two corpses, and suddenly disappeared in front of the leader of the ancient sea giant crocodile.

The ancient sea giant crocodile leader rushed over Lu Yuan's head,

Its dark gray belly was exposed in front of Lu Yuan's eyes.

Lu Yuan raised the corners of his mouth, revealing a sneer, and the heavy sword in his hand pierced the abdomen of the ancient sea giant crocodile leader.

嗤！！

There was a squeaking sound, and the epee, as he wished, pierced deeply into the body of the ancient sea giant crocodile leader, and blood spewed out.
