

Chapter 76: My Genes Evolve Infinitely

THE MOON IN THE PALACE, THE ORIGINAL STONE NEWS

Lu Yuan's post has just been published, and someone has responded to it.

Dark Night Wizard: The sofa! Boss-level genetic weapons? real or fake? The original poster has such a high-level armed? Why haven't you heard of the name of the host before?

The lost cannot come back: grab the second floor. I just passed by, by the way, I will worship the boss who can take out the boss-level arms! I'm kneeling for you!

Fingertip Tenderness: Can you buy it with real money? I am willing to buy at a premium.

Ivory Clam: Is the ** the third floor such a tyrant? Even boss-level weapons can afford it! Begging to support!

Jianyingfengsha: I'm still more curious about who the host is. I read the host's homepage. This is the first time I posted a post. Isn't it the spokesperson of a big consortium?

.....

In just a few minutes, dozens of people have recovered.

Lu Yuan looked at them one by one, a little helpless, none of them had rough stones to trade.

At most, only a few people expressed their willingness to trade with real currency or spirit crystals.

The main reason is that the rough stone is too scarce.

Lu Yuan also knew that he was not in a hurry.

Just then, news came from Lu Yuan's mall account.

Lu Yuan's eyes lit up, revealing a hint of joy.

Is anyone willing to buy a staff with rough stones?

He clicked the message quickly.

Meng Lihua: 'Brother~Can I give my sister a set of elite leather armor? My sister is very beautiful and has a very good body. I am willing to do everything~'

Lu Yuan: ' ?'

His face suddenly darkened.

What's special, where are more than ten thousand spiritual crystals, for you?

Isn't this trying to cheat money?

Besides cheating money, I still greedy my body. Isn't this trying to cheat? !

'roll!'

He uttered a word with a dark face, and smoothly pulled them black.

Lu Yuan just blacked out the woman who wanted to cheat for money and sex, and the news came again.

Lu Yuan saw that the news this time was a little more serious.

Nian Hua Weiyang: 'My friend, it costs 1.5 million red maple coins for a wild leather armor suit, isn't it a bit high? It's cheaper.'

Lu Yuan raised his eyebrows.

To be fair, Lu Yuan's price is already a bit lower than the market price.

After all, the Lingjing converted to Red Maple coins is 1:150 to 200. Even if he calculates the lowest ratio, he only has 10,000 Lingjing, and according to the high ratio, it is only 7,500 Lingjing!

This is a genetic weapon with an 80% temperament degree, which is absolutely worth the price.

He doesn't lack this little money, and directly replied:

‘Not counter-offer.’

Somewhere in the Red Maple Empire, in a room in a luxurious residential complex.

A middle-aged man looked at the three words in Guangmin, his face turned dark.

Beside him, is a young and beautiful girl.

She looked at Guangnao expectantly.

Seeing this, the middle-aged man sent another message:

‘My friend, this is a new store, and the first order of business is a good start. Please try to be auspicious and give some discounts. I will come to you to buy it next time, how about?’

However, the middle-aged man waited for a long time, but the owner did not continue to reply.

The middle-aged man frowned slightly.

The delicate girl beside glanced at the middle-aged man, and shook his arm slightly:

‘Dad... this price seems to be the lowest we've seen.’

The middle-aged man felt helpless and smiled: ‘Then buy this one. I heard from a friend that it is very important for the genetic warrior to enter the Land

of Origin for the first time. Dad will buy you elite weapons and you will be able to relax after you enter. ‘

The delicate girl smiled and hugged her father:

‘Thank you dad~~hehehe~~‘

The middle-aged man complained while paying:

‘Gene warriors really make money...Your father, I run a small company, and I have been working hard for half my life, and my family property is only more than 40 million. I didn’t expect people to sell 1.5 million with a single gene weapon. And selling things is still indifferent...‘

The delicate girl blinked and patted her chest:

‘When I become stronger, I also get elite-level genetic weapons, and I can make so much money. I will support you at that time!’

‘Hahaha!’

The middle-aged man laughed and touched the girl’s hair kindly:

‘A good girl is the best! Dad believes in you. However, there are still boss-level armed forces. I am afraid that the strength is very strong. You have to work hard.’

‘That must, don’t you see who I am?’

.....

Lu Yuan naturally saw the news from Nian Hua Weiyang, he glanced at it and ignored it.

I love buying or not.

The price is not expensive.

He is not a professional businessman, so he has no time to bargain with others.

It didn't take long for Lu Yuan to see the transaction message that popped up from the system.

Before that time Weiyang placed an order and bought that leather armor.

Lu Yuan raised an eyebrow, revealing a hint of surprise.

'I didn't expect to buy it?'

Just then, Nian Hua Weiyang sent another message.

'Friend, do you have an elite weapon here? It's best to be a longbow, or a short sword.'

Lu Yuan was stunned.

Originally, he just put two elite weapons to charge, and he didn't think about how much he wanted to sell.

If possible, Lu Yuan would prefer to use the elite-class weapons to sell spirit crystals.

But thinking that this is the first business after all, this is also the first customer.

just sell it.

He thought about it and sent a message:

'There is a pair of daggers.'

Luyuan has acquired a lot of weapons in the ancient sea oasis, and one of them happens to be a pair of short swords dropped by the ancient sea wolf.

Langfang dagger, mainly enhances acuity, and secondly enhances strength.

Lu Yuan posted the information, and the price was also set at 1.5 million. Nian Hua Weiyang immediately said that he would buy it.

After all, the price of weapons is generally more expensive than armor.

The price of Lu Yuan is quite low.

So Lu Yuan made another order.

After Nianhua Weiyang paid, Lu Yuan could see the courier address he left.

Lu Yuan needs to send two pieces of genetic weapons.

Regarding logistics and transportation, the Gene Warrior Association has a department specifically responsible for this logistics.

Lu Yuan can request shipments at Battle.net Mall.

The Gene Warrior Association will send someone to verify the authenticity of the sold items and send them out at the same time.

Lu Yuan thought that he would go out to sell most of the materials in the war pattern space later, so he booked the express delivery at 4 o'clock in the afternoon.

After , Lu Yuan left home and went to the crazy wolf material shop.

.....

Jiuhu business district, crazy wolf material shop.

Lu Yuan pushed the door and walked in.

Xue Wang is sitting in a chair, looking at the light curtain on one side.

On the light curtain is a beautiful host broadcasting the news.

‘Last night, there was an explosion in the Mingzhi community on Black Oak Street, Nancheng District. It is understood that the gas leak was caused by the residents accidentally. The explosion caused 32 residents to die...’

Lu Yuan was stunned when he heard the announcement.

Black Oak Street, it seems not too far from his house ?

There was a gas explosion ?

So many people died ?

Is it so miserable ?

Fortunately, it is not his home.

He turned around and saw Xue Wang staring at the light curtain, and couldn't help laughing:

‘It's rare, Old Xue, didn't even play the game and watched the news? Have you changed sex?’

Xue Wang returned to his senses, turned his head to look at Lu Yuan, and smiled:

‘Why didn't you come here yesterday? I thought you found your next home, so you don't need me anymore.’

Hearing this, Lu Yuan had a chill:

‘Stop, stop, don't you say such disgusting things. I had something yesterday.’

‘I have... barking! Do I have it?!’

‘Very well.’

Lu Yuan was used to barking dogs from time to time for Xue Wang, and he nodded blankly.

‘By the way, your genes are not fully integrated yet?’

‘How can it be so simple? I am not a monster like you! How many good things are there this time?’

Lu Yuan smiled and took out a lot of materials.

Xue Wang was taken aback:

‘My dear, I didn’t come yesterday, so I accumulated so much ? I’ll count it first.’

Xue Wang started to count, and soon his eyes widened:

‘There are 67 elite-level materials here ?! Where did you go to kill so many elite beasts ?’

Lu Yuan smiled: ‘If you bump into it, kill it.’

Xue Wang was speechless for a while, and could only give a thumbs up to Landing Yuan:

‘Awesome! I have nothing to say!’

‘How much.’

‘There are too many materials this time, totaling 6.94 million. I’ll pass it to you.’

Lu Yuan nodded.

This is comparable to the few elite weapons he sells.

very nice.

‘It’s okay, I’ll go now.’

Lu Yuan waved his hand, planning to leave.

‘and many more!’

Xue Wang stopped Lu Yuan suddenly.

Lu Yuan was taken aback, then turned to look at Xue Wang.

‘What’s wrong ?’

Xue Wang hesitated and said:

‘You live in the slum, right?’

‘Well, the Black Oak Street in the news is not far from my house.’

Xue Wang said:

‘Did you have a lot of people dead recently? It feels a little abnormal? If you can, you’d better live in a different place.’

Lu Yuan was taken aback when he heard the words, and glanced at the direction of the light curtain.

This matter should have nothing to do with the dark shadow, right?

But, I really should live in another place.

I don’t know what happened to Sister Qinghe?

Lu Yuan intends to have a good talk with her.

He doesn’t really have any problems himself.

After all, his strength is not weak, and he can break through to the first order immediately.

When he breaks through to the first level, he can evolve the body of black iron, and he can burn another extraordinary gene, and his strength will skyrocket several times.

He is worried about Li Qinghe.

After all, Li Qinghe is an ordinary person.

Originally, Lu Yuan didn’t think there was any problem, but now that shadow seems to be getting more and more troublesome, it’s better to leave as soon as possible.

‘I see, I will check the room then.’

‘That’s good.’

Xue Wang smiled: ‘It’s best to find someone closer to me, and go there together.’

‘Hey shit, don’t hey.’

Lu Yuan rolled his eyes, and UU Reading www.uukanshu.com left the Crazy Wolf Material Shop.

Xue Wang looked at the closed store door, his smile gradually dissipated, staring at the light curtain in a daze, he didn’t know what he was thinking.

.....

Lu Yuan, who left the crazy wolf material shop, walked towards the ghetto. On the way, he took out his mobile phone and opened Battle.net to see if anyone wanted to buy his staff.

He glanced at the mall and found another piece of genetic weapons and combat skills: the poisonous fog has been sold, and someone sent a message asking about the staff.

Like the woman who wanted to cheat money and ** before, Lu Yuan would all black out anyone who wanted to cheat his staff.

This heart is darker than the one who lied to his elite armed forces, and he wanted to lie directly to the boss-level armed forces!

is outrageous.

There are also those who plan to buy them with Lingjing, or offer to exchange them with boss-level weapons.

It’s a pity that Lu Yuan doesn’t lack the boss’s arms or the spirit crystals. He only wants rough stones.

He refused.

Lu Yuan clicked on the transaction thread he had sent before, and there were already thousands of replies.

Lu Yuan browsed the replies one by one, most of them were sand sculptures for watching the show, and some wanted to buy them with Lingjing.

Gentle and deep-rooted: Huh? The staff of this transaction post is exactly the same as the boss staff I saw in the mall. The transaction is also rough, is it sold by the same boss?

Lu Yuan raised his eyebrows when he saw the news, but he didn't expect someone to discover this.

But it doesn't matter to Lu Yuan, he just wants more exposure anyway.

Lu Yuan continue to browse.

has never seen anyone willing to trade rough stones, Lu Yuan was a little disappointed.

Just when he was almost finished browsing the replies, Lu Yuan saw a post and his eyes lit up, revealing a hint of surprise.

Miyazuki: I have a trainee rough, how do I trade?
