

Chapter 79: My Genes Evolve Infinitely

ONLY ONE'S SON

Lu Yuan clicked on the product page of this extraordinary gene.

The price tag of this extraordinary gene is 12 million.

The high price made Lu Yuan slightly raised his eyebrows, but it was not particularly surprising.

Extraordinary genes and extraordinary genes are different. The average ordinary quality extraordinary genes may be two or three million, but the value of some rare and precious ordinary extraordinary genes can even be compared with the price of elite extraordinary genes.

Therapeutic Department of Extraordinary Genes is like this.

Genetic warriors with healing genes are very popular in the land of origin.

Lu Yuan currently has about 50 million in funds, and 12 million can still be used.

He didn't go to bargain with the shopkeeper, and chose to pay directly.

What makes Lu Yuan a little happy is that the owner seems to be in Xili City, and this gene will be delivered soon.

Lu Yuan is already looking forward to the effect of burning this gene.

At this time, the door was knocked.

Lu Yuan was taken aback and showed a pleasant smile.

The rough stone should have arrived.

He walked over and opened the door. The two couriers from yesterday were standing at the door.

The two couriers smiled when they saw Lu Yuan.

The man with short brown hair opened his mouth and said:

‘Hello, Mr. Lu, let’s deliver the item.’

said, he took out a small black metal box.

After opening the metal box, a piece of white jade came into Lu Yuan’s eyes.

‘Mr. Lu, although our association has already checked it, you still have to check it yourself as usual. If there is no problem, you can sign for it.’

‘good.’

Lu Yuan picked up the white jade, and the information of the rough stone appeared in his mind.

He smiled:

‘It’s a rough stone, no problem.’

‘If there is no problem, please sign for it on Battle.net.’

Lu Yuan nodded, opened Battle.net, and signed for Rough Stone Express on the logistics page.

The middle-aged man also received the news:

‘The express has been delivered, then we will leave.’

Lu Yuan smiled: ‘Thanks for your hard work, goodbye.’

Lu Yuan closed the door, and two middle-aged men stood at the door, looking at each other again.

The brown-haired man exclaimed:

‘Apprentice-level rough stone... Has this Lu Yuan already begun to prepare for a breakthrough?’

The black-haired man was also a little surprised:

‘Looking at his age, he might not have the college entrance examination yet. If he breaks through before the college entrance examination, then he should be able to enter the top ten genetic warrior academy, right?’

‘Tsk tsk, it’s amazing.’

‘Yes, if I had such strength back then, where would I need to be a courier?’

The two couldn’t help but sigh and smile.

.....

After Lu Yuan received the courier, he couldn’t wait to return to the room.

He originally planned to absorb the rough stone directly, but after thinking about it, it is better to prepare to absorb the breakthrough in the place of origin.

After all, the time will be more abundant, and there will be constructs guarded in the residential area, it is also safer, and the genes can also be evolved.

By the way, Lu Yuan intends to see if the natural regenerating gene can be reached today.

If can arrive, then it will happen to burn together and evolve by the way.

In order to evolve genes, Lu Yuan has rushed a lot of spirit crystals into the evolution cube.

As for now, Lu Yuan plans to go to the crazy wolf material shop and sell the materials.

He went out, walked out of the community, and found that there were fewer pedestrians on the street than before.

Lu Yuan looked at the deserted streets around him, a little puzzled.

However, he didn't pay much attention, leaving the slum area and walking towards the Jiuhu business district.

It didn't take long before he came to the crazy wolf material shop.

As soon as he walked in, Lu Yuan saw Xue Wang staring at the light curtain, which was still playing news.

'Last night, two explosions occurred again in Nancheng District. The death toll reached 66. The official investigation result is still a gas leak. However, some people believe that this is the lie of the consul. They were attacked by unknown. For this reason, They hope the Archon can give a reasonable explanation...'

Lu Yuan looked at the light curtain unexpectedly.

The beautiful host broadcasted smoothly, and the content surprised Lu Yuan.

'There was another gas explosion yesterday? Really? It happened for two consecutive days?'

No wonder the atmosphere on the street feels wrong today.

Was it because of this?

Xue Wang glanced at Lu Yuan, speechless:

'Old Lu, don't you really think it was a gas leak? The official investigation results can only deceive children. Many genetic warriors can do this kind of thing. There must be something wrong with you right now, and I'm afraid it's pretty good. serious.'

Lu Yuan was taken aback: 'Isn't it a gas leak?'

He was shocked. If there is any big problem in the slums now, then there should be only the dark shadow, right?

Such a big movement, could it be caused by that dark shadow?

Lu Yuan felt a little heavy.

Then Lu Yuan thought that Li Qinghe had not replied to him yet.

Could something be wrong?

Lu Yuan frowned, feeling a little uneasy.

Seeing Lu Yuan's expression ugly, Xue Wang didn't say much.

'Lao Lu, do you want to sell materials?'

Lu Yuan came back to his senses and nodded: 'Yeah.'

He took out various materials, but he was a little absent-minded thinking about Li Qinghe.

He took out his phone and looked at it, but Li Qinghe still didn't reply to him.

wait and look for it.

But he didn't know much about Qinghe's work, he only knew that it seemed to be that kind of work.

He doesn't know where he works?

Then Lu Yuan thought of Flamming.

Li Qinghe is in contact with Flamming, so she went to Flamming to ask, maybe what can be asked?

Lu Yuan thought in his heart, Xue Wang had already checked the materials.

'A total of 3.11 million...Lao Lu, the harvest this time is not good.'

Lu Yuan returned to his senses and smiled:

'I went back to the city and didn't deliberately hunt down the beasts.'

‘Went back to the city? No wonder then.’

Xue Wang nodded, he operated on the phone:

‘Well, the money has been transferred to you.’

‘Okay, then I will leave first.’

Lu Yuan nodded, and turned around to walk outside the door.

Xue Wang looked at Lu Yuan’s back, thought about it, and said:

‘You remember to move out early.’

Lu Yuan had a meal and smiled: ‘I see.’

Watching Lu Yuan leave, Xue Wang looked at the light curtain, and the news was still broadcasting.

The picture behind the host is the ruins after the explosion, which looks extremely dilapidated.

Xue Wang stood up, walked around the store twice, and then sighed.

He walked to the door, closed the door, and put a sign that it would stop business.

returned to the shop, he passed the back door again and entered the living room of the back room.

The area of the living room is larger than the storefront outside, with dining tables and sofas.

There are still unfinished dishes on the table at the moment.

Xue Wang fell into the sofa and looked up at the ceiling, seeming to be in a daze.

After being silent, Xue Wang took out his mobile phone and dialed a call that had not been made for several years.

beep!

beep!

beep!

The phone rang for a meeting, and it was connected.

The other party did not speak, nor did Xue Wang.

After being silent, Xue Wang said:

‘You did things in Nancheng District, right?’

There was only breathing on the other side. After a while, the voice came:

‘what are you saying?’

Xue Wang stood up abruptly, emotionally said:

‘Don’t pretend to be confused with me! Besides you, who else can do such a thing?! Your blood is always cold!’

The voice on the other side still has no waves:

‘That’s all you want to say? If it’s okay, just hang up. By the way, you haven’t left Xili City yet?’

‘You don’t need to worry about this! I don’t need you to worry about my life and death!’ Xue Wang’s face was cold, and then he showed a mocking smile: ‘Why? Think I violated your order? You can kill like my mother. Fuck me! Wasn’t my mother killed by you because he violated your order at the time?!’

was silent on the other side, and slowly said:

‘You are different from your mother, you are my only son.’

Xue Wang sneered: 'You wait! I risked my death and burned the Silver Wolf gene, just to find you revenge!'

After finishing speaking, he hung up the phone severely.

After hanging up, Xue Wang collapsed on the sofa, looked at the ceiling, and sighed slowly.

.....

Lu Yuan returned to the slum area. He was planning to go to the Daming Martial Arts Hall to find Flamming and ask about Li Qinghe's news.

Just then, Lu Yuan's phone vibrated.

He turned on the phone and found that Li Qinghe had sent the message.

Li Qinghe: 'I'm sorry, brother Yuan, I was a bit busy yesterday, but I just got free now. Why did you suddenly find me? Is there anything wrong?'

Lu Yuan was relieved when he saw Li Qinghe's reply, and the feeling of anxiety disappeared.

He smiled and replied:

'Are you at home now? I come back and we will talk face to face.'

Li Qinghe: 'I just went home, so let's wait and talk.'

Lu Yuan: 'Then I will get home soon.'

Lu Yuan changed direction and headed back towards home.

Just as he was walking on the road, the phone rang again.

Lu Yuan took out his cell phone and saw that it was a courier phone again.

Lu Yuan connected to the phone: 'Hello.'

'Is that Mr. Lu?'

‘right.’

‘Hello, your courier will be delivered soon, are you at home now?’

Lu Yuan was overjoyed, it was the extraordinary gene he had just bought.
