

Chapter 86: My Genes Evolve Infinitely

SMILE

After signing the contract and paying the rent, Lu Yuan got the key card for the room.

After Miss Renting a room left, Lu Yuan glanced at the time, it was already past six o'clock in the evening.

It took a long time to see a few rooms.

Lu Yuan looked at Li Qinghe and smiled:

‘Sister Qinghe, let’s have something to eat first, and then go back and pack our luggage. Let’s move in today.’

Li Qinghe: ‘...Is it so urgent? Moving in today?’

She was still thinking that somehow she could stay there for one night tonight, and she didn’t have to hurry, but she didn’t expect this good brother to be so anxious, then she would have to start rushing to the slums this evening?

So complicated.

Lu Yuan looked serious and said:

‘Of course, the slums are a bit dangerous after all. If you can move in earlier, you can move in earlier.’

Li Qinghe smiled and said, ‘If that’s the case, let’s listen to your fate brother.’

‘Then let’s go eat first.’

The location of the new house is very good. Although it is a certain distance from the prosperous Jiuhu Shopping Mall, there is also a small shopping mall nearby.

There are quite a few places to eat in .

Because of the tight time, Lu Yuan took Li Qinghe to find a family of home-cooked food for a casual meal, and then returned to the slum.

When I returned to the rented house in the slum, it was already past seven o'clock.

Lu Yuan glanced at Li Qinghe who opened the door, and said, 'Sister Qinghe, do you want me to help pack things?'

Li Qinghe was taken aback, then a coquettish smile appeared on his face, looking strangely at Lu Yuan:

'Brother destiny, women have a lot of private things, do you want to help me clean up?'

'...Forget it, I'll go and pack my own.'

Lu Yuan turned around and returned to his room.

After Li Qinghe returned to the room, he took out the encrypted black cube communicator.

After she manipulated it, Fleming's projection appeared on the cube.

'My lord! What's your order?'

Li Qinghe said indifferently: 'I will come here later tonight, and you should prepare for yourself, don't let go of any clues.'

Fleming was taken aback: 'Huh? Is your lord being delayed by something?'

Li Qinghe glanced at him coldly: 'Don't ask if you shouldn't ask.'

'Yes!'

Fleming was shocked and didn't dare to ask more.

After putting away the cube, Li Qinghe rubbed his forehead a little helplessly.

I knew that I had caused an accident before, and I would be fine when I died.

In this way, there is no need to move so far, and it is so troublesome.

But if you really caused the illusion of death, I am afraid that my brother will be sad, right?

A trace of helplessness flashed in her eyes.

Forget it, just trouble it.

Li Qinghe stopped thinking about it and started packing up.

.....

Lu Yuan also returned to his room to pack his things.

He has very few things, only three sets of washed white clothes, an old notebook, worn bedding sheets, and only a few textbooks.

After the calculation, only the notebook is worth two to three hundred dollars.

Because he usually only uses his laptop to log on to Battle.net to check information, and the laptop can still be used, Lu Yuan has no plans to change it.

Except for a few textbooks, other things Lu Yuan planned to lose later.

After packing everything, Lu Yuan knocked on Li Qinghe's door:

'Sister Qinghe, how are you?'

'Now, wait a moment.'

Li Qinghe's voice sounded, and it didn't take long for her room door to open.

Li Qinghe smiled and said, 'My things are packed here.'

'What about things?'

Lu Yuan looked in curiously.

Li Qinghe felt a little funny seeing Lu Yuan's appearance.

She tugged at the corner of her mouth and moved aside, revealing a large cardboard box and a suitcase.

Lu Yuan took a look and found that there were not many things, at least for girls, they were very few.

Lu Yuan smiled and said, 'I'll get it.'

He walked over and put the big cardboard boxes and suitcases into the Battle.net space.

Li Qinghe was a little surprised: 'Is this the space of genetic warriors? It's amazing. It's convenient.'

Lu Yuan smiled: 'It's really convenient to have this thing, let's go.'

The two left the rented house, Lu Yuan looked back at the closed door.

has lived here for a year, and now it's a farewell to life in the slum.

Leaving the community, it was already past eight o'clock, and the streets at this point were already deserted.

Perhaps because of the two previous explosions, even the little gangsters and a small group of ordinary people who would have been swaying have disappeared at this moment.

Lu Yuan called an unmanned levitation taxi, and the two got in the car and came to the newly rented community, Zizhu Community.

'Sister Qinghe, let's buy some quilt covers and sheets and toiletries, right?'

got out of the car, Lu Yuan looked at Li Qinghe and smiled.

Li Qinghe was taken aback and hesitated: 'But my current one can still be used...'

'In order to celebrate that we left the slum and have a new life, let's replace these things with new ones.' Lu Yuan said with a smile, and took Li Qinghe to the mall without any explanation.

Wandered around in the mall. At ten o'clock, the two bought various things before returning to the newly rented house.

'Master, welcome back.'

The white intelligent robot stood by the door and saw Lu Yuan and Li Qinghe come back, bowing gracefully.

Lu Yuan glanced at the room, it was clean and clean.

This smart robot would clean the room every day when there was no one occupant before. Lu Yuan asked it to clean it again when he left before. It can be said to be very clean.

'Good job, Jeff.'

‘This is what I should do.’ The robot Jeff saluted.

Lu Yuan looked at Li Qinghe and said with a smile: ‘Look, with Jeff here, at least we can save the energy of cleaning the room, right?’

‘It’s really convenient, but the rent is too expensive.’

Seeing Li Qinghe’s distressed look, Lu Yuan smiled.

But he can understand, after all, Li Qinghe had been living in the slums before, and 20,000 yuan was already a lot of money.

Lu Yuan thought about himself. When he first awakened, the official subsidy of 5000 red maple coins, he thought, was a lot of money.

It’s just that there are more materials sold later, and Lu Yuan has a lot of deposits, so he doesn’t care much about these.

No matter what kind of life you need to adapt slowly.

Lu Yuan believes that Li Qinghe will get used to it soon

Lu Yuan’s room is the master bedroom, and Li Qinghe’s room is the second bedroom.

Lu Yuan first put Li Qinghe’s luggage and newly bought daily necessities in the second bedroom, and asked Jeff to help her tidy up, before returning to the master bedroom.

He tidied up the things neatly, and put a light brain like a black motorcycle helmet on the desk.

After you bring it, you can connect to the Internet, browse information, and even play virtual games.

Lu Yuan touched the somewhat frosted helmet and sighed a little.

Virtual game, Lu Yuan had expected it before crossing.

It is a pity that the original virtual reality technology on Earth is not enough for cities.

The virtual reality technology here is also obtained from the place of origin.

From all aspects, the place of origin has accelerated the development of a large number of civilizations in the universe.

It was already eleven o'clock in the evening when I was ready.

Lu Yuan glanced at Guangmen, but it hadn't been completely repaired.

Lu Yuan didn't feel surprised either. The higher the cultivation base, the longer the stay in the place of origin, but the corresponding light gate needs to be repaired for a longer time.

After checking the progress, Lu Yuan felt that it would take about a day to get in once.

Counting the time, he can go in almost tomorrow afternoon.

But Lu Yuan thought of the auction and planned to go in later. It would be best to go in the morning after tomorrow.

can participate in the auction at the time inside.

Lu Yuan's room has a separate bathroom, so he washes directly in the room.

But Lu Yuan still heard movement outside the door, it was the sound of Li Qinghe entering the bathroom.

Not long after, Li Qinghe came to Lu Yuan's door and knocked on the door.

'Sister Qinghe? What's the matter?'

Lu Yuan was about to open the door, Li Qinghe's voice sounded: 'It's okay, let me tell you, I'm going to bed, good night.'

Lu Yuan was taken aback, but he didn't expect Li Qinghe to talk to him even when he was sleeping.

But he changed his mind. After all, he just changed the place of residence, he may feel a little insecure.

is a girl after all.

Lu Yuan thought of this, and replied with a smile: 'Good night, Sister Qinghe.'

After , Lu Yuan heard Li Qinghe respond, and then the sound of closing the door.

Li Qinghe returned to the room, his body changed for a while, and a set of jet black leather armor covered Li Qinghe's body.

Li Qinghe glanced at the direction of Lu Yuan's room, thought for a while, didn't use spiritual power.

She quietly opened the window and jumped down from the 15th floor.

Li Qinghe's body fell. When she was close to the ground, she turned over and fell to the ground lightly, then glanced at the window upstairs, her figure melted into the shadow and disappeared.

.....

slum area, in an ordinary residential building.

In a suite on the 20th floor, the thin man who was sleeping on the bed suddenly got up.

His movements awakened the woman nearby.

The woman glanced at the thin man in a daze, and whispered: 'My dear, what's the matter with you?'

The thin man said nothing, he walked out of the room.

The woman was a little confused: 'My dear?'

She rubbed her eyes, glanced at the back of the thin man, stood up and walked out of the room.

Soon, the woman saw the thin man squatting on the edge of the living room and opened a black suitcase.

She remembered that this black suitcase was brought back by the thin man when he returned home.

At that time, she asked what was in it, but the thin man did not answer, but smiled strangely.

Now, she finally knew what was inside.

The thin man took out a black metal cylinder from the inside, with red, yellow and blue buttons on it.

'Dear?'

The woman looked at the thin man with a little surprise. She thought this thing was a bit strange.

The thin man still did not speak, he reached out and pressed the buttons in the order of blue, red and yellow.

With a beep, a countdown popped up on the metal cylinder.

5.

4.

The thin man turned his head and looked at the woman.

His face was extremely pale, his eyes were filled with fear and fear, and tears slipped silently from the corners of his eyes, but the corners of his mouth gradually rose, revealing a subtle smile.

The woman saw this scene, a chill from her spine all the way up, her scalp was numb.

A look of horror appeared on her face.

Boom!

Before the woman had time to make a move, a huge roar sounded, and the flames spewed, instantly engulfing her and the thin man.
