

# Chapter 9: My Genes Evolve Infinitely

## THE WAY OF THE GENETIC WARRIOR

After Lu Yuan left, Flaming secretly returned to his office, took out his mobile phone, and dialed a number.

Next to Lu Yuan, in a simple room with a bed and desk, Li Qinghe sat cross-legged on the bed to practice.

Suddenly Li Qinghe frowned slightly, flipped his right hand, and a small dark square fell in her hand.

She clicked a small square, and the light curtain jumped out, showing Flaming's message.

Li Qinghe answered the phone, and a cold voice sounded:

'You have five seconds to explain.'

The cold sweat on Flaming's forehead on the other side came down.

'Oops! Forget that adults hate that others disturb her while she is practicing!'

He hurriedly said: 'My lord, it's about Lu Yuan!'

'Lu Yuan?'

Li Qinghe raised his eyebrows: 'What happened to him? How did I tell you?'

'No, no, no, my lord, it's not that something happened to Lu Yuan. He and his talent are very strong! Very strong!'

'Huh? How to say?'

Flaming organized the language, and then said:

‘Didn’t you say that he was awakened the day before yesterday? But he has already tempered his genetic chain through spiritual power. Didn’t I say to teach him physical skills today? Then his power is about the same as a strong one under me. I guess he is afraid. It has been tempered for a certain amount of time. I asked him and he said that it took him a long time to absorb aura.’

Li Qinghe was startled, a trace of stunnedness flashed in his eyes:

‘Half a day, absorb the aura?! Are you sure?’

‘I think he shouldn’t exaggerate, after all, his power is much stronger than ordinary people.’

Li Qinghe frowned slightly, fell silent, and then spoke:

‘I know, so you called me, what do you want to say?’

‘Ah... My lord is aware of the details... I want to put him in my team.’

‘roll!’

Li Qinghe replied coldly and hung up the phone directly.

Flaming on the other side listened to the beep in his ear, his face was still awkward, and he didn’t react.

In the room, Li Qinghe put away the communicator and lay down. Miao Man’s curve was undoubtedly revealed. She squinted her eyes and looked at the ceiling, with a smile on her face:

‘I didn’t expect that little brother has such a talent? Half a day? It’s almost catching up with me. It’s interesting. This lady is so lucky? Any poor little brother who has such a talent?’

Her eyes flickered, she didn’t know what she was thinking.

.....

Lu Yuan returned to the rental room, the room was very quiet.

He glanced at Li Qinghe's closed door.

It's already so late, I'm afraid Sister Qinghe has already gone to work.

Lu Yuan thought about thanking Li Qinghe for a while, thought about it, and waited a few days when he became rich, and asked her to have a good meal.

Lu Yuan shook his head and returned to the room.

After taking a shower, Lu Yuan's exhaustion suddenly surged up, and his firmer body was covered with black marks, all of which had been beaten by Xiaohu before.

He touched the purple-black part of his abdomen, grinning in pain.

'Gan! It's really ruthless to start!'

He endured his exhaustion, sat down cross-legged, and began to operate the spiritual guidance technique.

At this moment, a strange voice rang from the other side.

Lu Yuan's face changed and he almost sprayed out.

What time is this?

That couple started exercising? !

How hungry this is!

Lu Yuan was speechless, closed his eyes and wanted to continue practicing.

As a result, the voice became louder and louder.

He opened his eyes unhappily and yelled:

'The rent is paid!'

Suddenly, the whole world was quiet.

Lu Yuan closed his eyes with satisfaction and continued to practice.

.....

Three days later, Daming Wuguan.

A group of brawny men formed a circle with their arms around, Lu Yuan in the center of the circle and a bald brawny man in protective clothing were fighting against each other with a huge wooden sword.

The wooden sword collided with a dull bang.

The two of them flickered. Not long after, Lu Yuan shook his wrists. The long sword in his hand struck an arc and landed on the hilt of the strong man. Then he leaned close to his body and knocked the strong man down with a knock on his knees. land.

‘Wuhu~ Brother Yuan actually won again!’

‘Tietou was a mercenary before, and he had practiced good swordsmanship. I didn’t expect that he would be defeated by Brother Yuan in just two days!’

‘As expected, it is my fate brother! Great!’

Lu Yuan looked at the iron head on the ground, exhaled, and his sword-holding hands trembled slightly because of excessive force.

After defeated Xiaohu, Lu Yuan started looking for someone to test his swordsmanship the next day, and finally compared with this iron head who had been a mercenary and even hunted down a beast.

It took two days, and he finally mastered the sword with the general body and defeated the iron head.

You must know that Iron Head is not a genetic warrior, but just an ordinary person.

One can imagine how strong this person’s fighting skills are.

‘Are you okay?’

Lu Yuan looked at Tietou.

Iron head covered his stomach and stood up, shook his head, grinning:

‘I have seen a lot of genetic warriors, like you grow up so fast, I have never seen any of them. I feel that you will definitely become a big man in the future.’

Lu Yuan grinned, ‘I think so too.’

Just kidding, I, Mr. Lu, somehow have gold fingers, and I have unlimited potential in the future.

Lu Yuan still has this confidence.

At this moment, Flaming on the side came over.

‘Yes, great progress. With your strength, it’s no problem to enter the Land of Origin for the first time.’

Lu Yuan heard the words, his eyes lit up and smiled:

‘Thank you Ming Brother for your care these days, otherwise I can’t improve so much in such a short period of time.’

He also felt that his current strength could enter the Land of Origin to try.

The first time is very important, one step is slow, step by step is slow.

It’s better to gain a little the first time.

Flaming nodded, and then spoke:

‘You come with me.’

Lu Yuan followed Flaming to the office.

Flaming pointed to the sofa: ‘Sit down.’

Lu Yuan sat down, Fleming looked at Lu Yuan and said:

‘Entering the land of origin, that means you have to acquire the first transcendent gene. This will determine the way you will go in the future. Do you know the type of genetic warrior?’

Lu Yuan nodded: ‘I’ve seen it on Battle.net. The Guardian system that focuses on defense and protection, the assault system that focuses on power and attack, and the assassination system that focuses on sneaking into assassination..’

Fleming nodded, and slowly said:

‘Since you have read it, you should also know that when you burn an extraordinary gene, your physical advantage will also tilt in the direction of that gene. Although the gene warrior can burn genes in different directions to improve all aspects of abilities, Studies have shown that by focusing on one direction, the effects of burning genes can be superimposed and the benefits are the greatest. Have you decided that way?’

Fleming’s words are the basic cognition of genetic warriors.

But this is the truth for ordinary genetic warriors.

Lu Yuan knew that this didn’t apply to him.

because he has an evolution cube.

Every extraordinary gene will strengthen a certain aspect. For example, the strength becomes stronger, the defensive bones become strong and resistant, and the body is more flexible and explosive, and so on.

Although there are other enhancements, it is not as good as the special enhancement.

Therefore, when basically all genetic warriors burn genes, they will choose to focus on burning the genes of one line, which has the greatest benefit.

But Lu Yuan is different. He can evolve all genes into the most powerful form.

In this case, even if this transcendent gene does not improve much in aspects that are not particularly strengthened, it will be extremely terrible to accumulate.

After all, that is the most powerful gene.

Therefore, he can develop in an all-round way.

The strongest defensive ability, the strongest strength, the fastest speed, the most tenacious spirit, and even the degree of control over the elements.

There is no flaw, no one can match!

But that's something for the future, at least at the current stage, he has to choose a direction.

is also the direction revealed outside.

Lu Yuan had already thought about it before, and he planned to be a fighter of the assault system.

In fact, for Lu Yuan, every direction is the same.

There is an Evolution Cube, he can do whatever he wants.

is only manifested in the outside world, the storming system is a little bit more expensive, and there are more situations that can be dealt with in the future.

Flaming was startled when he heard Lu Yuan's words, and then smiled:

'Strike force? Strong attack type is good! I am the force attack type!'

Lu Yuan glanced at him, feeling speechless.

This product has just broken through to the first-order warrior level, and only one gene is burned. It's a fart assault system...
