

Chapter 95: My Genes Evolve Infinitely

: SHELF TESTIMONIALS

After opening the book for a month and a half, it is finally on the shelves.

260,000 words are on the shelves in a month and a half. In the environment where the starting point is now 100 thousand words on the shelves, it is already quite conscientious~

Here, the author tells everyone his heart.

To be honest, the results of the new book are very unsatisfactory.

Up to now, I have only collected more than 22,000 in a month and a half.

There are still big recommendations like Dafeng Tweet. If there is no Dafeng Tweet, the collection may only be less than 15,000.

As for the follow-up reading, it is also very poor. It is probably not one thousand and five years before it is put on the shelves, and even Sanjiang can't get it.

If nothing else, the first order of this book should not exceed 1,500.

To be honest, this really hurts the author's confidence.

The author is a full-time writer, with poor grades and poor manuscript fees, which directly affects the author's life.

After all, before being an author, the author is a normal person first, and people always have to eat.

I also had the idea of cutting the book, but this is my own hard work after all. If possible, the author really doesn't want to cut the book and wants to finish it.

is like the Shangben Qiyun Line. The Qiyun Line first ordered more than two thousand four hundred. At that time, the trumpet was used, which is actually a good result.

But the second day after the shelves, the order will be directly half of the first order, and then it will get lower and lower, which really affects the mentality.

Some people say that most people raise books.

At that time, the author changed 12,000 days a month in the first month, and felt that people who raised the book would come back to see it, but after a month, the subscription did not rise back.

I knew at the time that many people actually went to see piracy.

Later, the author lay flat, and the Buddhism was renewed, gradually renewing less and less, and in the end it just stopped.

After all, the grades are too bad, and the manuscript fee is too low.

When the pay and the gain are not proportional, it is really difficult for people to persevere.

After all, the author is an adult and wants to live.

To be honest, if you can, who wants to cut the book ?

Until now, I still want to continue writing down the Qi Luck Line. After all, I was doing the outline of the world view at that time, and I worked hard for more than a month. I really don't want to just give up like this.

This book is the same.

So here, the author said, I hope everyone supports the original version. Now it seems that the starting point is to watch the video and there is a starting point coin to give away, so you don't need to spend much money on your own.

If you really don't want to see the original version, but if you have to see the pirated version, I hope you can go to the official free platform to see it. It is also free. The author has a little advertising fee anyway.

Writing a book is not as easy as imagined. The author writes it carefully. I hope friends who like this book can also support it.

There are also those who watch piracy, please don't come to the comment section while watching piracy, it really affects your mentality.

There are some setting content, the author just didn't release it, it's not that I didn't consider it.

Hu...

These words have been held in my heart, and I feel better when I say them.

Okay, that's it for nonsense.

was on the shelves a few minutes after 12 o'clock in the morning on the 1st.

The chapters will be a bit bigger after they are put on the shelves, about 4,000 words per chapter. Four chapters and more than 16,000 words will be updated on the first day.

If the first order is higher, then it will be changed, um...more than one thousand five plus one change.

Two thousand authors don't expect too much hahaha.

Afterwards, let's watch the results update. Two chapters and 8,000 characters will be updated every day. If the results are better, there will be three chapters and four chapters, 12,116 and 126. The author works hard and writes them without sleeping~

In addition, the new book hits the shelves just on October 1st, ask for a monthly pass to guarantee the end of the year~

Finally, I will post a wave of old books. Friends of the book shortage can check it out. 'Bring a hunting space with you', the sand sculpture is semi- invincible. Now I have ordered more than 9,600. I hope that it will be increased to 10,000 in some time~~

That's it~

Finally, I wish you all good health, happy mood, and good financial resources~~
