

Chapter 96: My Genes Evolve Infinitely

CELESTIAL EMPIRE, EL MECHANICAL RUINS

When Lu Yuan heard the words, his pupils shrank, and the doubts in his heart were immediately resolved.

Extraordinary gene, extraordinary gene

Now that the gene is burned, it means that this gene may be inherited?

In other words, may the offspring inherit the previous gene?

Ye Ye's ancestor was a powerful war saint. His transcendent gene would naturally not be bad. If he inherited such a transcendent gene, how could Ye Ye be weak?

However, Lu Yuan still had some doubts:

'But I have seen other genetic warriors. It seems that no one has inherited the genes of the ancestors like Master Ye Ye.'

Ye Ye explained:

'The more powerful fighters are able to pass on the extraordinary genes to their offspring, the higher the probability that they will be inherited by soldiers below the general war emperor. Moreover, not every offspring can inherit it.'

When Lu Yuan heard the words, his heart was stunned.

I see.

According to this, I am afraid that Ye Ye is a so-called genius?

Think about it, if the ancestor was a war emperor, a war saint, or even a war ** strong, then the younger generation inherited the genes of the senior, maybe the first gene is the lord level or even the king level.

How strong is this?

Lu Yuan originally thought he was already very strong now.

Thinking about it this way, there are probably many peers who are better than him.

He was a little proud, but now he wakes up suddenly.

Have to keep working hard.

After eating the last piece of barbecue, put down the plate and knife and fork every night, and stood up.

‘I’m going for a rest.’

Lu Yuan watched every night opening the door of the traveler’s cabin, coughing dryly, and said with some expectation:

‘Well, Lord Ye Ye, where do I sleep at night?’

Hearing this, Ye Ye glanced at Lu Yuan:

‘Outside.’

Lu Yuan: ‘Oh.’

Seeing Ye Ye closing the door, the corner of Lu Yuan’s mouth twitched. After packing up his things, he silently took out the tent and set it up next to the traveler’s cabin.

Looking at his small tent, and then at the traveler’s cabin on the side, Lu Yuan felt uncomfortable in his heart.

When I get rich, I want to buy a house like this!

Come on, Luyuan, you can do it!

In the next few days, Lu Yuan and Ye Ye continued to deepen into the foggy forest.

With the continuous deepening of the foggy forest, the strength of the beasts encountered gradually became stronger.

From the very beginning, all the fierce beasts encountered were easily killed by Ye Ye, and then gradually encountered the second-order fierce beasts.

The low-level Tier 2 ordinary fierce beasts are not strong, and they can still be killed.

But when he encountered a second-tier elite level fierce beast, even Yeye had to avoid the edge for the time being.

Fortunately, Ye Ye's perception ability is extremely powerful, and can perceive the location of a powerful beast in advance.

For the fierce beasts, humans and cats are no different from other fierce beasts, and they will not be chased after them.

Just bypass their territory and avoid conflict.

The deeper you go into the foggy forest, the more times you will detour by land and night.

Lu Yuan felt a little fortunate.

Fortunately, he held Ye Ye's thigh and ran with her.

Otherwise, given the degree of danger here, he felt that he would probably have to die a few times to get to this position.

This was Ye Ye taking him around the long road and running from the outer circle of the foggy forest. According to Ye Ye's words:

'There is a Tier 3 peak fierce beast lord in the inner circle of the mist forest. It is too dangerous to pass through the inner circle. Although it is a bit more troublesome to surround the road from the outside, it is safe.'

Lu Yuan felt that Ye Ye's definition of safety was a bit outrageous.

Even if they walked the outer circle, ordinary genetic warriors would have to lie down all the way.

You must know that although Lu Yuan's strength is not as good as Yeye, it is much stronger than ordinary genetic warriors.

Even he thinks it is too dangerous, the average genetic warrior can imagine.

Unless they run from the outermost circle, the distance is too far, and it takes a long time to get to the destination.

Of course, the benefits are not without it.

Along the way, Lu Yuan followed Ye Ye and picked up a lot of materials from the fierce beast.

His war pattern space now has a radius of more than ten meters, and even so, it is more than half filled with materials.

It is conceivable how great the gains have been in the past few days.

The two moved in the forest, and at this moment, Ye Ye suddenly stopped.

Lu Yuan looked around vigilantly, 'Could it be that there is another powerful beast?'

Ye Ye shook his head: 'My time is coming, I will leave the place of origin immediately.'

Lu Yuan was startled, he was a bit silly.

If Ye Ye is away, he would be dangerous.

He glanced at his light door, and there was almost a day or so left.

He suddenly said solemnly: 'Then I will stop here too, wait for me after Master Ye Ye comes up, let's continue walking together? I still want to continue to barbecue for Master Ye Ye!'

Fuck, if Ye Ye is not there, his next path will be difficult.

Ye Ye thought for a while and nodded: 'Okay.'

After speaking, Ye Ye's body turned into white light and disappeared.

Lu Yuan breathed a sigh of relief.

Since Ye Ye agreed, she should be waiting for him, right?

Hide it now and wait until you get out.

Lu Yuan looked around, found a hidden canopy and hid.

Fortunately, there were no accidents.

When Guangmen recovered, Lu Yuan left the place of origin.

Heavenly Pluto.

Tianming Empire Palace.

In a huge magnificent bedroom, the light flickered, and every night's body emerged.

The two beautiful-looking cat maids who were already waiting on the side bowed and saluted.

'His Royal Highness, you are out.'

'Um.'

'Your Majesty, please come over.'

No accident, Ye Ye nodded: 'Okay.'

The two cat maids opened the door, bowed to welcome the night out, and then closed the door behind her.

The corridor outside the door is very spacious, about ten meters long, and there are cat guards wearing dark armor at intervals on both sides.

The breath of these cat guards is powerful, and they are all genetic warriors.

After seeing Ye Ye, the cat guards bowed and saluted.

'Your Highness!'

There was a hint of respect in their eyes.

From the time he was born, His Highness Ye Ye was destined to be a peerless powerhouse at the top of the empire.

Ye Ye nodded slightly. Walking through the complicated corridor, came to the door of a huge room.

She knocked on the door: 'Father, it's Ye Ye.'

The door opened, and an elderly cat man with gray hair and a cat man's court uniform opened the door.

His dark gray eyes looked at Ye Ye, with a gentle color in his eyes, and bowed slightly: 'Your Highness, you are here.'

Ye Ye nodded gently: 'Master Hui.'

'Your Majesty is already waiting for you.'

Walked into the room every night.

There are rows of bookshelves on both sides of the room, and facing the door is a huge French window.

In front of the window is a black wooden desk on which various documents are placed.

At this moment, a black-haired cat was standing in front of the French window with hands positive and negative, looking out the window.

When Ye Ye walked to the desk, the black-haired cat man turned around, revealing a very handsome face somewhat similar to Ye Ye.

He looked at Ye Ye, with a gentle smile on his face: 'Ye Ye, listening to reports, have you left Sandstone City?'

Ye Ye nodded: 'Well, on the way to Nether City.'

'Is it safe on the road?'

'Safety.'

'Hahaha! Also, with my daughter's strength, the foggy forest is really not dangerous.'

The cat man's face is full of smiles at this moment, if others see it, he must be surprised.

As a rare and powerful emperor in the history of the Tianming Empire, the majesty and dominance of the Great Emperor Yemu are deeply rooted in the hearts of the people, but his warm side is almost unknown.

Only General Hui, who stood by, looked like he was accustomed to.

'You break through faster than I expected. What reward do you want?'

Every night thought for a while: 'I want a chef who is proficient in human cooking.'

Great Emperor Yemu and Director Hui were both taken aback.

Even though the Great Emperor Yemu knew Ye Ye's hobbies, he couldn't help but toss the corner of his mouth:

'Why do you suddenly want to eat human food?'

'I met a human being. He made me barbecue. The taste is a little different from ours. It's numb and has an indescribable taste.'

'Oh? Human? Made you barbecue?'

Great Emperor Yemu narrowed his eyes slightly, and a sharp look flashed in his eyes.

'What kind of human is it? Do you know who you are?'

After thinking about it every night, he said:

'It's an interesting human, I don't know who I am.'

'interesting?'

'Well, when he first met him, he was very weak, but he hunted down a fierce beast leader by himself.'

Having said that, Ye Ye added: 'He also invited me to eat grilled fish, which is delicious.'

After hearing the words, Emperor Yemu relaxed a little.

The emperor Yemu naturally wouldn't care about the trivial matter of hunting the beast leader.

As long as someone is not deliberately approaching Ye Ye.

He smiled and said, 'If this is the case, then I will find you a chef who is good at human cooking.'

Ye Ye's eyes lit up: 'Thank you, Father.'

Emperor Yemu smiled slightly:

'In a while, the El Mechanical Relic will be opened. This time, you will lead the team and practice hard.'

Every night nodded: 'Yeah.'

Daqixing, Xili City of the Red Maple Empire.

Lu Yuan left the place of origin and returned to his room at four o'clock in the afternoon.

Lu Yuan stretched and walked out of the room.

In the hall, Jeff was cleaning, when he saw Lu Yuan, his gentleman's voice sounded:

'Master, are you out? Do you need me to prepare food for you?'

Lu Yuan thought for a while, nodded and said, 'Prepare dinner. I'll go out.'

He looked at the hall again and found that Li Qinghe was not there. He glanced at the door of Li Qinghe's closed room.

Sister Qinghe is still sleeping late, right?

He didn't care, and left the room.

The new home is very close to the crazy wolf material store, and in more than ten minutes, Lu Yuan came to the crazy wolf material store.

As soon as he walked in, Lu Yuan saw Xue Wang sitting in a chair playing games.

Lu Yuan greeted with a smile:

'Old Xue, I'm here to pick up the guests.'

Xue Wang was startled and looked up at Lu Yuan, showing a slight smile:

'Yo? Lao Lu? Why haven't you come these few days?'

Lu Yuan smiled: 'Busy cultivating and didn't hunt the beasts.'

'Even monsters like you are busy practicing?'

Lu Yuan smiled without explaining.

'The harvest this time is not bad, you count it down.'

Lu Yuan waved his hand, and a large amount of materials appeared on the open space of the hall.

Xue Wang walked over with a look of disregard:

‘Which time did you get a bad harvest?’

He walked over, picked up a piece of black fur and looked at it.

Then the disapproving expression on his face froze.

He was stunned, took a close look at the black fur in his hand, and then looked at Lu Yuan as if looking at a monster:

‘The first-order misty cheetah fur?! I, Lu Yuan, you broke through to the first-order?!’

Lu Yuan smiled modestly:

‘Isn’t I busy practicing? I got a lot of spirit crystals some time ago, stayed in the gravity room for a while, and barely broke through.’

Xue Wang: “

He stared blankly at Lu Yuan, then looked at the pile of materials on the ground, opened his mouth and wanted to say something, but in the end he couldn’t say anything.

He bowed his head and continued to count.

‘The skin of the Mist Poisonous Python is of first-order ordinary quality, and it is well preserved. Such a large piece will count you as 4500.’

‘A pair of fangs, 3000.’

‘This is the fuck?! The fur of the first-tier elite mist wolf?! Lao Lu, you can actually hunt the first-tier elite beast??’

Xue Wang looked at the fur in his hands, he was numb, and he began to explode.

Lu Yuan smiled slightly: ‘It’s just a fluke.’

Xue Wang opened his mouth and looked speechless:

‘You are such a monster.’

Xue Wang continued to check. When he saw a single horn nearly one meter long, Xue Wang was taken aback, and then looked at Lu Yuan in shock:

‘The unicorn of the second-order misty tiger?! Don’t tell me you are already second-order?!’

Lu Yuan glanced at the unicorn and smiled:

‘What are you nervous about? I didn’t kill it.’

Xue Wang was stunned:

‘Who killed that? Haven’t you been a lone ranger all the time?’

Lu Yuan smiled:

‘After all, this time I have to go through the foggy forest and go to other cities. I was lucky. I ran into a big guy and she was willing to take me for a ride.’

‘Just coming out of Sandstone City, can you hunt down Tier 2 fierce beasts? Is there any monster stronger than you?’

Xue Wang didn’t believe it~www.mtlnovel.com~ In his opinion, Lu Yuan’s performance was already a monster, and he could hunt the first-order elite beasts as soon as he broke through. What is this not a monster?

As a result, Lu Yuan said, there are people who are stronger than him?

Seeing Xue Wang’s unbelieving look, Lu Yuan sighed and smiled:

‘There are people outside, there are heaven outside, and that guy is indeed much better than me.’

Lu Yuan silently added a sentence in his heart, only now.

In the future, when Lu Yuan continues to evolve his extraordinary genes, he will definitely be stronger than Ye Ye.

Even if Ye Ye’s current transcendent gene inherited from her ancestors, it was extremely powerful, but it couldn’t evolve after all.

And as long as Lu Yuan constantly evolves his own extraordinary genes, it is only a matter of time before he surpasses Yeye.

‘Even the person you think is stronger, wouldn’t it be a direct line of a big family?’

Lu Yuan smiled: 'Who knows?'

Xue Wang didn't ask much, shook his head, and continued to count.

With what Lu Yuan had said before, when he saw the Tier 2 materials, he had calmed down a lot.

After he checked all the materials, he looked at Lu Yuan with a weird expression:

'The count is over, a total of 51.39 million.'

Lu Yuan's eyes lit up: 'So many?'

This is almost ten times what Lu Yuan had previously harvested.

Even if it is converted into a spiritual crystal at a high ratio, there are more than 200,000 zero-order spiritual crystals.

It is almost comparable to the materials auctioned by Luyuan before.

Although he had prepared beforehand, he still didn't expect that there would be such a big gain.

This is still the first-order and second-order spirit crystals dropped by those fierce beasts that have been taken away by Ye Ye, otherwise, he will only gain more.

'Should I transfer money to you now?'

'good.'
