

The Mightiest Little Peasant Chapter 1181

A moment later, the golden light pillar disappeared.

The golden light on that figure also faded a little, no longer as dazzling.

There was dead silence.

The group of old freaks froze there, and not a single one of them moved. Their eyes widened as they stared fixedly at the figure in front of them.

As long as one entered the third form, their body would transform. A part of them would transform into a beast and master a portion of the owner of the bone's magical powers. When did this boy mutate?

What kind of magical power did he get a hold of?

They looked around and scanned their limbs and bodies, but they did not find anything.

"What's going on? Is there no change?"

They discussed softly.

It was at this moment that the figure suddenly raised his head, revealing a cold face. Those eyes were not human eyes, but golden dragon eyes.

"It's those eyes!"

The old monsters cried out in alarm.

At this moment, the dragon eye on the left lit up. In a split second, a violent wind sprang up, and the sky dimmed.

Terrifying gales swept out with that figure as the center, engulfing the entire region.

Then, the second eye lit up.

In an instant, the sky suddenly darkened while dark clouds surged. Swish! Heavy rain poured down!

The wind blew faster and faster, carrying the rain with it as it slapped on the faces of the old monsters.

However, they did not notice anything. Their faces were blank.

It was clearly a sunny day just a moment ago, but in just a short while, the sky had changed. All of this was because of this brat and his pair of precious eyes!

"Summoning the wind and controlling the rain! This is called summoning the wind and controlling the rain! That's the bone of the Rain Dragon!"

An old monster cried out in shock.

Only ancient Flying Rain-Dragons had the ability to summon wind and control rain!

All the old monsters' expressions changed.

Looking at the figure in front of them, they were a little hesitant. This boy was already quite powerful previously. Now that his strength had increased greatly and his aura was also a little scary, he was probably even harder to deal with.

"Hmph! What are you afraid of! Who cares what bone he has, I'll kill him!"

With a furious harrumph, Soul Emperor raised his golden seal and smashed it forward.

Tang Hao was expressionless as he raised his hand gently. In an instant, the rainwater that filled the sky suddenly stopped. He then gently patted forward, and the rainwater suddenly condensed, turning into a huge wave that slammed over.

Violent winds howled as huge waves surged!

At this moment, the entire world was roaring!

The wave carried the vast might of the heavens and instantly slapped the golden seal away, and then it swept over and sent the Soul Emperor flying as well.

Hiss!

Heaven Devouring Elder, who was about to move, could not help but suck in a cold breath when he saw this.

At this moment, the rain turned into waves and surged over, lifting Tang Hao up. He stood on the peak of the waves, his eyes shining with a resplendent golden light. Wind and rain swirled around his body, making him look like an ancient rain god, a wind god descending upon the world.

Vaguely, the shadow of a Flying Dragon rushed out from behind him, soaring in the wind and rain.

"Didn't you want to kill me! Come!"

Tang Hao said indifferently. He stretched out his hand and kept slapping forward.

With every palm strike, monstrous waves surged forth.

The rain poured down unceasingly. It almost drowned the entire region, turning the mountain range into an ocean.

Ah-!

With a scream, Darkshade was sent flying by the huge wave.

“Tang, you bastard!” he cursed angrily before being sent flying by the wave again.

“F*ck! I can’t stop it! Pfft-!”

Daoist Ji Ling utilized his defensive magic tool to resist the surging wave, but the wave was too large, and it was like an entire ocean was pouring down. The barrier persisted for a while before being crushed.

Then, he was hit by the waves until he vomited blood, and his head was dizzy.

The others were nowhere better. They were all in horrible shape. Screams, grunts, and vomiting blood constantly rang out.

“Gather! Let’s kill him together!”

Everyone gathered together to block the giant wave. Soul Emperor, Heaven Devouring Elder, and the others rushed out together, tearing apart the giant wave and charging towards Tang Hao.

“Hmph!”

Tang Hao snorted lightly, unafraid. His body shook slightly, and his aura exploded. He was a late-stage Path Seeking Realm cultivator.

He raised his hand and quickly sent out a few palm strikes. Golden hand seals flew out to block.

Next, he pulled out the Octoterra Halberd. With a tap of his foot, he shot out explosively and slashed down.

Swoosh!

The might of the halberd was so strong that even the void seemed to be unable to withstand it and was about to crack open.

Golden seals, flying swords, chakrams, and sorts were all sent flying.

The group of old freaks were immediately stunned, their eyes almost popping out!

At this moment, the void split open. The East Sea Demon Lord emerged and attacked.

“I was waiting for you!”

Tang Hao snorted and swung his halberd.

Clang!

The two halberds collided, and an earth-shattering boom erupted.

Tang Hao's body did not move, but the East Sea Demon Lord was shaken and retreated. His eyes widened in disbelief.

"Now... it's my turn!"

Tang Hao let out a cold shout. His body moved, and he activated his Emperor Yu's Steps. He suddenly rushed in front of the Spirit Emperor and chopped down.

"I heard you're very bossy, so I came to see how bossy you are!"

Tang Hao muttered coldly, swinging his halberd again and again.

Soul Emperor brandished his golden seal to defend himself, but he was forced to retreat in a sorry state.

He could not stop roaring, and his face was livid.

To think that he, Soul Emperor, would lose to a young lad!

The muscles on his face twitched as he became ferocious. He crazily boosted his Dao Energy and activated all the treasures on him, raising his battle prowess to its peak.

However, it was useless. His opponent was only one person, and with a halberd, he was forced to retreat.

Swoosh!

Finally, he couldn't hold on any longer, an arm sliced off, blood scattering into the sky.

At this point, he was finally terrified. The boy in front of him was too terrifying. He was no match for him.

He retreated rapidly, wanting to escape.

"Trying to run?"

Tang Hao shouted and swung his halberd again.

Ah-!

After being struck by the halberd, the Spirit Emperor's body shook violently and he spat out a mouthful of blood.

At this moment, he was already terrified. He bit the tip of his tongue and burned his Blood Essence madly before transforming into a ray of blood that fled in the blink of an eye.

"Hmph! He escaped rather quickly!"

Tang Hao stared blankly, then snickered.

Then, he grabbed the halberd and charged towards Heaven Devouring Elder.

“Heaven Devouring Elder, let’s settle the score!”

Tang Hao swung his halberd.

“You little brat, do you really think I’m easy to bully? You were still in your mother’s womb when I was dominating the world!” Heaven Devouring Elder said angrily as he received the blow.

However, following that, he was struck until he cried out in pain.

Tang Hao didn’t go too hard on him. He had always been thinking about that treasure robe of Heaven Devouring Elder. It was going to be his sooner or later anyway, so he couldn’t ruin it.

“You brat, just you wait!”

Heaven Devouring Elder cursed before running away as well.

Tang Hao’s figure flashed as he charged towards the others. He held back a little against Heaven Devouring Elder and was not polite at all towards the others. He beat them until they vomited blood repeatedly. An old emperor could not escape in time and was killed by his halberd.

The others fled quickly and disappeared.

“Brat, see you next time!”

The East Sea Demon Lord also fled into the void.

“Hmph! You old whale, I’m going to kill you next time and use your bones to refine a void treasure!”

Tang Hao snorted and shouted.

Seeing this group of people run away, the others didn’t dare stay. They broke into a run. Tang Hao chased after them.. He only had time to kill two of them, while the rest ran away.
