

The Mightiest Little Peasant Chapter 1184

Eastern Sea was huge and boundless.

There were countless islands on it, roughly divided into five archipelagoes. In the depths of the ocean, the archipelago that bordered the Eastern Sea was called the Thousand Monster Isles.

The one with the most numbers of isles and the largest scale was called the Demon God Archipelago.

Demon Spirit Island was within the Demonic God Archipelago.

On the island, there were demons dressed in strange clothes everywhere. They looked human, but their appearance more or less had the characteristics of their original bodies. One could recognize their race at a glance.

There were many types of beasts, including birds, beasts, and sea beasts.

Tang Hao transformed into an ape demon and slipped away on the street.

After walking around for a while, he bought a map. It was a map of the East Sea, and the locations of the islands were marked on it.

“There are too many islands!”

Tang Hao muttered.

Taking a closer look, there were a lot of ape islands too. Tang Hao couldn't tell which one belonged to that old ape's species, or if these were all.

After walking around for half a day, Tang Hao entered a restaurant and started drinking.

After drinking for a while, he suddenly heard a familiar voice coming from the door.

“Boss, three vats of wine!”

Tang Hao was startled.

The man who had entered the room was none other than the monkey that he had poked in the butt.

Damn! Enemies are really bound to run into each other!

Tang Hao muttered to himself, his expression turning strange.

Monkey carried the metal rod and swaggered in. Behind him was a large man, a bull demon.

The two demons found a seat and sat down.

Just as he sat down, the monkey lifted his butt and stood up again. A strange expression appeared on his face.

“Brother Ape, what’s wrong?”

The ox demon said.

“I’m... I’m fine!” The monkey’s face was red with shame.

His anus was itching again!

This is weird. I haven’t felt itchy in a long time. Why is it suddenly itchy again?

Monkey wiggled his butt and sat down.

Seeing this, Tang Hao laughed inwardly.

Tang Hao was slightly surprised when he took a closer look at the monkey. After not seeing it for a long time, this monkey’s strength had increased by a lot. At first, it was still a Golden Core, but now it was already in the middle stage of the Nascent Soul realm.

In the East Sea demons, such strength was already quite impressive.

“This monkey is also a genius!” Tang Hao thought to himself.

After a moment, Tang Hao retracted his gaze, took a sip of wine, and smiled.

There was no grudge between him and the monkey, so when he thought about what had happened back then, he found it interesting.

He started to drink, thinking about which island he should visit first. He could hear the conversation between the monkey and the cow demon.

Suddenly, a sentence caught Tang Hao’s attention.

“Hey! Brother Yuan, it’s been spreading recently that the toad old immortal is dead. Is this true?” the ox demon said.

The monkey frowned and said, “That should be the case! Look, that group of toads have been chased away by the whale tribe. Even the island has been occupied. If that toad ancestor hadn’t died, how would the whale tribe dare to touch them?”

That ox demon sighed and said, “I really can’t imagine how powerful the toad old immortal is. Who else in this world can kill him?!”

“That’s right! That Toad Immortal is a character on the same level as my Ape Clan’s old ancestor. Back then, I was fortunate enough to be summoned by the Ape Ancestor and received his guidance. That kind of elegant demeanor is still fresh in my memory.”

“However, there are too many powerful people in this world. There is always someone stronger than them.”

Monkey sighed.

“Sigh! When can we cultivate to that realm!” the ox demon said dejectedly.

“Hey! What’s the rush? Come, come, drink!” Monkey picked up a jar of wine and started drinking boldly.

Tang Hao put down his bowl, his expression changing slightly.

Old Immortal Toad? And the Ape Ancestor?

This was definitely that old toad and that old ape.

This monkey actually accepted the old ape’s summons? Does this mean that this monkey knows where the old ape lives?

Tang Hao thought about it and felt that it was very likely.

He did not make a move now. He waited for the two demons to finish their wine, pay the bill, and leave before following them out.

The two demons flew out of the island.

Tang Hao did not deliberately hide his tracks. After a while, the two demons noticed him. They stopped abruptly, turned around, and stared at him coldly.

Tang Hao swaggered over.

“Oh! You’re from the same race! What, haven’t you heard of me before? What are you trying to do by sneaking behind me?”

Monkey snapped.

“How dare you follow me! Are you tired of living?!”

The bull demon roared fiercely.

Tang Hao didn’t say a word and rushed forward. When he got close, his face changed, revealing his original appearance.

“You are... a human?”

Monkey was slightly taken aback. Then, he felt that this person looked familiar, as if he had seen him somewhere before. However, he could not recall where.

After staring at it for a while, he suddenly let out a cry and revealed a shocked expression.

However, he remembered that the person before him was none other than Tang Ritian, the legend of the ninth continent. He had even watched the battle of the Ritian Valley.

And this Tang Ritian was the one who had competed with him for the Rain Dragon Divine Bone at the southern border!

In the previous battle, this guy's strength was already extremely terrifying, and not long ago, news came from the ninth continent that this guy had returned and even defeated several Path SEeking experts. His strength could be considered terrifying.

"It's you!"

Monkey's tone was slightly bitter, he felt extremely emotional.

Thinking back, when they had first met, this boy had not even reached the Golden Core Realm. He was only at the Awakening Realm, and at that time, he was already at the Golden Core Realm.

But now, this kid was already a Path Seeking expert, and he was only in the middle stage of the Nascent Soul realm. He was far behind.

"Who is he?"

Ox Demon was still somewhat stunned.

"He's that Tang Ritian!" Monkey said.

"F*ck! He's the legend of the ninth continent, Tang Ritian?" The cow demon's body shook, and his eyes widened.

"What do you want?" Monkey asked in confusion.

The two of them did not have any great enmity between them. Moreover, they were not on the same level anymore, so they should not have any interactions with each other. Why was he here now?

"Do you know where that old ape lives?" Tang Hao asked coldly.

"Old Ape?" Monkey was stunned.

"Your Ape Ancestor!" Tang Hao said.

Monkey was even more confused. "Why are you asking this?"

"You don't need to ask. Just say it. If you don't say it, I don't mind doing it myself!" Tang Hao said coldly, gently raising his hand.

When the monkey saw this, he laughed bitterly. He knew that if he did not say anything, this guy would probably search his soul. If he wanted to escape, the two of them would not be able to escape.

“I only know where the ancestor’s cave abode is. I’ve been there once. That island is not on any sea map. It’s hidden by a huge array formation. You won’t be able to find it.”

“Just tell me where it is. You don’t have to worry about finding it!”

As he spoke, Tang Hao threw out a map and had the monkey mark it.
