

## The Mightiest Little Peasant Chapter 1297

“There have always been many conjectures about the location of the nineteenth continent, and the void Ocean is one of them. Many people have entered it over the years, but they haven’t found anything.”

The true Lord of the Yao family said.

With that, he turned to true Lord Mi Tian. “Old man Mi Tian, are you sure it’s in here?”

“That’s what that Ji brat said,” true Lord Mi Tian said with a frown. “I believe him. He also said that he’s almost found the entrance and will be able to enter very soon.”

“Since that’s the case, let’s go! Let’s meet up with him!”

“Alright!”

The group of perfected Lords moved in unison and entered the void Ocean.

Ten minutes later, the air rippled again, and a figure stepped out. It was Tang Hao.

“It’s really in here!”

He muttered.

Then, his figure moved and he swept in.

After advancing for a while, the sea in front of them darkened, and a hurricane swept up.

The void Ocean could be considered a dangerous place. The weather was harsh, and hailstones, thunderstorms, and hurricanes were all common. What was even more terrifying was the sea beasts inside.

The giant beasts in the sea were extremely dangerous, and if one was not careful, they would become the giant beasts’ snacks.

But to Tang Hao, these were not dangerous. He could just charge through them.

In order to avoid exposing his whereabouts, he had specially tamed a large number of sea beasts and ordered them to spread out to find the whereabouts of that group of true Lords.

After a while, he found the trail of the group of people and followed them carefully.

A moment later, the group stopped. True Lord Mi Tian took out a piece of Jade and placed it in his palm. He poured a trace of Dao essence into it and the Jade lit up.

After a short while, a golden light swept over from the sky, and a figure appeared in front of him.

It was Ji Wu, with a golden body and an amazing power of heaven and earth.

Compared to the last time, his aura was even more powerful. There was no Dao ring behind him, but his entire person was shrouded in a layer of golden divine splendor.

“This guy ... He has indeed become stronger!”

In the distance, Tang Hao saw him through the eye of a sea beast. He could not help but feel shocked.

The true Lords' expressions also changed slightly, revealing a look of surprise.

“This is the legendary heaven and earth origin core. It's truly extraordinary!”

“Little Ji ... No, I should call you fellow Daoist Ji!”

They all cupped their hands and greeted him respectfully.

Although Ji Wu was young, he was stronger than them. He was a top genius and was blessed by the heavens. His future was limitless and he was worthy of their respect.

Ji Wu landed and saluted back. He cupped his hands and called him “senior”.

“Wu ‘er! How was it? Did you find it?”

True Lord Mi Tian took a few steps forward and asked anxiously.

“Old ancestor, don’t worry. I’ve already found it. I’ve also gone in. Look, this thing was found inside.”

As he spoke, he raised his hand and a Golden Jade sword appeared in his palm.

The sword glowed with a hazy golden light and exuded an astonishingly sharp aura.

“This is ... A Supreme treasure?”

The perfected cultivators exclaimed.

Their eyes lit up as they stared at the sword.

Then, they looked regretful.

Unfortunately, this sword was slightly damaged and could not be considered a true Supreme treasure.

“I still have more!”

Ji Wu took out a few more similar Jade swords.

“Heavens! This was a sword formation! A sword formation formed by a set of Supreme treasure level swords, how amazing is this!”

The group of true Lords were speechless.

Their eyes were burning with passion, and even their breathing became more rapid.

The legends were true. There were indeed countless treasures hidden in the 19th continent.

Ji Wu put away his sword. "There are indeed many treasures in there. Also, it's very, very big and boundless. I wonder how many treasures are buried there."

"Just as the legend says, there was a world-shaking battle on the 19th continent. The void collapsed and the continent was swallowed into a crack in the void."

"Speaking of which, it's a little similar to Kunwu's situation."

The group of perfected cultivators nodded thoughtfully.

"Alright, let's go!" True Lord Mi Tian said.

"Alright!"

Ji Wuyi nodded and turned to leave.

Suddenly, he stopped and turned around. His eyes shone with a bright golden light as he looked around.

"What's wrong?"

"Fellow Daoist Ji, are you afraid of that Tang kid? don't worry, he can't catch up to us. We've been very careful along the way and have passed through the void several times."

The group of true Lords said.

"You've underestimated him!" Ji Wushang laughed.

He scanned it again and shook his head. "Forget it. Even if he catches up, it's fine. I'm not afraid of him at all now." After he finished speaking, he turned around and flew away.

"How is that possible?"

The group of true Lords also turned around and whispered.

They didn't believe that the kid could still catch up with them after being so careful.

"Let's go!"

They followed closely.

In the distance, Tang Hao waited for a while, then commanded the sea beast to give chase.

The group of people rushed into the astral wind, which was full of cracks in the void. Ji Wu took the lead and directly rushed into one of the cracks.

Ten minutes later, Tang Hao arrived at the rift.

With a few clanking sounds, the Supreme armor covered his body. He carried the divine bow on his back, grabbed the eight desolations halberd, and rushed into the crack.

There was nothing inside the crack. It was completely dark.

After traveling for a moment, a nine-colored crystal Mist appeared in the void in front of him.

"Nine-colored crystal Mist again!"

Tang Hao's expression changed."It seems like I'm right. It must be because of that battle."

He knew that the nine-colored crystal fog was formed from the nine-colored divine blood of giant God long Bo. Any place that had the nine-colored crystal fog was definitely related to giant God long Bo.

"The ancient Dao lakes, Kunwu, and the 19th continent all have nine-colored crystal Mist. It looks like the battle from back then affected a lot of people."

He swept down and soon saw a vast piece of land. It was desolate and dead, without any signs of life.

It was a mess everywhere. The mountains had collapsed, the earth had caved in, and the entire continent had shattered into a dozen pieces, floating in the void.

He landed on the top of a mountain and looked around. There were bones, artifacts, armors, and many beast bones on the ground.

The skeletons of the giant beasts were like small mountains, lying on the ground.

“It’s too tragic!”

Tang Hao sighed.

Who knew how many bones were buried in this land.

In that battle back then, even forces like Kunwu suffered heavy losses, let alone other forces.

“Forget it. What happened back then has nothing to do with me. I’d better find the treasure first!”

Tang Hao chuckled. He flew down and released his split souls to search the area.

“Waa! So many treasures!”

“These bones are also treasures. Look, this one is golden and that one is silver. They are all useful. We can’t waste any of them.”

They turned into a gust of wind and swept out. No matter what it was, it was all swept away.

They dug three feet into the ground and didn’t leave a single hair.
