

The Mightiest Little Peasant Chapter 1305

In the sky above the vast ocean, a figure landed.

This was the sea between the eighth and ninth continents, and the ruins of immortality was located in this sea.

Tang Hao dove into the ocean and arrived at the ruins of immortality.

In the beast Realm, he saw the sky-devouring ROC again.

Upon seeing him, the sky-devouring Peng was stunned for a long time. He could not believe it.

He clearly remembered that it hadn't been long, and at the time, his brother had only been at the early Dao seeking stage, pitifully weak. But now, his aura had surpassed his, and was unfathomable.

After some small talk, Tang Hao took out the remains of the Peng clan and the disciples of the southern Dipper sect.

The sky-devouring ROC stood in front of the remains for a long time with a sorrowful expression.

"I see!"

He sighed when he heard Tang Hao's story.

"Many thanks!"

Then, he thanked her.

Tang Hao helped bury the remains and built a tomb for them before leaving.

Tang Hao's heavy heart brightened up after he came out of the sea.

“Perhaps ... It’s time to leave!” He muttered as he looked at the sky.

At this moment, he had the intention to leave.

Now, his cultivation had already reached the great circle of one beheading, and his strength was even the best on the Qi Yuan planet, reaching the peak. As for his enemies, most of them were basically dead.

Old man North Gate was dead, and so was Ji Wu.

Also, the group of Dao-severing perfected Lords had all died. There were still a few left, as well as the group of descendants of the chaos, but they were no longer a threat.

With his current strength, he could kill them with a flip of his hand. There was no difficulty at all.

He had already stood at the peak, and the peak meant that he had no opponents. It was truly lonely.

He had wanted to go to the starry sky for a long time. There was a wider world there, and he had many doubts in his heart.

Where did that giant God Dragon count come from?

What happened on earth during the ancient era?

All these years, these questions had been bothering him.

Thinking up to this point, he turned around and cast a glance in the direction of the ancient Dao Lake.

There was also a living giant God Dragon count sealed there.

Tang Hao really wanted to go and take a look, but after thinking about it carefully, he still shook his head. That giant God Dragon count was no ordinary living being. Even if he had been suppressed for so many years, he was probably still quite powerful.

If they were careless and let that guy out, the people on Qi Yuan star would be in great misery.

He turned his gaze to the sky again.

If he wanted to solve all his doubts, he had to go to the starry sky.

Back then, those people, including goddess Nuwa and the great void God, had indeed come to the Qi Yuan star after leaving the ancestral star. They had left many traces, such as the Emperor WA's Palace and the great void realm.

But after that, Tang Hao felt that he was probably not there anymore.

No matter how he looked at it, this Qi Yuan planet was a little dilapidated. The strongest was only at Dao severing. Those stronger had all gone to the starry sky.

"I'll definitely go, but before that, there are still many things to do!"

Tang Hao thought of earth. If he went there, it would be difficult for him to come back. He would not be able to manage both sides like he was doing now. He still had many things to deal with on earth.

There was also Kun Lun's safety. Right now, Kun Lun's strength was very strong and could be said to be the number one in Qiyuan, but it was hard to guarantee that there would not be any problems in the future.

Tang Hao thought for a long time and had some ideas.

"The God of Berserkers has a clone. Stay here and protect Kun Lun!"

The God of barbarian was very powerful, with the strength of almost three beheads, more than enough to protect Kun Lun. He also had a clone, a body of the origin core, which could cultivate very quickly and without any obstacles. In the future, he could smoothly break through to the realm of two and three.

With these two, Kunlun would be safe.

As for earth, he was prepared to go back and stay for a while to deal with the things that needed to be dealt with.

“Let’s go!”

He flicked his sleeve, tore open the void, and walked in.

After passing through the void a few times, he appeared in the first continent after a while. Below him was a majestic city that stood on a mountain.

The city was very large, and there were many palaces and buildings inside, while the outside was covered with layers of light screens.

This place was where the Jiang family was located.

When he had first arrived on earth, the Jiang family had sent the strongest people. After he had come here, he had more enmity with the Jiang family, so he had targeted them first.

“It’s time ... For the Jiang family to settle all their debts!”

He revealed his killing intent and descended.

“Who is it?”

“Not good! It’s that guy! He’s coming!”

The Jiang family was in an uproar.

From all four corners of the city, countless figures rushed into the sky and looked up.

Although the Jiang family’s people looked a little serious, they were not too worried. Their ancestor was not here, but they still had layers of great arrays. These great arrays had been passed down since ancient times and were unbreakable.

This guy alone would definitely not be able to break it.

They had heard that not long ago, the King of Qin had attacked the Feng clan, but he couldn't even break through the Feng clan's defenses. He could only reconcile with the Feng clan.

Today, the King of Qin would return empty-handed.

"Our Jiang family's defense is much stronger than the Feng family's. The King of Qin still dares to come here. Isn't he asking for trouble?"

"It is! We'll have to leave with our tails between our legs later!"

Many members of the Jiang family even sneered.

In the past few days, all the great sects and titled aristocratic families in the first continent had been spreading the news that Ji Wu had obtained some Supreme divine item and that his strength was already comparable to the King of Qin.

He also discovered the 19th continent that had disappeared. The ancestors of all the sects and families had gone there to find treasures that could kill this demon.

When they returned, it would be the time of death for this demon.

Therefore, they were not flustered at all.

However, at this moment, the figure in the sky waved his hand, and a huge figure appeared and descended from the sky.

"What's that ..."

"It's that terrifying monster!"

The Jiang family members' expressions changed.

They had a deep impression of this monster.

What happened next scared them so much that their faces turned pale. The monster descended from the sky and slammed down with its palm. The outermost layers of the light screen exploded with a loud bang.

The monster roared in anger and struck again, shattering another light screen.

That was the Jiang family's protective formation!

Every layer was a top-notch magical formation, but it was being torn apart by the monster as easily as breaking dead branches.

It was as if it wasn't the clan-protecting array, but just layers of tofu.

"Heavens!"

They cried out in shock, their hearts filled with shock and fear.

"What do we do?"

The clan elders were all panicking.

"Stay calm! Calm down. As long as we can drag this out until the forefather and the others return, this brat will be dead!"

An elder shouted.

"Yes, yes! You have to drag it out, someone! Go open the Treasury and bring out all the formations and materials. Try your best to repair the formations and hold on until our ancestor returns!"

They began to mobilize their clansmen, preparing to stall for time.

"Old ancestor? Buzzzzzz! Are you guys talking about this guy?"

Tang Hao smirked coldly in the sky. He threw a piece of Jade at the light screen.
