

The Mightiest Little Peasant Chapter 1311

“Test?”

Tang Hao was surprised.

“Sect fellow Shi, why don’t you test it?” The old man surnamed Xie hurriedly said.

“Yes, yes! Test it!” The others also chimed in.

Why did they follow him here? wasn’t it to see the results of his test?

Although the people from the old Star were as capable as those from the secondary stars, they still had to test them so that they could be at ease.

Moreover, they could only talk about treatment after they had a clear understanding of their qualifications.

Those who came from the secondary stars were all like this. They had to be tested first, and after the test, they would be recruited by the forces.

“This ... Alright!”

Tang Hao thought about it for a while, then agreed.

“How do we test it?” He asked in confusion.

Deacon Yun stroked his beard and chuckled, “don’t worry. It’s very simple.” What is the most important thing in the realm of Dao severance? of course, it’s the Dao pillar and the Dao fruit. What kind of Dao pillar is formed and what kind of Dao fruit is formed will determine the strength of a Dao severance cultivator. ”

“What we want to test is naturally this aspect. However, these two things happen to be the most important secrets of a Dao-severing cultivator. So, we have something here that is specially used for the test. You don’t have to show it to us.”

As he spoke, he turned to a disciple standing beside him and said, "Go, bring the Dao stone here!"

"Yes, Deacon!"

The disciple responded respectfully and turned around to leave.

A moment later, he returned with another disciple, carrying a huge sky-blue stone.

Behind the two of them, there were many people surrounding them.

"Dao stones! Who wants to take the test again?"

"Someone from some star came again! I don't know what kind of talent this guy has and what level he can reach. I remember that not long ago, a ninth level monstrous talent appeared at Liu Xing. When he was tested, it caused a sensation. All the big sects were alarmed and came to snatch him. In the end, he was snatched away by Sun Moon Mountain."

"Hey! I've heard about it too. It was measured on planet Jumen! If the Dao stone detected a ninth-grade Dao fruit, it meant that both the Dao platform and the Dao fruit were ninth-grade, which meant he had the potential to reach double nine! It's too heaven-defying!"

"Exactly! I remember that his name was Gongsun Yulong or something. He's definitely a monster!"

The crowd discussed and gathered from all directions of the hall.

Every test was the liveliest time in the star Hall.

"This is a Dao stone. As long as you place your hand on it, it will be able to test your Dao pillar and the grade of your Dao fruit. The two factors will be combined to obtain the final grade."

"Finally, you can determine its grade based on the brilliance it emits. The brighter the brilliance, the higher the grade, which proves that your aptitude is better."

Deacon Yun pointed at the stone and introduced.

“I got it!” Tang Hao nodded, but his expression was strange.

His Dao pillar was extremely strange. It had previously been a Supreme-grade vital Dao pillar, but ever since it had been repaired by the Azure Lotus, it had undergone some subtle changes. Even he wasn't sure of its grade.

Also, that Dao fruit was of immortal grade. Could this Dao stone detect it? It wouldn't explode, right?

Tang Hao was a little worried.

At this moment, the two disciples walked up to him and carefully put down the Dao stone.

“Alright! Sect fellow Shi, you can start now!”

Said Deacon Yun with a smile.

Tang Hao took a deep breath and walked toward the path stone.

At this time, more and more people gathered around. They all looked over with excited faces.

“Where did this person come from?”

“I heard them say that they were from planet Qiyuan. They were not from our side.”

“Qi Yuan star! I know, it's that old star. The people there are quite capable. I remember that a long time ago, a person from planet Qi Yuan came here. He was quite powerful!”

The crowd was even more heated in their discussion.

Tang Hao raised his hand and gently extended it toward the stone.

He was a little nervous because he was afraid that the Dao stone would not be able to withstand it and explode.

“That ...”

Just as his hand was about to touch the Dao stone, he stopped and looked at Deacon Yun. “This thing ... Is it solid?”

Deacon Yun was stunned.

The old man surnamed Xie and his group were also stunned.

Everyone was stunned and somewhat dumbfounded.

Sturdy?

What was this guy saying? Could it be that he was afraid that this thing would break? It exploded?

Hahaha! How could this be possible? This guy was really funny!

“Hahaha! Who does he think he is? I’ve never heard of anyone who could explode this Dao stone!”

“I’d like to see what rank this guy can reach! Don’t let a rank-5 show up, and we’ll be laughed at!”

Many people started to sneer.

“Sturdy! Of course it’s sturdy!” Deacon Yun’s face was strange.

He did not laugh. This person was from Qiyuan and did not know the function of the Dao stone, so it was excusable for him to say this.

“Alright then!”

Tang Hao nodded, then pressed his palm on it.

At this time, everyone stood on their tiptoes and stared at the Dao stone with wide eyes. In particular, old man Xie and the others held their breaths.

They had high hopes for this person.

After all, this person was from the old Star. It was said that many ancient orthodoxies were left behind on the old Star. Compared to the secondary stars here, the old Star's Foundation should be much deeper.

Rank-6 was more or less enough, rank-7 was the best.

They thought to themselves.

Generally speaking, rank-5 was average and quite mediocre. Rank-6 was better, rank-7 was the top, and as for rank-8, they were considered monstrous.

Rank-9s, on the other hand, were monsters among monsters.

However, they waited expectantly for a moment, but there was nothing.

The stone didn't even move, let alone shine. There wasn't even the slightest bit of light.

Their eyes widened and they were stunned again.

Even Tang Hao was stunned. He looked at the unmoving Dao stone in shock.

The situation was extremely awkward.

"How ... How did this happen?"

Deacon Yun scratched his head, unable to figure it out.

This shouldn't be the case!

He had never seen such a situation before.

"Is this Dao stone broken?"

Tang Hao said softly.

"How is that possible?" Deacon Yun said, "move aside first. Let me try!"

As he spoke, he took a few steps forward, stretched out his hand, and pressed it on the Dao stone.

In an instant, the Dao stone trembled and suddenly burst into a brilliant light, which gradually became stronger.

"It's a sixth-grade!"

"Al! He was fine! Why didn't it move just now? it's really strange!"

Everyone was bewildered and puzzled.

Logically speaking, no matter how bad one's aptitude was, the Dao stone should have some reaction. Whether it was a grade one or two, it should be able to detect it. However, what was the point of not having any reaction at all?

"That's weird! It's really strange!"

Deacon Yun retracted his hand and studied Tang Hao curiously. "May I ask ... How many patterns does your Dao fruit have?"

"There are no Dao patterns!"

Tang Hao hesitated for a moment, but he still answered.

“What? No Dao patterns?”

Deacon Yun was stunned. He looked at Tang Hao in disbelief.

There were Dao patterns on this Dao fruit. How could there be no patterns? could it be ... That his Dao fruit was defective?

Thinking of this, his expression changed slightly.
