

The Mightiest Little Peasant Chapter 1345

“Sky Thunder ship?”

Tang Hao landed on the top of a mountain and met with a group of split souls. He took the item.

His attention was also attracted by the planetary ship.

This planetary ship was in the shape of a shuttle, and it was shining with a golden light. Its surface was engraved with silver patterns, and its shape was extremely handsome and cool. It even exuded an aura of lightning.

“Good treasure!”

Tang Hao held the planetary ship in his hands and examined it carefully. He was delighted.

There were different levels of planetary ships, and the better one was, the faster it would be. It would save them a lot of time when traveling through the starry sky, and would also be a Great Escape tool.

The ship in front of them was the highest quality planetary ship.

Tang Hao had a profound understanding of refining, but he had only studied astrolabe before. He had never studied planetary ships, so he could not refine such a high-quality planetary ship.

However, that was in the past. Now that he had obtained such a high-quality planetary ship, with his attainments, he only needed to study it a little and he would be able to completely grasp it.

“Wonderful! This is really wonderful!”

In just a short while, he had thoroughly studied the planetary ship, and he couldn't help but praise it.

There was an exquisite Thunder-elemental array carved on the boat, which increased its speed to the extreme. Once it moved, it was as fast as lightning.

Furthermore, there was a set of complex void arrays carved inside that allowed one to travel through the starry sky.

With this treasure, he would be able to travel much faster in the future. Furthermore, even if he encountered obstacles in the starry sky, he would be able to quickly shake them off.

“It’s worth it!”

Tang Hao smiled happily and put the planetary ship away.

Just this treasure alone was worth his special trip.

Then, he looked at the other items.

The Dao artifacts were only high grade and not high in grade, but the formations inside were exquisite and worth studying.

Other than that, there were also a few Jade slips that contained the insights of refining equipment. They were quite valuable to Tang Hao.

“The heavenly Thunder Dao!”

Tang Hao browsed through the information and found out that the cave Master was a tool-refining expert from the ancient Heavenly Thunder path.

In the path of weapon refinement, there had always been different schools of thought. Given how vast the universe was, there were naturally countless weapon refinement schools. The ancient Heavenly Thunder path should be one of them.

Tang Hao put the items away and sat cross-legged on the mountain peak. He was deep in thought.

Now that he had successfully cut off the second one, he should consider the third one.

The third Dao, what kind of Dao should he cultivate?

This was a problem!

He cultivated a variety of things. Back when he was trying to break through to the nascent Soul Stage, he had condensed a lot of nascent Qi, including lightning, fire, illusion, slaughter ... All of them.

After pondering for a long time, he couldn't make up his mind.

After all, this choice was too important and he had to consider it carefully.

"There's no rush. We'll talk about it in the future. For now, let's improve our cultivation level and reach the perfection of two cuts."

Every stage of Dao severance was divided into early, middle, late, and perfection stages. The main difference was the amount of Dao energy in the body.

With each slash, the sea of the path would receive the infusion of heaven and earth spiritual Qi and continue to expand. It could accommodate more primordial Dao. At the same time, the primordial Dao would also condense and undergo a qualitative change.

In other words, his current strength still had a lot of room for improvement.

The reason why he was able to fight against the [three slashes] previously was partly because of the Samsara and life and death DAOs. The Tribulation weapon was also a considerable part of it.

However, those people from the sun Moon Mountain also had tribulation weapons. If they were in the realm of three cuts and held a tribulation weapon, he would not be able to resist.

Therefore, the most important thing now was to improve his cultivation level and reach the great circle of severing two as soon as possible.

"Meditating and cultivating is too slow. I need to find some natural treasures!"

Back when he had severed one, he had swallowed a pill that could turn into a spirit and reached perfection directly. However, things like pills that could turn into spirits were not easy to find.

This kind of divine item could only be encountered but not sought.

“I’ll go buy some origin cutting Pills first. I have a lot of money anyway, so I don’t lack this bit!”

“Oh right, there’s also the Dao fire. I have to pay attention to it!”

Tang Hao soon came up with a plan.

He stood up and waved his hand, summoning the sky Thunder ship.

The boat was originally the size of a palm, but as it expanded in the wind, it became a standard planetary ship.

He leaped onto the ship and steered it, transforming into a streak of light that headed straight for planet Gaoyang.

When he arrived in Star City, he went to the place where medicinal pills were sold.

“Do you have the origin severing pill?”

Walking into the shop, he slammed the counter and shouted loudly.

“There are!”

The shopkeeper replied with a calm expression.

“Alright then! I want them all, however many there are!”

Tang Hao waved his hand and said proudly.

Hearing this, the innkeeper’s hand trembled and he could no longer remain calm!

His eyes widened as he sized Tang Hao up. There was shock in his eyes.

The customers in the shop also turned around and looked at him with a speechless expression.

“Who is this guy? He’s too rich!”

The origin severing pill was the best pill among all pills. After swallowing it, one’s cultivation would increase by a lot. However, its price was extremely high. One pill cost ten thousand crystals. Not many people could afford it, let alone buy so many at once.

The shopkeeper hesitated for a moment. He seemed to suspect that Tang Hao was here to cause trouble.

“Sir, this origin severing pill ... Is very expensive!”

He said carefully after some consideration.

“You’re afraid that I don’t have money!” Tang Hao’s expression darkened.

“This ... Sir, you’ve misunderstood!”

The shopkeeper smiled apologetically.

He couldn’t be blamed for being like this. He had been running the shop for so many years, but he had never seen such a generous customer. Other people would buy one or two at a time. Even the large sects of the sun Moon Mountain would buy ten at most.

It was the first time he had seen someone sweep the goods directly.

“Take it!”

Tang Hao flicked his wrist and threw out a heaven-earth bag.

The shopkeeper took the bag and opened it. His eyes widened and his hand started to tremble.

Then, he changed his face and put on a warm and flattering smile.

“My Lord! Please have a seat!”

“Men! Serve tea!”

He welcomed her warmly.

“Master, there are a total of 91 origin severing pills in the store. Each pill costs 10000 Yuan, so that’s 910000 Yuan. Since you’re a big customer, I’ll give you a discount and round it down. What do you think?”

“Good! 90 it is!”

Tang Hao did not even bat an eyelid.

When the shopkeeper saw this, he was even more amazed.

Throwing 900,000 in one go without even batting an eyelid, this level of cultivation ... Was high! He was really too generous! He was too heroic!

The people around them gasped in surprise. They looked at Tang Hao with admiration and envy.

He was a millionaire!

Anyone with a net worth of a million was either an expert or had an extremely prominent identity.

Very quickly, that shopkeeper took out a ring and respectfully served it.

Tang Hao opened it and checked it. He only put it away after he made sure that there were no mistakes.

After leaving this shop, he went to a few other shops and bought a lot more. He had a total of 150, enough to help him break through to the middle stage of two severing.

With so many pills, he left in satisfaction. He found a place and began to swallow the pills.
