

## The Mightiest Little Peasant Chapter 1398

Everyone smacked their lips in envy.

Being able to enter the equal heaven Department was one thing, but being able to acknowledge a master was another. These elders were very picky, and they didn't even look up to Ordinary Geniuses. Only a small number of disciples who entered the Academy every year could acknowledge a master.

Most of them did not even have a master.

But now, there were so many elders who were going all out for a disciple. They were even willing to take out treasures like divine materials and precious medicine.

Even when Yuchi Xuan took on a master, it wasn't as Grand as this!

This was definitely the first time in history.

"Al! It's really infuriating to compare people!"

Everyone shook their heads and sighed, feeling depressed.

Lei zhentian and the others gritted their teeth, their faces ashen.

Previously, they could still mock this kid as they wished because he was just a country bumpkin from a remote place with no background.

However, in the blink of an eye, this country bumpkin had transformed into a Supreme genius who had broken through three rankings in a row, causing so many elders to go crazy. It was conceivable that his status in the Academy would definitely rise with the tide, and he would become one of the most dazzling figures in the Academy.

Even the descendants of the ancient race could not compare to him. Even the most dazzling Lei zhentian had lost half of his brilliance to this fellow.

An all-rounded genius who was proficient in array Dao, alchemy Dao, and craftsmanship Dao!

The heaven-equal Department would definitely do its best to cultivate him. Once he grew up, he would be no worse than a genius with the potential to become a saint.

“How could it be like this!”

Lei zhentian gritted his teeth so hard that his teeth were about to break.

He was a genius with the potential to become a saint, but he didn't have much of a presence at the moment. Instead, this country bumpkin that he looked down on had become the most dazzling figure in the entire heaven-equal Academy!

This undoubtedly made him very embarrassed and angry.

Looking at that fellow's triumphant appearance, he was even more furious.

“My good disciple, don't think anymore. Just choose me. I will do my best to cultivate you. Let's work together and break all the array Dao rankings. Such a feat is enough to leave our names in history!”

A formation path elder pulled on Tang Hao's hand and smiled warmly.

“Go, go, go! Get lost! To hell with your eternal name. My good disciple, master is a very easy-going person. You can do whatever you want, master won't force you! But if someone bullies you, master will protect you!”

An elder from the path of crafts squeezed his way over and patted his chest as he spoke heroically.

One by one, the elders crowded over and made a ruckus. Tang Hao's head began to throb when he heard them.

He really did not know how to choose.

“Why don't we ... Choose both!”

Tang Hao suddenly said.

The group of elders were stunned.

The disciples who were watching were stunned at first, then they burst into an uproar.

“F \* ck! He chose all of them, that’s too shameless!”

“Tsk! Who does he think he is!”

Everyone was a little indignant. They couldn’t even get a single one, and this guy still wanted to choose all. He was really too shameless!

“Woof! This guy ... He’s dreaming!”

Lei zhentian and the others also laughed out loud.

“No? Then forget it!” Tang Hao mumbled. He was just making a casual remark.

“I think this is a good idea!”

Just then, a deep male voice came from not far away.

Everyone turned around to look, and their expressions changed.

In that direction, a white-robed figure stepped in the air. It was deputy headmaster Bai.

“Deputy headmaster!”

Everyone bowed and greeted him with respect.

Deputy headmaster Bai landed in front of Tang Hao. He sized up Tang Hao and nodded after a while. “Very good! You’re the first one to break three lists in a row!”

“Your talent ... Is even higher than those ancient geniuses. It’s a rare occurrence that only happens once in ten thousand years! If it were an ordinary person, they can only have one master. This is the rule, but you are different. If you only have one master, I’m afraid it will bury your great talent!”

“Elders, don’t you agree?”

As he spoke, he turned around and looked at the group of elders.

“This ... Makes sense!”

They began to hesitate.

“This kid is a freak. He’s very good at all of the Dao of formations, alchemy, and craftsmanship. It’ll be a waste if I only worship one of them!”

“The Deputy headmaster is right! It wasn’t easy to produce such a freak, we must not waste it! Why don’t we teach him together and cultivate this kid into a real monster!”

The group of elders discussed, all somewhat excited.

This kid was already so abnormal now. If they were to teach him again, how abnormal would he become in the future? they were really looking forward to it.

“Maybe ... He can break all three rankings for elixirs, weapons, and arrays!”

An elder teased, his eyes shining.

“Waa!”

The group of elders were all shocked, and they were so excited that their bodies were trembling.

If he really broke all the rankings, he would leave his name in history and become a legend that would be praised for generations.

Their eyes glowed as they glared at Tang Hao. Tang Hao's hair stood on end.

"We'll do it this way!"

They nodded in unison and made their decision.

Whoosh!

The surroundings immediately boiled over and burst into a shocking clamor.

Everyone's faces were filled with shock and disbelief.

How could one person have so many masters?

This was the first time in the history of the heaven-equal Academy that such a thing had happened!

"Motherf \* cker! What was this! I don't even have one, but he has more than thirty!" Many people cursed in anger and were so depressed that they wanted to vomit blood.

The faces of Yuchi Xuan and the others twitched, and they also had the urge to vomit blood.

He had more than 30 Masters!

Oh my God! How could there be such an absurd thing!

As for Lei zhentian and the others, they were completely dumbfounded. Their mouths were wide open, forming an 'O' shape.

More than 30 Masters! What kind of concept was this?

This was equivalent to having over 30 great backers. In the future, who would dare to touch him in the heaven-equal Department? Who could be more awesome than him?

If they provoked this guy, there would be more than 30 immortal powerhouses coming to seek justice. Just thinking about it was enough to make people shudder.

“Mother! This kid ... You can’t mess with him!”

“From now on, there’s one more person that we should not offend in the heaven-equal Department!”

The senior brothers discussed in low voices, their expressions somewhat fearful.

They knew that a new noble had been born. From now on, this Shi Ritian would not lose to Yuchi Xuan, a cultivation genius with the potential to become a saint. He would be able to do whatever he wanted in the Academy.

“Then it’s decided!”

Vice headmaster Bai nodded with satisfaction. She then looked at Tang Hao and said, “You have to work hard and not let down the expectations of the elders,”

“Also ... There are too many of these things, it’s not good! Take off some of them!”

He looked at the treasure in Tang Hao’s arms.

“That’s true! Then give me one of each!”

“One for each of us is enough. My disciple, you have to understand that master and the Deputy headmaster are doing this for your own good!”

The elders walked up and took away some of their own things, leaving one for each of them.

“My precious!”

Tang Hao wailed in his heart. His heart was bleeding.
