

The Mightiest Little Peasant Chapter 1408

“The Lin clan!”

Tang Hao stood in the air and grunted coldly.

He hadn't gotten even with that Lin guy for what happened last time, and now he was here again.

“I'll remember this and settle it with you later.”

He dispersed his aura and descended. He picked up the items that the three of them had dropped and opened them to take a look. As the characters of the four-several-four, the three of them had a bit of wealth, which could be considered a considerable harvest.

“I've already severed the third Dao. Next, I should raise my cultivation level to the completion of the third Dao. After that, I'll cultivate the fourth Dao!”

Generally speaking, one could try to become immortal after severing three. However, the success rate was very low. Many people would continue to sever their Dao after failing to become immortal.

As for some geniuses, or those who came from large clans and sects, or those with superior conditions, they would not choose to break through to immortal realm when they were cutting three. They would continue to cut their Dao.

The more DAOs he severed, the stronger he would be when he became immortal.

Naturally, Tang Hao would not consider becoming immortal at this time.

However, it was a question as to what the fourth Dao should be.

“I’ll go to the cliff of enlightenment and take a look!”

As one of the three great pure lands, the heaven-equal courtyard had a profound Foundation and countless Dao soul inheritances, all of which were in the cliff of enlightenment.

Tang Hao left the place after he destroyed all traces of his presence. He passed through the passageway and returned to the equal heaven courtyard.

“I’m going to get some origin severing pills!”

Tang Hao thought for a while, then went to the treasure room.

He had swallowed all the precious medicine before and let his divine bones absorb them. Now, he could only exchange them with origin severing pills to improve his cultivation. Fortunately, he had enough immortal coins to exchange for more than a hundred pills. At this speed, he would be able to reach the great circle of three cuts very soon.

“You ... You’re fine?”

After leaving the treasure Pavilion, Tang Hao ran into the Lin clan’s genius.

They were squatting by the door. They were about to laugh when they saw Tang Hao, but when they looked at him closely, they were stunned.

Why was this Shi guy completely fine?

He shouldn’t have been ruthlessly beaten up now. Although it wasn’t to the extent of having a bloody nose and a swollen face, he should still be covered in dirt! But now, he was still smiling and couldn’t be better.

“Of course I’m fine! What’s wrong?”

Tang Hao pretended to be puzzled.

“It’s ... It’s nothing!”

They quickly shook their heads.

Lei zhentian and the others looked at the genius of the Lin clan with a questioning look in their eyes.

“Motherf * cker! Those three pieces of trash!”

The Lin clan’s genius gritted his teeth as his face turned ashen.

He had thought that he would definitely succeed this time, but he didn’t expect to be happy for nothing again.

“Since there’s nothing else, I’ll take my leave first!”

Tang Hao grinned at them, then walked away.

“What kind of people did you find? Trash! You’re all useless!”

Lei zhentian clenched his fists tightly, his face extremely dark, “such a good opportunity, and it was wasted just like that!”

“A!”

The genius of the Lin clan sighed, feeling a little vexed. “I guess it’s just bad luck that we didn’t find this kid. After all, the heaven sunflower planet is so big. If this kid were to hide, it would be very difficult to find him!”

“I can only wait for the next time!”

Everyone shook their heads, feeling sorry for him.

“No rush! In another two months, the Green Emperor mountain will open. At that time, our opportunity will come!”

Suddenly, Lei zhentian sneered.

“Green Emperor mountain? That’s right! How could I have forgotten!”

“Hahaha! At that time, that kid will get it!”

The group of geniuses all sneered.

The Green Emperor mountain opened once a year. Every time it opened, it was a grand event on the Dong Lin sacred planet. All the celestial sects in the three great pure lands would send their new disciples to participate.

Those prehistoric behemoths would also send their younger generations to participate.

At that time, it would not only be a battle between the three pure lands, but also a battle between the human race and the giant beasts.

This kind of battle was bloody and cruel. Every year, many young geniuses and descendants of the prehistorical era died in it.

As long as they did it discreetly enough, no one would pursue the matter even if they killed that man surnamed Shi.

“Let’s go!”

They left the treasure Pavilion and began to secretly plan.

After returning to his cave abode on sky-covering peak, Tang Hao began to take origin severing pills. After taking about a hundred of them, his cultivation level increased by a large margin.

After he finished absorbing, he went out to give a lecture and continue to earn money so that he could buy origin severing pills and improve his cultivation.

In the following period of time, he would earn money and increase his cultivation.

During this period, he published many books and earned a lot of money, which made Lei zhentian and the others extremely envious.

In the blink of an eye, a month had passed, and his cultivation had long been perfected.

During this period of time, he was pulled over by a group of Masters from time to time and took turns to teach him, hoping that he could break all the pill, weapon, and array lists as soon as possible.

The three paths of elixirs, weapons, and arrays included not only the rankings of plants, arrays, and talismans, but also the rankings of alchemy, weapons, and arrays. The first three were all theoretical, while the last three were practical, which were more difficult.

Tang Hao was also studying hard.

On this day, he heard the news that the Green Emperor mountain was going to open from his Masters.

“Green Emperor mountain? What’s that?” “It sounds really powerful!” Tang Hao was confused.

“Not a thing! It’s a place!”

Wang Liang's master said very seriously, "this place is a good place. There are many treasures inside!"

Tang Hao's eyes lit up when he heard the word 'treasure'.

"However, this place is also very dangerous!" Wang Liang's master's brow furrowed, his expression grave. "Every year, quite a few people die inside!"

"It's that dangerous?" Tang Hao was shocked.

"Exactly! Last year, quite a few people from our Qitian Department were killed by those B * stars. Of course, we've also killed some of them, so we're even now!"

Wang Liang's master said.

Then, he gave Tang Hao a detailed introduction of the cyan Emperor mountain.

It turned out that the Green Emperor mountain was an ancient relic. Since ancient times, it had been the arena for the major forces, the human tribe, and the untainted tribe. At the same time, it was also the place where the major forces and the two tribes trained their young disciples and descendants.

This kind of tradition had been going on for God knows how many years.

This year would not be an exception.

“In another month, the Green Emperor mountain will open. I don’t want you to go, because I’m afraid that someone will target you. Now that your name has spread all over planet Dong Ling, it’s hard to avoid people having ideas about you.”

“This trip to the cyan Emperor mountain was quite dangerous.”

“However, this is the rule. You have to go. So, I hope you can make more preparations and be careful. I don’t expect you to be outstanding, I just hope you can come back safely!”

“This disciple understands!”

“Okay,” Tang Hao replied. He was not worried at all. In fact, he was excited.

That was because there were many treasures in the Green Emperor mountain. Not only were there precious herbs, but there might also be treasures such as Dao fire and spirit Water. It was a place of Supreme treasures and full of opportunities.

More importantly, there was a lot of delicious food!

Tang Hao smacked his lips when he thought of that. He was looking forward to it.
