

The Mightiest Little Peasant Chapter 1409

Time passed quickly. In the blink of an eye, half a month had passed.

It was getting closer and closer to the opening of the cyan Emperor mountain.

During this period of time, the news of the opening of the Green Emperor mountain had gradually spread in the courtyard. It had become the most discussed topic among the disciples.

“When the cyan Emperor mountain opened last year, our heaven-equal Department performed well. I wonder how it will be this year! We can’t lose the reputation of our three great pure lands.”

“From what I can see, this year will definitely not be bad. Just look, Lei zhentian is already powerful enough, and there’s also Xiao Yan, his strength is also unfathomable!”

“Don’t forget, there’s still Yushi Jue! Other than these three, the night race, the forest race ... These were not bad. The quality of this batch of newcomers was quite high! There’s nothing to worry about!”

Everyone’s tone was more relaxed as they spoke.

The quality of this batch of newcomers was indeed high. They could be considered the strongest batch of newcomers in recent years.

With them fighting, they wouldn't have to worry about losing face.

"Right, have you all forgotten? There's still the mysterious bold bro!"

Someone also mentioned bold.

"Brother Dadan?"

Hearing this name, everyone was a little dazed.

It had been a long time since he had heard of this name. Ever since the second round of the admission examination, this bold brother had disappeared without a trace.

At that time, many people thought that if they entered the courtyard, brother Dadan would sooner or later give himself away and be caught.

However, up until now, there was not a single trace of a clue. This caused many people to suspect that big bro Dadan did not enter at all and had taken the initiative to be eliminated in the third round.

Gradually, no one talked about that big bro Dadan anymore.

In addition to the recent rise of Shi Ritian, everyone had completely forgotten about brother Dadan.

“This big brother Dadan ... Didn’t come in, right?”

Everyone was a little hesitant.

“I don’t think so. Maybe that guy really came in and has been hiding until now!”

There were also quite a few people who retorted.

“That’s not possible! This batch of newbies has already been figured out. If he really came in, how could he possibly hide?” Most people didn’t really believe that brother audacious could hide for so long.

“That’s hard to say. That audacious brother ... He was able to knock out someone like Lei zhentian. How could he be an ordinary person? he can’t be judged by common sense.”

Everyone was in a heated debate, but no one could come to a conclusion.

These were all senior disciples. However, the new disciples did not have so much free time. They were all engrossed in their cultivation to prepare for the trip to the Green Emperor mountain.

On the cliff of enlightenment, on the various wild planets, the figures of these newcomers could be seen everywhere.

They had mustered all their strength and vowed to show off their skills in this trip to the Green Emperor mountain.

The opening of the Green Emperor mountain was a grand event for the entire Dong Lin sacred planet. Almost all the major forces had gathered. It was the best opportunity for young people to show their talents and become famous.

Tang Hao was very busy.

He was also busy improving his strength to prepare for the trip to the Green Emperor mountain.

This trip was indeed quite dangerous because there were too many experts. There was already a monstrous genius like Lei zhentian, who had the potential to become a saint, in the heaven-equal Department, not to mention the other two pure lands.

War god mountain and primordial chaos Daoist field, which one of them was inferior to the heavenly Academy?

Those immortal sects were not bad either, and there was no lack of experts.

Moreover, there was still that group of powerful ancient beasts.

His cultivation level was already at the peak of three cuts and he couldn't make any progress. Thus, he went to the cliff of enlightenment to find a suitable Dao soul to cultivate the fourth Dao.

Considering that time was of the essence, he decided on the relatively simpler DAOs. After walking around the cliff of enlightenment and thinking for a while, he chose the Dao of fire.

Compared to life and death, the five elements Dao was much easier to comprehend.

Furthermore, he was skilled in fire techniques and had many Dao flames on him. The ultimate fire Dao was his best choice.

He had successfully inherited the Dao soul. His comprehension was fast and he soon bore the Dao fruit. In the end, he managed to cut off the Dao fruit before the opening of the Green Emperor mountain.

The Dao fruits of the first three great DAOs were extremely special. They were the reincarnation boat, the wheel of life and death, and the heart of slaughter. The Dao fruit of the fire Dao was much more normal.

This was a fruit condensed from a ball of flames, exuding an extremely intense aura, like a small sun.

Two days after he severed his Dao fruit, it would be the day of departure.

Tang Hao left his house early that day and went to heaven's equal peak.

When he reached the square at the foot of the peak, he saw that many people had already arrived. The evildoers from the night race and the cloud race were all there. They glanced at Tang Hao when they saw him.

They snorted lightly, their expressions not too good.

Tang Hao could not be bothered with them. He found a corner, sat down, and waited.

Lei zhentian and the others arrived after a while. They sneered when they saw Tang Hao in the corner. Their faces were filled with malice.

“Shi, just you wait!”

They all snorted coldly and turned to the side.

Following that, Xiao Yan, Yu Shiling ... These famous newcomers arrived one after another.

“Brother Shi!”

“Great master Shi!”

There were quite a few grassroots in this batch of new students. They were extremely enthusiastic when they saw Tang Hao, which was completely different from the attitude of the ancient clan disciples.

Now, in the equal heaven courtyard, Tang Hao was the leader of the grassroots and was highly respected.

After everyone had gathered, they waited for a while before dozens of rays of light descended from heaven's equal peak. They were all elders, and the one leading them was elder Wang Yun, who was in charge of the assessment.

Tang Hao was shocked when he saw that half of the elders were his Masters.

"My good disciple, we're worried! We still have to go together!"

"My good disciple, are you ready? Remember, you must be careful!"

After the group of Masters landed, they surrounded him and asked him all sorts of questions.

As for the other elders, most of them were the Masters of these new disciples and would follow them to the Green Emperor mountain.

“Don’t worry! I got it!”

Tang Hao could only nod continuously.

“Let’s go!”

Elder Wang Yun waved his hand and a huge flying boat appeared.

After everyone had boarded, the flying boat started and sped away.

This Donglin sacred planet was vast and boundless. On the ground, there were many mountain ranges, as if ancient true dragons were hibernating.

The spirit Qi on the ground shot up into the sky, and it was unbelievably dense.

“It really can be called a deity ground!”

Tang Hao looked into the distance and sighed in admiration.

After flying for two days, they finally arrived at their destination, the misty green Emperor mountain.

The cyan Emperor mountain looked like a desolate and dilapidated mountain range. However, that was only the surface. In fact, there was a universe within, a vast world hidden within.

That place is the true green Emperor mountain.

“This Green Emperor mountain is quite old, even older than our heaven-reaching Academy. It’s the most ancient force ...”

Elder Wang Yun explained to the disciples.

The airboat gradually slowed down and arrived above the mountain range.

In the mountains, there were buildings and people everywhere. One could hear a clamor from far away.
