

## The Mightiest Little Peasant Chapter 1464

“Six saints ...”

The entire heaven-equal Department was in an uproar.

All the elders frowned and looked worried.

Each half-celestial Saint had shocking divine abilities and was extremely terrifying. If there were only two or three of them, there was nothing to worry about. With the formation of the equal heaven Department, they could easily block them.

However, with six half-Celestials, so many forces, and so many heavenly Lords, this battle would be a bit difficult.

The cultivators from the ancient clans and celestial sects who had come to help were also in an uproar.

As for those from war god mountain and primordial chaos dojo, their morale was high.

“Old man Qi Tian, do you still want to persist?”

“Old man, you have no chance of winning. You might as well give in and hand over the divine blood!”

War god Mountain Master and primordial chaos Dao master both shouted.

“Brother Qitian, you can’t be too rigid. You have to be flexible. Why don’t you understand this principle?” The Daluo Swordmaster continued to jabber on.

“Hmph! Just the six of you, I don’t put you in my eyes!”

“Humph!” Headmaster Qitian glanced at them coldly and snorted angrily, “do you think you’re the only one who has helpers while I don’t?”

He then looked at the crowd below and said, “Fellow Daoist Qing Zhu, come out!”

“Green bamboo?”

In an instant, the Faces of War god Mountain Master and the others changed slightly.

“Long time no see, fellow Daoists!”

With a light chuckle, a figure stepped out from the crowd in front of the hall and rose into the air. It was an old man in a green robe with white hair floating in the air, looking like a celestial being.

“Old man Qingzhu!”

The Faces of War god Mountain Master and the others turned ugly.

Six against one, they had a huge advantage, but six against two, their advantage wasn't obvious. After all, they were the attacking side, while the other side was the defensive side, protected by countless Grand formations.

“Old man Qi Tian, you're quite capable to have even called old man Qingzhu over. What benefits did you promise him? A drop of divine blood?”

War god Mountain Master said with a dark expression.

“So what if I am!” Academy master Qitian said coldly.

“Alright! Looks like you're determined to fight to the end. Good! Then I'll fulfill your wish!”

War god Mountain Master snorted in anger. He raised his hand and shouted to the cultivators behind him, “Do it! Raze this mountain range to the ground!”

“Kill!”

War god mountain's cultivators shouted in unison. Their voices were like thunder, shaking the heavens and earth.

Clang clang clang!

Countless rays of light flew out and landed on their bodies, instantly assembling into pieces of battle armor.

With the armor on their bodies, their auras skyrocketed and they became even more ferocious and brave.

They lowered their bodies and swooped down, turning into a field of meteors, crashing into the Grand array that protected heaven-equal mountain range.

Peng Peng Peng!

The light screen trembled and burst out with brilliant light.

“Do it!”

On the other side, the primordial chaos Dao master waved his hand and shouted.

The cultivators of the primordial chaos Daoist sect were already prepared and impatient. When they heard the order, they were excited and activated their treasures to attack.

In an instant, the light that filled the sky fell like raindrops, bombarding the light screen.

“Let’s go too!”

In all four directions, the camps of the ancient race and the immortal sects also moved. They shouted one after another and activated all kinds of treasures and techniques to attack the formation.

The giant birds screeched and swooped down, crashing into the formation.

For a time, the sounds of explosions continued, and the entire sky was filled with various colors of light.

“Crape myrtle star formation! He’s really quite powerful!”

Venerable Lingxiao muttered to himself as he looked down at the huge super formation that covered the entire mountain range. A hint of envy appeared in his eyes.

This crape myrtle star formation was an ancient formation left by the founding ancestor of the equal heaven Department. It could draw in the power of the stars for one’s own use, and was known as an Unbreakable Formation.

Even if there were six celestial primes and countless heavenly Lords, it would still be difficult to break this array. It would take a long time.

“I’d like to experience the power of this Grand array!”

He mumbled to himself as he gently raised his hand and struck out a palm at the formation below.

In an instant, the spiritual Qi in the sky surged violently, and a giant Golden Palm that could cover the entire mountain range condensed. It was like the hand of a God, and it slammed down.

Bang!

The light screen trembled violently and dimmed slightly.

“I’ll join you too!”

The Daluo Swordmaster roared and spat out a streak of golden light. It was a golden sword.

“Bzzzzzz!”

The sword trembled continuously and exploded with a terrifying aura that seemed to be able to tear the void apart.

Following that, the Daluo Swordmaster lifted a finger and pointed downwards. He said, “Go!”

In an instant, the divine sword trembled violently and slashed down.

Whoosh!

A huge golden sword Qi burst out with a heaven-splitting divine might and slashed on the formation, erupting with endless brilliance.

After the two, the other half-immortal Saints also attacked the formation.

Although they were powerful and had terrifying strength, they couldn't shake the formation in a short time. They could only weaken it bit by bit and wear down its power.

“BOOM! Blast him to death!”

“Use all your strength!”

The many heaven monarchs shouted and attacked with all their might.

“I'm fine! I can't break it for now!”

“This is only the outermost layer. Even if we break it, we still have many other great formations!”

In the heavenly Academy, everyone looked quite relaxed. With the power of so many great formations in the heavenly Academy, it would take these people at least ten days to half a month to break through.

“When they're tired of bombarding us, we'll go out and kill a wave of them. We'll show them the power of our equal to heaven Department!”

There were even elders who were rubbing their fists and preparing for a great battle.

“Kill, kill, kill! Kill them all!”

The Golden Crow was so excited that he scurried all over the sky.

Just like that, a full day passed. The layer of the crape myrtle stars formation had dimmed a lot.

“Don’t worry, this array can still last for one or two days!”

The cultivators of the equal heaven Department still looked relaxed as they sat cross-legged on the ground, recuperating and conserving their energy in preparation for the great battle that was about to come.

Tang Hao sat down as well. He occasionally looked up at the sky to observe the situation.

In the blink of an eye, another half a day passed, and night gradually fell.

The rumbling sounds continued in the sky, but the atmosphere in the heavenly Academy was somewhat relaxed. Most people, including Tang Hao, had let down their guard.

Right at this moment, a series of explosions suddenly sounded from all directions of the heaven-reaching Academy, and dazzling light shot up.

In an instant, the light screen in the sky rapidly dimmed.

“What’s going on?”

Everyone was shocked and jumped up one after another to explore in all directions.

“Not good! Someone’s causing trouble and trying to break the formation base!”

Their expressions changed drastically. There were a few places where the accident happened, and they were all where the formation base of the formation was.

“Who did this?”

They were all a little bewildered.

Apart from the people from their own courtyards, the people in the heaven-equal courtyard were the foreign aid of the ancient clans and immortal sects. Most of these people had deep ties with the heaven-equal courtyard, and they could be trusted.

They didn't have time to think too much as they all headed in that direction.

However, it was too late. The light screen in the sky was broken.

The first layer of defense of the heaven-equal Department was broken!

"Who is it?"

"You're courting death!" Academy master Qitian roared as he soared into the sky.

"Not good! An elder has betrayed us and destroyed the array base!"

Suddenly, someone rushed over from the distance and shouted loudly.

In an instant, everyone's expression changed.

"How dare you! Who is it?"

Academy master Qitian was beyond furious, and two beams of divine light shot out of his eyes as he looked around. After he had a clear look, he shouted, "It's you! How dare you all!"

His body moved and he was about to rush out and capture these rebellious elders.

However, at this moment, a shocking change occurred on heaven-equal peak.

Several figures suddenly dashed out of the crowd. One of them pounced toward Academy master Qitian, while the other three pounced toward Tang Hao.

They were so fast that no one could react in time. They were in front of Tang Hao in the blink of an eye.

“Be careful!”

Wang Liang’s master was quick to react. He was one step ahead of Tang Hao, and in a flash, he blocked Tang Hao’s path.

“You’re looking for death!”

The person snorted angrily and struck out with a palm.

Bang!

Wang Liang’s master was struck by this palm. His body trembled, and he vomited blood.

The person’s aura was strong, but he was in the great circle of immortal transformation, far stronger than him. Thus, he was seriously injured in one exchange.

“Get lost!”

The person flung his arm and sent him flying, then continued to charge toward Tang Hao.

Tang Hao finally reacted to the situation. However, he was completely suppressed by the terrifying aura of the great circle of immortal realm.

He could only watch helplessly as the palm struck his chest.

Pfft!

His entire body trembled violently, and he spat out a mouthful of blood as he flew backward.

“Come here!”

The man reached out his hand and pulled Tang Hao back. Then, he turned his hand into a claw and clawed at Tang Hao. He pierced through Tang Hao’s chest and grabbed the Golden divine bone.
