

## The Mightiest Little Peasant Chapter 1526

In the hall, people kept coming in and taking seats.

The huge Hall was soon filled to the brim.

These people came from all over the place, and most of them were representatives of well-known forces. They were the celestial gate, ancient race, and the four transcendent forces that were above these forces.

Other than them, there were also a few wandering cultivators, all of whom were ancestor-level powerhouses whose names shook Beichen.

There was only one purpose for them to gather here, and that was for the brat surnamed Shi who had recently caused a stir in Beichen!

Whoosh!

Another ray of light shot over, and a figure appeared in front of him. It was Cheng zu.

When he walked into the hall, there was a commotion.

“Hahaha! Old man Cheng, I heard that you suffered a loss at the hands of that brat, and one of your clones was destroyed. Is that true?”

“Old man Cheng, you’ve had such a day too!”

Many people laughed and gloated.

“Hmph!”

Cheng zu glared at him and said angrily, “If you have the guts, you can try it too. That brat is simply inhuman. I even suspect that the Li clan’s treasured mirror is broken! How could he be so young!”

“Impossible!”

Someone immediately stood up to refute. It was the representative of the Li clan.

“How could my li clan’s aging mirror be broken? that kid’s age is definitely real! It can’t be faked!”

As soon as he finished speaking, there was another commotion in the hall.

“That kid isn’t even thirty. This is too shocking!”

“Did this kid start cultivating in his mother’s womb? Otherwise, how could he be so fast?”

Everyone was a little depressed.

“Al! Old man Cheng, is he really from Donglin?” Someone else asked.

Cheng zu sat down, frowning.”I ... I’m not sure, but he did introduce himself. He said he came from Donglin, so it’s more believable.”

“I’ve been to Donglin once. It feels like it’s about the same as our Beichen. How could there be such a monster?”

“There are three great pure lands in Donglin, and they are all very powerful. I guess this kid is from one of them.”

Everyone was discussing.

“Hmph! It doesn’t matter where he’s from, that’s not the point. The most important thing now is how to find him, kill him, and take the treasure!”

The old man from kill Saint sect spoke in a cold tone.

“That’s true!” Everyone nodded.

But then, they revealed vexed expressions and began to complain.

“But the problem is, how do we find it? We’ve been searching for more than half a month, but we haven’t found a single trace!”

“In my opinion, he must have run away long ago. He’s not stupid. He knows what the consequences will be if the true fire and the divine treasure are exposed! Once he enters the starry sky, we won’t be able to do anything!”

Cheng zu shook his head.”I don’t think so. I’ve been in contact with that kid. After all, he’s a young man. He’s very arrogant and proud. He even clamored to exterminate my Cheng clan! I don’t think he’ll be scared off so easily!”

“Besides, the divine ancestor hasn’t made a move yet. He’s probably still in Beichen. If the divine ancestor makes a move, then it’ll be hard to say. ”

When everyone heard this, they all revealed a look of agreement.

“Indeed, such a young man has some pride and won’t be easily scared away. The problem now is how to lure him out and trap him!”

Luo Tianjun from the heavenly Academy said.

“Isn’t that simple? We’ll just set some bait. Did that kid come to Beichen to have fun? Of course, it’s for training and for opportunities!”

A woman in front of him laughed.

This woman was extremely beautiful, and her body emitted a clear light. She had a kind of extraordinary and refined temperament that was otherworldly.

She was dressed in red, showing off her graceful and curvaceous figure.

“Oh? Fairy soft clouds, do you have any good ideas?”

Everyone looked at her, and many of the heaven monarchs had a look of adoration in their eyes.

Fairy soft clouds was the Deputy Palace Master of green spirit Palace, one of the four major extraordinary forces. She was a young demon whose name shook Beichen in the past. She was also a famous beauty.

Fairy soft clouds chuckled and said in a crisp voice, “There’s a lot of good places on planet Beichen. Dangerous places, dangerous places, treasure places ... You can say that opportunities are everywhere. ”

“However, that kid can even possess a genuine fire. His standards are not ordinary. If you want to attract him, it must be a real treasure!”

“I’ve done some calculations. There’s only one place like this, and that’s the land of ten thousand Arts!”

Hearing this, everyone nodded.

“The land of ten thousand Arts! What a good idea! If I were that kid, I definitely wouldn’t be able to hold back!”

“That kid might not know about the existence of the land of ten thousand techniques yet. We have to publicize it well and lure that kid into taking the bait!”

Many people became even more excited, and they slapped the table in excitement.

“Good idea!”

Even the old man from slaughter Saint sect nodded and praised, “however, we still have to discuss some details. Although that kid is young, he’s not easy to deal with. We must be careful and not alert him!”

“That’s right! We don’t have many chances, and I’m afraid this is the only time. We must seize this opportunity!”

Luo Tianjun from the heavenly Academy said.

The Dao of void heavenly Lord, who had been sitting by the side silently all this while, nodded his head in agreement.

Seeing the four superpowers nod their heads, everyone else followed suit.

Then, they began to discuss the details.

A few hours later, they dispersed and began to take action.

After a few days, a piece of news spread. There was a strange movement in the land of ten thousand techniques. It might be the appearance of a celestial-grade cultivation technique.

This news caused a huge commotion.

In Beichen, cultivation techniques were divided into several grades: human-grade, earth-grade, heaven-grade, and then immortal-grade.

There weren't many cultivation methods of this level on planet North Star. Only the major factions had them. For the people of the world, it was something they dreamed of.

After hearing the news, countless people moved and rushed to the land of ten thousand Arts.

Tang Hao, who was traveling around, also heard the news.

"A celestial grade cultivation technique?"

Tang Hao was interested.

Therefore, he asked around about the situation in the land of ten thousand Arts.

"The land of ten thousand Arts is a Holy Land! In the ancient times, there was a very powerful figure on planet Beichen called the ancestor of techniques. It was said that he was at the 7th or 8th tribulation."

"That level of cultivation is earth-shattering, and the things he does are equally earth-shattering. Which family didn't treat this cultivation technique as a treasure and hide it? however, he was different. He took it all out and even collected countless cultivation techniques in the world to create this land of ten thousand techniques! He said something about bringing happiness to the common people!"

"Anyone can go there, even during normal times. However, if there really is a celestial-grade cultivation technique, it's not that easy to get it. The ancestor of technique is not stupid. Without the talent, it would be a waste to get a cultivation technique."

Tang Hao's interest was piqued after hearing that. He wanted to see what kind of techniques were there and how they were compared to the great void realm 's.
