

The Mightiest Little Peasant Chapter 1528

"It's a clone!"

Everyone's expression changed, and many people even beat their chests and stomped their feet, shouting in frustration.

They had never thought that it would be a clone. That kid's cautiousness had completely exceeded their expectations, and they had failed at the last step.

"Al! How come I didn't see that this was a clone?"

Luo Tianjun was also upset.

If he had taken a few more glances and investigated clearly, things would not have ended up like this. Now that he had alerted the enemy, the operation could be considered a complete failure.

"Motherf * cker!"

"F * ck!" Cheng zu cursed, his face ashen.

He thought he had succeeded, but he didn't expect to be played by this kid again, which made him extremely sullen.

The others were also cursing, their faces somewhat unsightly.

They were all seniors, yet they had been tricked by a little brat. They were really unhappy.

"Al! That kid just said that he has prepared a surprise for us. What is it?" Someone suddenly said.

"Hey! What kind of surprise can there be? it's just to scare people!"

Someone immediately sneered and said in an unhappy tone.

"I say ... That kid wouldn't take revenge on us, would he?" There were also heavenly Lords who looked worried.

"That's possible! Hurry back, we should be able to make it now!"

Everyone was worried after hearing that. That kid was a late-stage heaven monarch with powerful combat strength. Once he went to their Mountain Gate to take revenge, it would cause a lot of losses.

"Let's go, let's go!"

They quickly retracted their formation and left in a hurry.

When they left, they were still cursing and scolding, all of them with dark faces.

After they left, the valley burst into an uproar. Everyone finally understood what was going on.

What immortal-grade cultivation technique? it turned out to be a trap set up by these big sects to lure that kid surnamed Shi.

However, it was a pity that the kid did not take the bait, allowing these people from the large sects to work hard for nothing.

At this moment, somewhere on planet North Star, on the peak of a mountain, a figure sitting cross-legged opened his eyes.

“This bunch of old fogeys, do they really think I can’t tell?”

Tang Hao grunted coldly.

He was cautious by nature. After hearing the news about the land of ten thousand techniques, he suspected that this might be a trap, so he only sent a clone over.

“It’s not that easy to catch me. It’s time to give you a surprise!”

Tang Hao stood up and looked ahead.

In the mountain range not far away, there were many palaces and pavilions, where the Cheng clan lived.

He squinted his eyes and a cold light flashed in them.

He had once said that he would exterminate the Cheng clan. Since he had said so, he would naturally do it.

His figure moved and suddenly disappeared. When he reappeared, he was already outside the mountain range. He had already investigated this mountain range and knew the location of every Spirit Cave.

He raised his hand and shot a Golden Ray into the ground.

Following this, his body flashed once more, and he went to another place and struck down a golden stake.

Just like that, he walked around the mountain range and set up a pile.

At this time, in another place, in front of the mountain Gate of the blood spirit sect, a few figures flew out. They were all young people with many Dao rings appearing behind them. The one in front even had nine wheels.

They swaggered over without the least bit of vigilance. This was the territory of the blood spirit sect, and no one had ever dared to cause trouble here.

However, just as they were about to fly out of the mountains, a ray of light suddenly rushed up from below and headed straight for them.

They were instantly shocked, and just as they were about to attack, the light suddenly expanded, turning into a silver giant that was 3000 meters tall, with Nine Eyes.

“All of you, come over here!”

The giant shouted and stretched out his giant palm to grab.

These few people had no power to resist at all. Like little chicks, they were pinched, grabbed, and stuffed into a big bag.

After capturing these people, he lowered his body and landed in a Valley below, where he continued to lay in ambush.

All of this happened so quickly that no one from the blood spirit sect noticed it.

Not long after, another person came out. When he arrived, he was captured again and stuffed into a bag.

There were more and more people in the small heaven and earth bag, and it became more and more bulging.

Not only this place, but there was also a split soul lurking in the Li clan and other ancient clans, and even outside the kill Saint sect, waiting for an opportunity to capture young disciples.

When it was discovered, the split soul carried the bag and ran far away.

There were also those clones that ran around to capture those famous demons. No matter what faction they were from, as long as they had some reputation, they would knock them out and throw them into their bags.

Even if there were people present, they didn't avoid it. They directly grabbed them and left, leaving behind a bunch of speechless people.

“Not good! The number one genius of the Linghu clan has been captured!”

“Something big has happened. The first seat of the profound Thunder sect has been captured by a mysterious person!”

Soon, the news spread and caused a huge commotion.

What number one genius, head disciple, they were all the faces of each force. Once they were moved, it would be a big problem.

The entire planet North Star was in an uproar.

Meanwhile, on the Cheng clan's side, Tang Hao finally stopped. The formation was finished.

He wobbled toward the Cheng clan's main gate.

At this moment, the Cheng clan was on high alert. The clan-protecting formation had long been activated, and layers of light screens enveloped the entire Cheng clan.

"Who are you?"

Seeing the figure coming from afar, an elder at the gate of the Cheng clan shouted.

Then, his expression changed drastically, revealing a look of shock.

"It's him! He's here!"

He roared, his voice spreading throughout the entire Cheng clan.

Whoosh! Whoosh! Whoosh!

One figure after another rushed into the sky and landed in front of the door.

"He actually didn't go to the land of ten thousand Arts!"

These elders were a little surprised and even a little flustered. After all, this person had ancestor-level strength. Previously, their old ancestor had personally gone out and sent out all the elites in their clans, but they still could not capture him.

"Hmph! What was there to be afraid of? The great formation is already activated, what can he do to us!"

An old man shouted.

The group of Cheng clan's elders finally calmed down. They were still very confident in their clan's protective array. With this guy's strength, he would definitely not be able to break it.

"You want to stop me with this formation?"

Tang Hao walked up to them with his hands behind his back. He stared at the group of Cheng clan elders through the layers of light.

Many of them were familiar faces who had besieged him at the sky Star Mountain before.

"Shi, don't be so insolent. This is our Cheng clan's protective array. A mere ancestor-grade cultivator can't break it!"

The Cheng clan's elders immediately shouted indignantly.

"Is that so?"

Tang Hao smiled noncommittally.

With one hand behind his back, he raised his other hand and gently tapped on the light screen in front of him.

The moment he raised his hand, the mountains began to shake and the earth began to crack. Endless spirit energy rushed into the sky and turned into giant Dragons. They rushed towards the light screen from all directions with his finger.
