

The Mightiest Little Peasant Chapter 1531

On a barren mountain on planet Beichen.

Beams of light swept over from all directions and landed in the sky above the mountain range. These were the emissaries sent by the major forces to redeem their people.

When they saw each other, their faces were a little dark.

“What a disgrace!”

The messenger from Kill Saint sect rebuked angrily.

His sacred sect was one of the four great transcendent forces, and their might shook the starry sky. But now, they were extorted by a young brat. This was the greatest humiliation he had ever suffered in the history of his sacred sect!

The others also gritted their teeth and clenched their fists tightly, revealing indignant expressions.

“This isn’t just a disgrace to our organization. It’s a disgrace to all of planet North Star!” The heavenly Academy’s envoy’s face flushed red as he gritted his teeth.

After a round of scolding, they finally felt better and rushed forward together.

When they arrived at their destination and saw the situation in the valley, they were stunned and their eyes widened.

Then, their bodies swayed and they almost fell down.

“This damn brat!”

“Oh heavens! Hurry up and send down a bolt of lightning to strike this brat to death!”

They couldn’t help but roar in grief and indignation.

In the valley below, the geniuses from each clan were all piled together into small mountains. Their eyes were white and they were as dizzy as dead pigs.

“Don’t talk nonsense! Did you bring the thing?”

Tang Hao sat in the valley and rolled his eyes.

The various envoys nodded their heads unwillingly.

“There! These are treasures, two tribulation artifacts and 50 Supreme-grade Dao artifacts!”

Kill sacred sect’s Messenger threw out a ring and shouted, “hurry up and let him go!”

Tang Hao took the ring, then sent his divine sense into it to quickly examine it.

“Very good!” He nodded and put away the ring. Then, he grabbed one demon after another and threw them up.

The messenger from kill sacred sect picked up the people and woke them up one by one. He was about to leave.

“Thank you for your patronage. You’re welcome to come again next time!” Tang Hao waved at them.

The emissary stumbled again and almost cursed out loud. Next time? there would never be a next time!

However, he didn’t dare to curse out loud, because his opponent was an ancestor-level expert.

His face was red from holding in his breath, while those young people all had dazed expressions and dim eyes.

They were all geniuses who were famous in Beichen. They were all proud and arrogant. They thought they were amazing. But now, a Super Freak had suddenly appeared and shattered their confidence and pride.

This fellow ... Was he really a young man like them?

They looked at the figure below with suspicion and disbelief.

“Let’s go!”

The elder from kill sacred sect led a group of disciples and left with a dejected expression.

“This is something that the heavenly Academy has prepared!”

The people from the heavenly Academy rushed forward and threw out a ring.

“Take it away! Take it away!”

Tang Hao stretched out his hand, which transformed into a giant palm. He grabbed a group of people from the heavenly Academy and threw them over.

After receiving her, the people from the heavenly Academy also left resentfully, not daring to make a sound.

“Sect fellow Shi!”

“Senior Shi!”

Following that, the elders from the other forces stepped forward one after another. They forced a smile on their faces and led their people away in a hurry.

After half a day, the people in the valley finally received the honor, and Tang Hao's pocket was filled with countless treasures.

There were 100 people on the rank of stars, and they were the most powerful ones among the younger generation on planet North Star. According to the agreed price, three people would get two weapons, and he had caught more than 60, which meant he had more than 40 weapons.

Although they were both one tribulation weapons, they were still very valuable.

Other Supreme-grade Dao artifacts aside, there were mountains of them. There were also all kinds of spiritual soil and medicinal herbs.

Tang Hao sorted out the materials for the Immaculate soil.

"Kidnapping is indeed a quick way to earn money. It's even better than robbing!"

Tang Hao mumbled.

His heart was a little itchy and he really wanted to do it again. However, he also knew that after experiencing this, those forces would definitely be more on guard. It would not be so easy to succeed.

"I'll refine some avatars first!"

Tang Hao flew away and found a hidden place to create his clone.

Most of the previous batches had been placed on the stars they passed by. There were not many left in Beichen, and they had to replenish them.

By then, the news of the major sects' release had spread throughout Beichen, causing a huge commotion.

It was unprecedented for a single person to successfully extort all the major forces on planet Beichen.

The people of the world were gloating over the misfortune of those major forces, but their feelings were somewhat complicated when it came to that kid surnamed Shi.

That kid wasn't one of Beichen's men, so they couldn't help but feel some hostility, but they also respected him.

Reaching the advanced immortal stage before the age of 30, he had many means and magical powers that could rival an ancestor level expert. He even destroyed the Cheng clan in one battle, shocking the world.

They couldn't help but admire such a person.

They also changed their way of addressing him. When they mentioned him, they no longer called him 'little brat' but 'stone ancestor'.

“The various sects’ plans have failed and they have been tricked instead. They have lost all their face and will definitely not let this go. As long as stone ancestor doesn’t leave, there will be more to see.”

“Although stone ancestor is young, he is not easy to deal with. From this incident, it can be seen that he is cautious and experienced. He seems to be an old man. I think there will be a fight between the two sides!”

The world was a little excited. It had been a long time since there had been such a lively event on planet North Star.

“Preposterous! Preposterous!”

On Stupa Mountain, the various sects met up again, and their expressions were not very good.

This time, they had lost too much face. Not to mention that all their hard work had gone to waste, they had also lost so many treasures. Most importantly, they had lost all their face.

Everyone on planet Beichen was laughing at them.

“This time, we have indeed underestimated our enemy!” Fairy Soft Clouds furrowed her brows slightly, and her expression turned ugly.

She was the one who came up with the idea of setting up an ambush in the land of ten thousand techniques. She originally thought that she had a great chance of success, but she didn’t expect that she would be completely defeated.

“That kid ... He’s not simple! He’s quite cunning!” Luo Tianjun from the Heavenly Academy said, “we were all wrong. We all thought that he was young and inexperienced. But in fact, anyone who can cultivate to the late-stage of immortal transformation is an easy target.”

“Even if he’s extremely talented, if he doesn’t have some shrewdness, how can he grow?”

Hearing this, everyone nodded their heads in agreement.

On the path of cultivation, talent was important, but one’s heart was also very important.

“Why are you saying this! The problem now is how to kill that kid and take revenge!” Kill Sacred Sect’s elder slammed the table and shouted angrily.

The hall fell silent.

The crowd looked at each other helplessly.

They really couldn’t think of a way to deal with that brat. Even if they had to mobilize the divine ancestor, they had to find that brat first. Furthermore, this news couldn’t be leaked.

Once the news was leaked, that kid would run far away with a whoosh.

Planet Beichen was so big that they couldn't block it, not even the divine ancestor.

They looked at each other and smiled bitterly.

Everyone present was famous on planet Beichen. If they weren't the Deputy of a major faction, they were ancestor-level powerhouses who had the power to call the wind and summon the rain on planet Beichen.

But now, facing a young boy, they were actually at their wits 'end.

"Al! Do you guys think that kid will go to the land of ten thousand Arts again?"

Suddenly, Luo Tianjun from the Academy changed his expression and said.

"This ... This is impossible! Even that brat knows that this is a trap and that there's no celestial grade cultivation technique!" Many people immediately shook their heads.

"That's not for sure!" Luo Tianjun said,"in the land of ten thousand techniques, there are more than just immortal-grade cultivation techniques. I think he will not be able to resist going there to check it out."

"He definitely wouldn't have thought that we would set up an ambush!"

The more he spoke, the more excited he became.

When the crowd heard this, they also became excited.

"That makes sense!"

"Good idea! We have to catch him off guard and beat him at his own game, catching him off guard!"

"Hahaha! When it comes to stratagems, this brat is still a little too inexperienced. He's definitely not a match for us old guys!"

They immediately set off for the ancestor of techniques mountain and set up an ambush to wait.
