

The Mightiest Little Peasant Chapter 1533

“Someone is going up the stairs!”

With a loud shout, the entire space boiled over.

The xiuzhe that had been chasing and grabbing scrolls all stopped.

“Which hothead is it this time?”

They all turned around and surrounded the center.

It had been a long time since anyone had gone up the stairs. It was rare to meet one, so they were naturally a little excited.

“He looks quite young!”

They looked up and saw the man on the stairs. He was a handsome young man with white clothes and black hair. He had a refined temperament.

“Mm! It’s not bad!”

“Unfamiliar! Whose kid is this?”

Everyone sized him up and was a little puzzled.

This staircase was not ordinary. It led to the ancestor of technique’s Dao Palace, and the ancestor of technique had set many tests on it.

What kind of person was the ancestor of technique? he was an ancient expert. How could the test he set be simple? those who weren’t monstrous wouldn’t have the face to go.

“I don’t know him!”

Everyone shook their heads.

They had seen the portraits of all the famous geniuses on planet North Star, but this person was clearly not there.

“There are 81 turns on this path, and at every turn, there is a test. It is also known as the nine Nine tribulations. In the past 10000 years, only a handful of people have been able to complete the nine Nine tribulations.”

“Even if I pass the 9-in-9 tribulation, there’s still one final obstacle that no one has ever passed!”

“Among this generation’s geniuses, the best one has only passed seventy tribulations. I think this person has only passed half at most.”

Everyone was discussing.

Tang Hao walked up the stairs and reached the first turn. There was an ancient tablet there, and in front of the tablet was a futon and an ancient lamp.

Tang Hao went forward and sat down on the futon.

The ancient tablet trembled slightly, and lines of golden words appeared on it. It was a cultivation technique.

When the cultivation technique was completed, the ancient lamp lit up, and a ball of flame shot out.

Tang Hao pondered for a moment and understood. The test was to learn the cultivation technique, and there was a time limit. He had to master the cultivation technique before the ancient lamp went out.

He raised his eyes and looked at the ancient monument.

“Dragon Capturing hands!”

Tang Hao looked at it carefully. It was a technique similar to the star picking hand. It was not difficult by itself. It was just an ordinary technique, but it would still be quite difficult to master it in a short time.

Tang Hao memorized the technique and started practicing.

In his palm, a golden light gradually bloomed, revealing the shadow of a talisman.

After a quarter of an hour, he suddenly stretched out his hand. The golden light suddenly brightened and turned into a giant palm, which slapped forward.

The ancient tablet trembled and let out a clear cry. The words on it immediately disappeared and the ancient lamp went out.

Tang Hao knew that he had passed the test.

He stood up, patted his robe, and continued to move forward.

“You’ve passed the first stage!”

A few low exclamations sounded from the crowd below.

Everyone’s reaction was very calm because this was only the first stage. It was also very simple. Many of them could pass it, so it was nothing impressive.

A moment later, Tang Hao turned the second corner. There was another stone tablet there that looked exactly the same as the first one. The only difference was the cultivation technique on it.

This was a sword skill, and it wasn’t difficult to learn.

With a wave of his hand, he took out a sword and began to practice.

In less than 15 minutes, the sword technique was completed and the second stage was broken!

Tang Hao stood up and continued walking.

It was the same for every stage, but the cultivation techniques were getting more and more difficult, and the time was getting shorter and shorter.

Tang Hao kept going up the mountain.

In the beginning, the people below were still very calm, but gradually, they began to sense that something was wrong. The higher they went, the more difficult the cultivation technique was, and the time it would take should be longer.

However, after some calculations, they realized that this fellow only lasted for 15 minutes at most. It was like this in the first ten levels, and it was still the same in the tenth and twentieth levels.

“Thirty! And it’s still 15 minutes, my God! This speed is way too fast!”

When they reached the 30th level, it was still the same. They were a little shocked.

“Hey! I’ve really seen a ghost!”

They were all speechless.

They had never seen anyone who could maintain such a speed in the thirtieth level.

“Which family’s kid is this? His comprehension is too shocking!”

They were getting more and more curious.

“I’m 31!”

“I’m 32!”

As the figure continued to climb up, they kept exclaiming, and the atmosphere became more and more intense.

When he reached 40, that guy’s speed dropped a little, but it was still shocking. He continued to climb, and his momentum was like a hot knife through butter. He appeared to be extremely relaxed.

Soon, he passed the 50th level, then the 60th.

When he reached 60, everyone was already somewhat shocked.

Among the younger generation in Beichen, there were not many who could make it to the 60th checkpoint.

What was even more shocking was that his momentum was still very strong. He continued to rush up and broke through the 70th level in front of everyone's shocked eyes.

"Heavens! Who is he?"

The atmosphere below was already somewhat fanatical.

"Wait, could he be ... Stone ancestor?"

Suddenly, someone seemed to have thought of something and shouted excitedly.

"Stone ancestor?"

When everyone heard this, they were stunned for a moment before coming to a realization.

"Yeah! Why didn't I think of that! He's so young and so monstrous. Who else could he be?"

"So it's him! No wonder!"

Everyone was relieved.

If it was stone ancestor, then it was not strange at all!

This stone ancestor had completely crushed the younger generation of their planet North Star. It was not surprising that he could pass the seventieth level. With his terrifying talent, he might even be able to finish this flight of stairs.

"This is stone ancestor! It's truly extraordinary!"

They raised their heads and looked at the figure above with reverence.

"What? Stone ancestor is here? Where is he?"

The news quickly spread outside, alarming the xiuze that were comprehending. They suddenly jumped up, all extremely excited.

When they found out that stone ancestor had arrived long ago and was attempting the ancestor of technique's test, they rushed in impatiently.

There were also some people who spread the news and it quickly reached the ears of the large sects.

"What? That kid went to the ancestor of technique mountain?"

After hearing the news, Luo Tianjun was so angry that he almost vomited blood.

F * ck!

Was he deliberately toying with him?

He had laid in ambush for several months, waiting to die, but that kid didn't come. He didn't expect that the kid would come the moment they left. He didn't believe that this wasn't intentional.

"This stinky brat!"

He gritted his teeth in hatred, and his eyes were about to spit fire.

"If I don't kill him this time, my last name isn't Luo!"

After leaving these words, he immediately gathered his men and charged towards the ancestor of techniques mountain.

"F * ck, this brat, is he playing with us on purpose?"

When the others heard this, they were also furious.

They gritted their teeth, gathered a group of people, and rushed toward the ancestor of techniques mountain with their fastest speed.
