

The Mightiest Little Peasant Chapter 1539

“Stone ancestor has charged out!”

From the ancestor of technique mountain, the crowd rushed out like a tide and shouted as they looked at the figure that was disappearing into the distance.

“This is unbelievable!”

“There are so many patriarchs! You actually let him go!”

The crowd was in an uproar.

Before coming here, they all thought that stone ancestor was doomed. Who would have thought that things would turn out like this?

The heaven monarchs and patriarchs of the large sects had lost face again!

“This stone ancestor ... Is really something! He even obtained the ancestor of technique’s inheritance. Now that he’s so powerful, who below the divine ancestor can do anything to him?”

Everyone looked at the horizon and couldn’t help but exclaim.

The heaven monarchs of the large sects looked even more furious when they heard the discussions.

This was already the second time!

The first time, they didn’t manage to stop him. Instead, they were fooled by the kid and became a joke. This time, they managed to stop him, but he ran away again. So many of them besieged him, but they couldn’t do anything to him. Instead, they were killed by him.

Furthermore, two of them had died!

This was a complete loss of face!

“That brat ... Is truly fearsome!”

Patriarch Cang Ming shook his head and laughed bitterly. There was still a hint of fear in his eyes.

When that kid fought, he was so fierce that he didn’t care about his life.

After losing two patriarchs in a row, they were afraid that they would be the next one to die. Especially after old Luo escaped with serious injuries, they were even more afraid. In terms of momentum, they had completely lost.

Otherwise, they would still have a chance to stop that kid. After all, they had more people.

“A!”

The other old monsters also shook their heads and sighed.

“What’s the use of saying all this now?” The blood ancestor laughed at himself. “My reputation has been destroyed by this kid!” After he finished speaking, he shook his head and left.

“My reputation in this life is also ruined!”

“Let’s go! I’m afraid we won’t be able to catch him once he runs away!”

The crowd sighed and left.

Soon, the news spread and shocked everyone.

The entire planet North Star was in an uproar.

The birth of the ancestor of technique’s inheritance and the fall of two patriarchs ... This piece of news set off a wave on planet Beichen.

Stone ancestor’s reputation was rising like the sun in the sky!

In the eyes of the people of Beichen, the young stone ancestor was a legend. People were talking about him, and more and more people worshipped him. Stone ancestor’s prestige was extremely high among the young people.

Not long after, many of the people who were sent to the Dong Lin astral to Scout for information returned.

That’s right, stone ancestor was indeed from Donglin. He was a monster from one of the three great pure lands, the heaven-equal Department.

They had heard all sorts of stories about him.

Not only was the stone ancestor extremely talented, but he was also extremely talented in the three Dao of alchemy, weapons, and arrays. He was the best in Donglin ...

He was also ruthless and cultivated the Dao of slaughter. On planet Dong Ling, he had killed countless people and was a ruthless person.

Moreover, he was resourceful and extremely cunning.

This news shocked the world.

“An all-rounded genius? F * ck! There’s no justice in this world!”

“Damn it, so this kid is a thorn in Donglin, causing so much trouble in Donglin. No wonder he’s like this here!”

When those old monsters heard this, some cursed and some sighed.

At this time, they were all somewhat regretful that they had provoked that kid.

That brat's strength was becoming more and more terrifying. Even the Cheng clan had been annihilated by him. If he were to attack them, they would most likely be in grave danger.

For a time, they were all on tenterhooks and extremely apprehensive.

They couldn't wait for the kid to leave this place and not stay in Beichen.

— —

In a cave somewhere on planet Beichen, Tang Hao sat cross-legged. The divine eye on his forehead kept opening and closing, emitting a terrifying divine light.

He was nurturing this God's eye, allowing it to merge with him more thoroughly.

After all, this was an external object and it wasn't easy for him to fuse with it.

After a long time, he opened his eyes. The divine eye was closed, leaving only a golden vertical mark between his eyebrows.

He touched it and laughed. He thought of Ji Wu, who had three eyes. The third eye was an evil eye, which was very powerful.

Of course, this divine eye was much stronger than Ji Wu's evil eye. After all, it was a treasure made by a 7th or 8th tribulation Almighty.

"The treasure is good, but it's a pity that I'm not strong enough and can't display its full power!"

Tang Hao felt sorry for her.

"When I reach the celestial tribulation stage, I will be able to display the true power of this eye ... It seems that I have to quickly raise my cultivation level and become a mortal!"

Tang Hao mumbled.

He stayed in the cave dwelling and cultivated while nourishing his divine eyes.

Although he was in the cave, no news from the outside world could escape his eyes. Most of the clones he had created were sent out to spy on planet Beichen.

Every day, there would be a sea of news.

In addition to gathering information and monitoring various places, there were also some avatars traveling around the world, collecting all kinds of treasures for him. Elixirs, spiritual medicine, spiritual materials, no matter what level they were.

There were rumors of a mysterious thief in Beichen.

This great thief came and went without a trace. Wherever he visited, it was like a Locust passing through, not leaving a single blade of grass behind. It was simply outrageous.

This matter caused a sensation. Many major forces paid attention to it, but no one was able to catch this thief.

In the blink of an eye, a month had passed.

One day, Tang Hao was sitting cross-legged in his cave abode. His expression suddenly changed, and he opened his eyes. One of his clones had just sent him a message.

“The cave of an ancient pill Saint ...”

Tang Hao mumbled to himself. He furrowed his brows.

According to the news from the clone, an ancient alchemy saint’s cave had been found on a continent north of planet Beichen.

As soon as the news spread out, his clone heard it and immediately sent it over.

“Interesting!”

He pondered for a moment and stood up.

The ancient alchemy Saint was a legendary figure who stood at the peak of alchemy. Whether it was Beichen or Donglin astral, there hadn’t been an alchemy Saint in a long time.

There must be a lot of elixirs in the cave abode of such an alchemy master. When the news spread, planet North Star would be shocked and countless cultivators would go crazy.

“Let’s go and take a look!”

Tang Hao left the cave abode in a flash. He shuttled through the void and headed toward the northern continent.

By the time he arrived, the news had already spread throughout the entire continent. The place was in an uproar. The direction of the immortal’s cave was filled with people of all kinds of cultivation levels.

Even the foundation establishment and golden core cultivators were emboldened to try their luck. That was the immortal’s cave of an alchemy Saint. Even if they could pick up some dregs, they would be rich. If they could pick up a pill, it would be even more amazing.
