

## The Mightiest Little Peasant Chapter 1554

In the sky, the light finally dispersed.

A figure was revealed, and his entire body was shrouded in immortal radiance.

Immortal cultivators also had immortal light, but compared to this, it was like the difference between a Firefly and the bright moon. The immortal light in front of them was ten thousand feet high, shining directly into the sky.

He raised his hand lightly, and a powerful fluctuation spread out. He didn't need to use any spell techniques at all, and his every move had the terrifying power to overturn rivers and seas, and destroy mountains and split mountains!

This was the immortal tribulation stage!

The half-immortal realm!

Even in ancient times, this was the realm of Almighty. Now, in the entire starry sky, it could be considered one of the most powerful experts.

“Congratulations master, you have successfully passed the Tribulation and entered the sage realm!”

Monk Huan hai kneeled on the ground and shouted excitedly.

A Saint in his forties!

This was simply too shocking!

Even he hadn't expected his master to succeed. When the two divine ancestors had arrived, he had thought that everything was over. He hadn't expected his master to actually succeed and cross the Tribulation in one fell swoop to reach the sage realm!

At this moment, he was even more ecstatic.

As the saying goes, when a man ascends to immortality, his chickens and dogs ascend to the heavens. Now that his Lord had ascended to the sage realm, his status would also rise in the future.

He might even be able to receive guidance from his master and become a saint in the future!

“Get up!”

Tang Hao nodded at him.

If not for the Mirage sea, he would not have been able to successfully transcend into a mortal. He had been a great help.

“You've done a great job in protecting me, I won't forget!” Tang Hao said.

“Many thanks, my Lord!”

Monk Huan hai was overjoyed.

By the side, the void path master’s expression was somewhat gloomy.

This kid actually succeeded!

Then wouldn’t all the treasures be gone? wouldn’t his ten years of hard work be for nothing?

He gritted his teeth, somewhat unwilling.

“Hmph! I’ve been a Sage for more than a hundred years, and the means and divine powers I’ve accumulated are not something a young boy like you can compare with!” He snorted in anger.

“Is that so?”

Tang Hao glared at him coldly.

“Brat, today, I, your senior, will make a move and teach you a good lesson. I’ll let you know how powerful I am!”

Tang Hao chuckled. “You’re at the first Firmament of the immortal tribulation realm, and so am I. We’re all the same. There’s no need for a senior or a junior. If we really have to, wouldn’t it be embarrassing if you, as a senior, have the same cultivation level as me?”

“You ...”

The Dao master of the void was so angry that his face flushed red.

This little brat was too detestable! He had been scared to death when he had created the life Dao. If word got out that a mighty immortal tribulation expert had fled like a rat, wouldn’t he become a laughingstock?

Now, this kid was actually mocking him again!

If it could be tolerated, then who couldn’t?

“Little brat! Accept your death!”

He bellowed out and raised his hand. Boundless golden light surged out and turned into a huge Golden Palm, “this is the Supreme technique of my Dao of void, the void giant palm imprint!”

“You have the void hand and I have The Burning Sky hand. I’d like to see who is more powerful!”

Tang Hao was not afraid.

He had just ascended to the sage realm and wanted to test his own abilities. This void Dao master was a very good material to test his knife.

He also raised his hand and struck out a palm.

In an instant, endless spiritual Qi gathered and merged with the true fire, turning into a giant blood-red palm that slapped out.

The two handprints were extremely huge, at least 30000 meters tall.

BOOM!

A deafening explosion.

The two giant palms met in the air, and an extremely bright light burst out. With the point of collision as the center, the air rippled wildly, and at the center, the void was distorted.

The two of them were tied in this attack!

The void path master immediately revealed a look of embarrassment and anger. He was a senior, and he had become a Sage 100 years earlier than this brat. Now, they were actually evenly matched. Where was he supposed to put his face?

“Little brat! Again!”

He roared.

“Go up and fight!”

Tang Hao’s body moved. He tore open the void and arrived in the starry sky.

The Dao master of the void gave chase. With a wave of his hand, a huge blade of void space appeared and slashed down.

Tang Hao’s divine eye opened, and a beam of divine Light of Destruction shot out and destroyed the blade of the void.

The void Dao master was stunned and became even more annoyed.

“Look at my soul Emperor stele! It will directly suppress your soul and make you consigned to eternal damnation, unable to reincarnate for all eternity!” The void Dao master bellowed. With a wave of his hand, a stone tablet flew out. It was pitch-black in color, and it exuded an ancient and primordial aura.

The aura it gave off was that of a seven tribulation weapon.

Tang Hao was slightly surprised. He knew that anything with the word “Emperor” in it was different. For example, the Green Emperor mountain in Dong Lin once had a Green Emperor who was an eight tribulation Almighty.

Anyone who could be called an Emperor was a 7th or 8th tribulation Almighty. The title of ancestor was also the same in ancient times, such as the ancestor of technique.

The previous owner of this soul Emperor stele must have been a 7th tribulation or 8th tribulation Almighty, so its power should not be underestimated.

“As expected of the Dao master of the void, an old monster who has been a Sage for a hundred years! You have so many treasures!”

Tang Hao’s eyes were sparkling.

The Dao master of the void was stunned when he noticed this light. What the hell was this light? Why did it look a little like a thief?

Could it be that this stinky brat still wanted to snatch his things?

He was very suspicious, so he looked at it carefully again. In the end, he was almost angered to death. This was really a thieving light. This damn brat was so bold that he actually dared to covet his treasure.

“You little brat! I suppress! I suppress! I’ll kill you!”

The Dao master of the void roared in anger.

The stone tablet suddenly grew to a height of a thousand feet, and a large golden word appeared on it.

“Suppress!”

This word came out of the stone tablet and turned into a physical form. It pressed down with the stone tablet and suppressed the soul.

“Hmph! You want to suppress my soul?”

Tang Hao chuckled in disdain.

His body was strong, but his spirit was not bad either. The divine void Scripture had allowed him to forge the strongest spirit!

He roared in anger, and a light flashed above his head. His divine soul left his body and suddenly expanded, turning into a silver Divine Spirit.

The godly spirit was extremely huge, and its body kept expanding in the starry sky. It had Nine Eyes, and with a single slap, it shattered the huge golden word.

The void Dao master was dumbfounded!

He rubbed his eyes in disbelief. That was the ancient soul Emperor's soul Emperor stele! As long as it was something related to the divine soul, once it touched this monument, it would be a dead end. It was called a divine soul killer!

But now, why was the monument not working?

And what was that thing? Why did he look so strange?

Just as he was in a daze, the Nine Eyes on the giant suddenly opened and shot out nine beams of divine light.

Boom! Boom! Boom!

The soul Emperor stele suffered a violent blow and kept trembling, then was blasted upwards.

"F \* ck!"

The void Dao master's eyes widened.

He was a little dazed. Was that thing really a divine soul? How could he be so ferocious and not afraid of the soul Emperor stele at all?

His heart was bleeding as he watched the soul Emperor's stele shake and dim.

"My monument ..."

He howled in pain and quickly took back the monument.
