

The Mightiest Little Peasant Chapter 1564

The Kunlun Sect was still the same as before.

However, there were more and more people coming and going inside, and many of them were young disciples.

Tang Hao didn't alert the disciples guarding the gate. He tore open the void and entered Kun Lun.

The moment he appeared, an old locust tree on a mountain peak moved. Its branches and leaves shook, and it said, "You're back!"

"Senior!"

Tang Hao bowed toward the old Chinese scholar tree.

"Is everything alright?"

Tang Hao said.

"Very good!" The old locust tree said. After you left, I've been sleeping for so many years. Nothing can wake me up. "

"That's good!"

Tang Hao said with a smile.

"How ... Is it outside?" the old locust tree asked again after a while.

He was rather curious about the starry sky outside.

Tang Hao's body flickered, and he appeared in front of the locust tree. Mirage sea followed him.

"Another little fellow!"

The old locust tree shook its branches and leaves as it said.

Illusion sea was stunned, thinking, F * ck! This old tree's tone wasn't small. He actually called him a little fellow. After all, he had lived for several hundred years. In the outer space, he would be considered an old monster.

Moreover, he was a perfected heavenly Lord, a top-tier expert in the outer space.

"Senior locust tree has lived for tens of thousands of years!" Tang Hao said.

"Tens of thousands of years?"

Monk Huan Hai's eyes widened and he was speechless.

Then, his expression turned serious and he was filled with respect.

He was a living fossil!

One had to know that the history of the starry sky outside was only tens of thousands of years. This person must have lived from ancient times until now.

“This little monk Huan hai greets senior!”

He said respectfully.

“You’re welcome!” The old locust tree said.

Tang Hao sat down and briefly explained the situation outside.

“It turns out that the outside is so big!” Hearing this, the old locust tree sighed with emotion.

“Then, what are the 33 heavens?” he asked, concerned.

“Oh! These thirty-three heavens are not together with the five great astral worlds. I don’t know exactly where they are, but I’ve heard a lot about them. Occasionally, people will come out and travel to the five great astral worlds. ”

Tang Hao said.

He really didn’t know much about the 33 heavens. In the five great astral worlds, these 33 heavens were all rather mysterious existences.

However, the name of the thirty-three heavens was widely spread in the five great astral realms.

Back when he first arrived in the nine gates Star Domain, elder Xie and the others had mentioned thirty-three days to him. The Blood King had also mentioned it.

The great void heaven was one of the 33 heavens, and it inherited the teachings of the great void God.

Tang Hao told her about it.

“Great void heaven?” The old locust tree muttered to himself for a while and said, “I wonder if there’s wahuang heaven ...”

Tang Hao’s heart skipped a beat when he heard that.

“Senior, are you related to Emperor NVWA Palace?” Tang Hao said.

“Yes!” The old locust tree said. Over the years, I’ve regained a lot of my memory and remembered many things. I should have a lot to do with Emperor NVWA’s Palace. ”

Tang Hao wasn't surprised. The old locust tree had been dug out from the ancient Dao Lake, and there was a talisman from Emperor NVWA's Palace there that suppressed the giant God Dragon count. He had guessed it a long time ago, but his memory of the senior was always vague, and he couldn't explain it clearly.

"Wahuang heaven ... Seems to have one. I'm not sure!" Mirage sea said.

They chatted for a while longer before Tang Hao stood up and headed toward the main peak.

"Fellow Daoist! You're back!"

On the main peak, a stone statue trembled and cracked open, revealing a golden figure. The figure leaped down and landed in front of Tang Hao. It was the origin core avatar.

The clone's aura was getting stronger. Tang Hao sensed that it was about to reach the seventh or eighth level.

This was also limited to the spiritual energy of Qiyuan. If it was in Beichen or Donglin, this clone would have become an immortal long ago. After all, this was a magical heaven and earth embryo. Cultivation was as simple as eating and drinking, and there were no obstacles.

As long as he had spiritual energy, he could improve quickly.

If he had enough spiritual energy, it was not impossible for him to become a saint in one step.

This was also the most precious part of the origin core avatar. Ji Wu had abandoned his physical body to occupy this origin core avatar for this reason.

However, in the end, he still got the advantage.

"I'm back!"

Tang Hao smiled. He handed her a ring.

The clone opened it and was overjoyed. He laughed and said, "Fellow Daoist, you're rich!"

The ring was filled with elixirs, precious medicine, and all kinds of dazzling treasure lights.

"It's alright! Hurry up and swallow it!" Tang Hao said with a smile.

"Thanks!"

The clone opened its mouth and sucked. The elixirs and precious medicines in the ring turned into a flood and flew out, swallowing them all.

Then, the aura on his body skyrocketed. After rushing up to the ninth beheading, he directly became immortal and then advanced towards the middle stage ...

“F * ck!”

At the side, illusion sea was completely dumbfounded.

He was a little stunned. What kind of monster was this? So many medicinal pills and precious medicines, and he just swallowed them all? Aren't you afraid of exploding?

Also, how did he become an immortal directly? What about the immortal Ascension tribulation?

This was simply inconceivable!

He stared blankly at the clone as it rushed to the middle stage. Then, under his horrified gaze, it rushed to the late stage, and finally, it reached perfection.

“Oh my God!”

Monk Huan Hai's eyes were as big as copper bells, and he was horrified.

In such a short period of time, this thing had rushed from about eight cuts to the great circle of immortal transformation. What a shocking thing this was!

“No more! It's such a pity!”

The clone smacked his lips and said regretfully.

Tang Hao chuckled.

During his ten years of Transcension, his clone had been planting herbs in the cave abode. After so many years, he had accumulated a large amount of immortal condensation pills. In addition, he had taken out half of the spirit herbs, treasure herbs, and pills he found in the pill saint's cave abode to help his clone to reach the perfected immortal realm.

He estimated that even if he threw in the remaining half, it would not be enough for this clone to become a saint. Thus, he kept it and prepared to give it to the Kunlun Sect to increase the power of Kunlun.

“Great circle of immortal transformation, not bad!”

Tang Hao said with a smile.

This was the heaven and earth origin embryo, a divine object born from the heaven and earth. Its combat strength was unparalleled, and just like him, it was also an invincible existence in the same realm.

“Right, this is all for you!”

Tang Hao took out the heaven's equal stick, the Azure Thearch armor, and some tribulation weapons such as earrings and jade pendants. He gave them to his clone and armed him.

“Good treasure!”

When the clone received the stick, he was overjoyed.

After playing around for a while, he jumped back and sat cross-legged on the peak.

“Be good! Abnormal! They were all perverts! That old tree had lived for tens of thousands of years and was a complete pervert. This thing was even more perverted! This master is also a big pervert, why is this place full of perverts!”

Monk Huan hai mumbled and started to doubt his life.

He had always felt that Qiyuan was a broken place, but when he came, there were many perverts.

At this time, the strange movements of the origin core avatar had long alarmed the people of Kun Lun. The entire Kun Lun was in an uproar, and a group of people rushed out from the main peak.
