

The Mightiest Little Peasant Chapter 1572

"May I ask ... How should I address you?"

"Li!"

"Mountain chieftain li!" "Wait!" Tang Hao shouted.

This mountain chieftain li appeared to be in his fifties. He was dressed in a white robe and had a refined bearing. Judging from his aura, he was only at the level of beheading one, just like the Guardians of those great sects and titled aristocratic families.

"Mountain chieftain li, what brings you here?"

Tang Hao said.

He was curious. The ancient Saint mountain was mysterious. It was usually closed and only opened once in a while. The great ensemble was also hosted by the ancient Saint mountain.

Back then, he had razed the first continent's various great sects and titled aristocratic families to the ground, but the ancient sacred mountain had not appeared. Why was he here today?

Mountain Lord li forced a smile. "I've been in seclusion all these years. I didn't expect that the outside world would change the moment I came out. Now that your Kunlun is the number one sect in the world, I naturally have to pay you a visit."

"Of course, there's still some things I need to ask Cult Master Tang."

"Oh?" Tang Hao's expression changed.

"I've heard people say that Cult Master Tang once fell into a well at the ancient Dao Lake," mountain Lord Li said. "Is that true?"

Tang Hao's expression changed slightly. He looked at mountain chieftain li in surprise.

"There is indeed such a thing!"

Tang Hao thought for a moment, then nodded.

"Then, Cult Master Tang, did you see anything in the well? Also, the array beside the well was set up by you, right, Cult Master Tang? I don't think there's anyone else on this planet capable of setting up such a profound formation apart from you, Cult Master Tang."

Mountain Lord Li said.

"I'd like to ask, why are you asking this, mountain chieftain li?"

“To be honest,” mountain Lord Li said with a smile, “my ancient sacred mountain is related to that well ... No, it should be said that it is related to the thing in the well.”

“Let’s put it this way. The purpose of the ancient sacred mountain’s existence is for that thing. However, I’m not sure what it is. According to the legends passed down from generation to generation, it is a very powerful ancient demon.”

“The decline of our Qiyuan is related to this.”

“Back then, countless people died trying to suppress the demon. Their corpses and their belongings were all sealed in the ancient Dao lakes to suppress the demon. One of the people from that power stayed behind to guard the seal.”

“This person is the founder of the ancient sacred mountain, a disciple of the ancient Emperor WA’s Palace.”

“The duty of the ancient Saint mountain is to guard the seal. Once the seal is broken, we have to crush the talisman left by the patriarch and contact the people in Emperor NVWA’s Palace.”

“I see!”

Tang Hao said.

He used to be suspicious. The giant God Dragon count was such a dangerous thing. Once he broke out of the seal, Qiyuan would definitely be in a terrible situation. Why didn’t he leave anyone to guard the Emperor WA Palace? it turned out that it was this ancient Saint mountain.

“I did see The Fiend you mentioned.” Tang Hao said.

“You’re afraid he’ll break out of the seal, aren’t you? There’s a talisman from Emperor NVWA’s Palace to protect it. I’ve also sealed the well. Nobody will fall in and be bewitched by that fierce devil. ”

“That’s good!”

Mountain Lord li heaved a sigh of relief.

Tang Hao smiled. “I’m afraid he won’t be much of a threat even if he breaks out of the seal now!”

Mountain Lord li was stunned at first, then he was about to laugh.

How powerful was that ancient evil demon? even if it had been suppressed for tens of thousands of years, it still had extremely powerful strength. Moreover, now that Qiyuan had declined, once that evil demon came out, who would be its match?

Then, he shuddered and looked at Tang Hao.

“May I ask Cult Master Tang what your cultivation level is?”

“Go!” Tang Hao said with a smile.

“Immortal tribulation!”

Mountain Lord Li’s body trembled as if he had been struck by lightning.

Then, his eyes widened. With a hiss, he sucked in a breath of cold air and looked extremely shocked.

Immortal tribulation?

‘How ... How is this possible?’

He was in extreme disbelief.

Before he went into seclusion, this person seemed to have just formed his nascent soul, but the moment he came out of seclusion, it became an immortal tribulation?

At this moment, his mind was almost blank.

He couldn’t even count how many realms there were between the immortal tribulation and the nascent soul.

He maintained this expression and sat in a daze for a long time.

When he came back to his senses, he laughed bitterly.

In less than twenty years, he went from nascent soul to immortal tribulation. This was too incredible!

Could it be that he was so confident that he could suppress The Fiend with his immortal tribulation strength if The Fiend really broke out of the seal?

“I’m ashamed! I’m really ashamed!”

He let out a huge sigh.

At the same time, he felt at ease. With this person here, he didn’t have to be afraid of that demon at all.

After chatting for a while longer, he got up and left.

After sending him off, Tang Hao called for Mirage sea, Taoist master Qian Ji, and the others.

“Master, what’s the matter?”

Mirage sea was a little excited. He had been here for more than a year, and was almost bored out of his mind.

“I want you to take them to planet jumen!” Tang Hao said.

“Planet jumen? Oh! It’s that one!” Illusion sea remembered.

“The jumen planet is not bad. The spiritual Qi there is many times denser than here. Compared to Qiyuan, it is already a Holy Land for cultivation. If we were to stay there, Kun Lun’s development speed would be a little faster.”

“Furthermore, Mount riyue has been destroyed by us. There is no Overlord force there. It is the perfect time for us to take advantage of the situation and gain a firm foothold. You can bring some people there and build a base there. We will take over the entire planet jumen. I want to make that planet into the base of Kun Lun.”

Tang Hao said coldly.

He had been thinking about this plan for a long time. It was the first step for Kun Lun to expand and grow.

“Occupy an entire planet?”

Taoist master Qian Ji and the others were speechless.

They didn’t even dare to think about this in the past.

However, when they thought of the sect master’s current strength and this senior Mirage sea’s strength, occupying a star didn’t seem to be a big deal. They had heard that there were millions of cultivation stars outside.

The entire starry sky was unimaginably vast.

“Alright! This is easy!”

Mirage sea gritted his teeth and said in a relaxed manner.

He didn’t think it was a big deal. In the outer space, all the powerful forces had their own stars. For example, Zhenhai temple, as a super force of the West Ocean, had dozens of stars under it.

“Master, don’t worry. Give me half a month’s time. I guarantee that it will be done properly.”

Mirage sea patted his chest and said.

“Then hurry up and go!”

Tang Hao waved his hand and sent a clone to follow them.

“Yes! My Lord!”

Phantom Neptune led Taoist master Qian Ji and the others out of the hall and into the sky.

Soon, the clone sent back news that the Mirage sea and the others had successfully subdued the forces of planet jumen. They had started to build a sect on the ruins of the original Mount riyue.

Tang Hao breathed a sigh of relief.

After that, he left the construction of the base and its future development to Daoist priest horizon to worry about. He returned to Westridge and continued to live a peaceful life, practicing alchemy.
