

The Mightiest Little Peasant Chapter 1574

“This is a creation divine pill!”

Tang Hao said.

The Masters were all shocked. They had naturally heard of this divine pill.

“My good disciple, are you confident in refining it?”

They were shocked.

This divine pill was not ordinary. Even a Saint grade Alchemist might not be able to refine it.

They knew that their disciple had extraordinary talent, but he was still young, so it was impossible for him to refine such a legendary divine pill!

“I’m not completely sure yet,” Tang Hao said. “But the recipe requires too many rare materials. I’ll have to gather them as soon as possible. I think I’ll be able to make it once I have all the materials.”

“That’s true!”

“This pill recipe is too difficult to gather!”

The teachers all sighed.

Then, Tang Hao went to the spirit herb storage.

As one of the three great pure lands of Donglin, the spiritual medicine storage of the heaven-equal Department was naturally not small. Whether it was the variety or quantity, it was the best in Donglin.

Tang Hao walked around and found many of the ingredients in the recipe.

“Netherworld grass, weeping blood lotus, and Jade Leaf yellow Dragon grass ...”

Tang Hao collected the herbs he found one by one.

These were all finished spiritual herbs that had been picked after they had matured. The quantity was also different. For example, there were more netherworld grass, with a total of fifteen stalks, but there was only one Jade Leaf yellow Dragon grass.

A mere stalk was simply not enough to be used to refine pills.

“Looks like I’ll have to plant more.”

Tang Hao entered his mobile abode after he returned to his own.

“Fellow Daoist, you’re here!”

In the cave abode, a group of avatars greeted him. Some of them were busy carrying hoes and water buckets, working in the herb fields. Some of them were sitting at the side, playing cards and Mahjong.

“I’m here to plant some medicine!”

Tang Hao took out a batch of medicinal herbs and distributed them to the clones. He also took a few for himself and planted them.

Planting spiritual herbs was an extremely troublesome matter, especially when these were the highest grade spiritual herbs. They were especially delicate and difficult to plant. If it were someone else, it would be basically impossible to plant them.

However, Tang Hao was different. He had the magical celestial water. No matter how difficult it was to grow, as long as he dug a hole, buried it, and watered it with some celestial water, it would live. It was simple and crude.

“Alright!”

After planting all the herbs, Tang Hao dusted his hands and stood up.

After leaving the mobile abode, Tang Hao sat down cross-legged and began contacting his clones, not just on planet Dong Ling, but also on other planets far away in Dong Ling. He told them to keep an eye on the herbs listed in the recipe and collect as many as possible.

Tang Hao focused on studying alchemy after the call ended.

In the blink of an eye, a month had passed.

One day, the headmaster came to find him.

“Hurry up! Hurry up and follow me!”

The headmaster said anxiously.

“Where to?”

Tang Hao was surprised.

“Ancient mine!” The headmaster said.

He explained to Tang Hao as they walked toward the main peak.

“This ancient mine used to be very famous. It’s the largest crystal mine on planet Dong Ling, and it even had an immortal vein. The immortal Jade of our heaven-equal Department was excavated from there.”

“The immortal Meridian was divided among the three pure lands. Each of them got one-third of it.”

“However, this place has declined and there’s nothing inside. Moreover, it’s extremely deep and there are many evil spirits. It’s very dangerous and has become a well-known dangerous place on planet Dong Ling. Even the immortal transformation heavenly Lord might not be able to go deep into the mine.”

Tang Hao was surprised when he heard that. “Then why are we still going there?”

“I’ve been looking through some ancient books recently,” the headmaster said. “I just happened to find a clue about the ancient mine.”

“It turns out that when we excavated the immortal vein, we found the core of the immortal vein in our heaven-reaching courtyard, an immortal spirit!”

“Immortal spirit?”

Tang Hao’s expression changed.

“Now you should know why I’m so nervous!” The headmaster said with a smile. Immortal spirits are only born in immortal meridians and are the crystallization of heaven and earth’s immortal Qi. They are born from immortal meridians, but in reverse, they can also create an immortal Meridian. ”

“An immortal Meridian and an immortal spirit can greatly increase our strength.”

“Are you sure that the immortal spirit is still there after so many years?” Tang Hao furrowed his brows. “And that it’s still forming an immortal vein in the mine?”

“This ... I’m not too sure, but it’s very likely. After the immortal spirit escaped, no one could catch it. The people from the primordial chaos dojo and the war god mountain probably don’t know.”

The headmaster said hesitantly.

“No matter what, this is a clue. There’s no harm in taking a look, right?”

As they spoke, the two of them arrived at the main peak. Daoist Qingzhu was already waiting.

The three of them immediately set off and headed to the ancient mine.

The three of them were all at the immortal tribulation stage, so they were extremely fast. In half a day, they arrived at the ancient mine.

What appeared in front of Tang Hao was a vast and boundless mountain range. The mountain range was filled with huge potholes, some of which were so deep that the bottom couldn’t be seen. It was like an abyss.

“This way ...”

The headmaster looked around and flew forward with the two of them. They arrived at the center of the mountain range, where there was the largest pit. When they looked down, they couldn’t see the bottom at all.

“That immortal vein was discovered in the deepest part of this cave, which is also the center of this mountain range. If you go this way, it belongs to the primordial chaos Daoist sect. This way, it belongs to the war god mountain. We, the heaven-equal Department, were assigned to that place.”

As they descended, the sect master pointed out three directions for Tang Hao.

He didn't know how long he had been sinking, but he still couldn't see the bottom. Fierce beasts, poisonous beasts, and many malicious ghosts began to appear in the surroundings. The deeper he went, the stronger these things became.

However, the three of them didn't need to make a move. They just released their auras, and these things naturally escaped.

“So many souls!”

As the number of souls increased, Tang Hao made his move. He released his divine soul and sent out a dozen thoughts. In the blink of an eye, they turned into a dozen Azure Dragons that pounced in all directions and began to devour the souls. Not a single one was left alive.

The headmaster and Daoist Qingzhu were both surprised.

“What a magical soul transformation technique!”

The two of them clicked their tongues in praise.

Tang Hao devoured the souls as he followed the two of them down.

“We're almost at the bottom!”

The headmaster's divine soul was released and he began to search around.

Daoist Qingzhu took out a green bamboo walking stick and gave it a light shake. Countless rays of green light flew out and scattered in all directions.

Tang Hao waved his hand, and streams of light flew out. They were all split souls. Some went into the caves, some went underground, and began to search for the so-called immortal spirit.

With the three of them working together, they had completely searched the underground space in less than half an hour.

“No, I didn't!”

“I didn't notice it either!”

None of the three found anything.

“Could it be in the deeper parts?” Tang Hao guessed.

“It’s possible!”

The three of them once again used their techniques to explore deeper. Three hundred meters, three thousand meters, three hundred thousand meters, they finally found something.
