

The Mightiest Little Peasant Chapter 1592

“Ah!”

There was a scream.

Another elder of war god mountain fell.

“Stop chasing!”

The headmaster shouted at the elders who were about to catch up.

The elders and disciples who were already red-eyed from the killing finally came back to their senses. Then, they burst out in a deafening cheer.

“Hahaha! We’ve won!”

Everyone was extremely excited.

The sect master finally heaved a sigh of relief and revealed a look of joy.

Before the battle, he had been very nervous, especially when he saw the 11 Saints. His heart sank.

But they didn’t expect that they would still win in the end. They even killed one person and severely injured many others. As for those elders and disciples who had become immortal, they even slaughtered countless of them. This battle could be said to be a great victory.

He turned to look at Tang Hao and his clone. He was a little emotional.

It was all thanks to this clone that they had won this battle. Otherwise, they would have lost long ago.

“Little Tang, you’re awesome!”

Daoist Qingzhu grinned and gave Tang Hao a thumbs-up.

When he looked at the clone, his eyes were filled with envy. A clone that was refined from a heaven and earth origin core was a rare and precious treasure!

“The two elders have also worked hard!”

Tang Hao cupped his hands and smiled.

He also heaved a sigh of relief, and his entire body relaxed.

They had won this battle, but most of their opponents had been severely injured, and it would take them a long time to recuperate. Even if they recovered, they might not have the courage to attack again. The danger of the heaven-equal Department was finally resolved.

In the future, the heaven-equal Department could open its Mountain Gate and recover its former state.

“We can’t let those old fogeys off so easily ...” Tang Hao said after a moment of thought.

“Oh? What are your thoughts?”

The headmaster said.

“It’s not fair for them to keep attacking us,” Tang Hao said. “We should go to their lair and take a look. In my opinion, why don’t we gather all our forces and attack them with all our might? we can level war god mountain and the primordial chaos dojo.”

“This ...”

The yard Master was a little hesitant.

Daoist Qingzhu’s expression changed, “I think that’s a good idea! The enemy is currently in a state of panic and chaos, and they would never expect us to attack without resting. This is the best time to catch them off guard.”

The headmaster pondered for a moment and nodded.

“That makes sense! Then let’s do this!”

The order was passed down, and everyone boarded the ship and soared into the sky.

Soon, they appeared in the sky above war god mountain.

At this moment, the people who had fled war god mountain had just returned. The entire war god mountain was in a state of chaos. No one could believe that they had actually failed.

When they saw the Golden battleship and the auspicious cloud flag in the sky, the entire war god mountain was in chaos again.

“Not good! The heavenly Department is here!”

“We’re finished! It’s finished! Our war god mountain is finished!”

Countless young disciples ran around and shouted in panic.

“What? The people from the heaven-equal Department are here?”

On war god mountain’s main peak, war god Mountain Master, who was about to recuperate in seclusion, almost jumped up when he heard the news.

When he looked out and saw Four Saints in the air, he was so scared that he turned pale.

This group of people had actually caught up!

His Battle God mountain also had a great formation, but it wouldn't be able to hold them off for long. At most, it would take ten days before the great formation was completely broken. His injuries were too severe, and half of his body had been blown apart. He was seriously injured and wouldn't be able to recover in ten days.

At that time, his war god mountain would be finished.

His first thought was to gather his disciples and hide in the ancestral land.

However, on second thought, if he entered the ancestral land, wouldn't he be trapped to death here, just like the heaven-equal courtyard?

The heaven-equal Department still had a way to force them out.

"No! We can't enter the ancestral land, hurry! Pass down my order, gather all the disciples and quickly pack up everything. We're retreating!"

He immediately decided to run away.

As long as he was still alive, it didn't matter if he abandoned the mountain Gate. He would still have a chance to come back later.

In less than half a day, the people of war god mountain took all the treasures, boarded a large ship, and left through the void.

"Hahaha! He ran away!"

Seeing this, the people of the equal heaven Department all laughed.

In the past, they had been chased away by the people of war god mountain, but now, the situation was reversed.

Without someone controlling the formation, the power of the formation was greatly reduced, and it was quickly broken.

After completely razing the mountain to the ground, the group continued on their way to the primordial chaos dojo.

As soon as they arrived, they saw that the people from the primordial chaos Daoist sect had already packed up their things. They carried many bags and boarded a huge boat, preparing to escape. They had obviously received news about war god mountain.

They had fled in a hurry after Tang Hao and the others had appeared.

"Hahaha! A bunch of cowards!"

Everyone laughed and razed the primordial chaos Daoist Rite to the ground.

“Alright! Now that the two great pure lands are gone, our heavenly Academy is the only sovereign on planet Dong Ling. From now on, our heavenly Academy is the only pure Land.” The headmaster laughed heartily.

“I remember that there were a lot of forces that came to attack us in the past. Now it’s time to settle the score. Let’s go, we’ll crush them all one by one. We’ve been holding this anger in for a long time.”

With a wave of his hand, he led the people of the equal heaven Department to attack all over planet Dong Ling.

At this moment, the results of the battle at Qi Tian mountain had already spread out and shocked the entire planet Dong Ling.

Everyone in the world was fervently discussing what methods the heaven-equal Academy had used to reverse the situation.

Before they could come to a conclusion, even more shocking news came. The heaven-equal Department had killed their way to war god mountain and primordial chaos dojo, and the people from the two pure lands had fled from planet Dong Ling.

Their Mountain Gate had been razed to the ground.

From now on, there would be no more of these two pure lands on planet Dong Ling, only the heaven-equal courtyard would remain.

Hearing this news, everyone was stunned.

Many of them were sighing in their hearts. The world was about to change again. In the future, planet Dong Ling would definitely be the world of the equal heaven courtyard. However, they never thought that it would come so quickly!

After that, more news came that the heaven-equal Department had found the ye clan and razed it to the ground.

Then, limitless immortal sect ...

News of forces being annihilated continued to spread.

“They’re going to settle scores!”

“Hey! Those forces that once dealt with the equal to heaven Department are in big trouble!”

Planet Dong Ling was in an uproar.

The forces that had once dealt with the heaven-reaching Academy were all in a state of panic, and they were all preparing to flee with their entire clans and sects. However, only a few of them managed to

escape, and most of them didn't even have time to escape before a Saint descended and exterminated their entire clan.

When they had besieged the heaven-equal courtyard, more than half of the major forces had come, and countless forces had been destroyed. The forces on planet Dong Ling had welcomed a round of great cleansing.

It took a full 10 days for the cleaning to be completed. The entire situation on planet Dong Ling had changed.

Through this round of cleansing, the heaven-equal courtyard had also collected countless treasures and resources. As long as they opened their gates and recruited disciples, the heaven-equal courtyard would soon flourish again.
