

The Mightiest Little Peasant Chapter 1597

“Palace Master!”

Fairy soft cloud looked at divine ancestor Xuanzang in confusion.

She didn’t understand why the divine ancestor had agreed to this guy’s conditions.

Even if this guy had become a saint, he wouldn’t be a match for the divine ancestor. Even if it was to resolve the conflict, there was no need to give him such a precious treasure!

Green spirit Palace did have a few of the spirit herbs on the list, but they were all top-notch. How could they give them away?

“Give it to him!”

Saint ancestor Xuanzang glanced at her and said in an unquestionable tone.

“Yes!”

Although fairy soft clouds was unwilling, she still nodded and quickly went to the Treasury to retrieve the treasures.

“Take it!”

Saint ancestor Xuanzang threw out the box containing the spiritual herbs. “The grudges between you and me, as well as between you and spirit Jade Palace, will be settled here!”

Tang Hao took it and opened it. “Good!” He nodded in satisfaction.

He didn’t say much. He kept the treasure and turned to leave.

After watching him leave, Saint ancestor xuangang looked at fairy soft clouds and said, “Soft cloud, are you wondering why I gave it to him?”

“Palace Master, those are all top-notch spiritual herbs,” said soft cloud. “Two of them were left behind by our ancestor. How can we let him have it!”

Saint ancestor Xuanzang smiled bitterly and said, “Do you think I want to? But we have no choice! Do you know how strong he is now?”

“What?” soft cloud was startled. “Didn’t he just advance to the sage realm not long ago? how can he be a match for you, Palace Master?”

Saint ancestor Xuanzang shook his head and smiled bitterly. “Do you know that two months ago, kill Saint sect master and the Dao master of void space returned from planet Dong Ling with heavy injuries ...?”

“This ... I don’t know. But what does this have to do with him?”

Soft cloud asked, puzzled.

“Woof! They went to planet Dong Ling to deal with that kid, but they ran back in such a sorry state. What do you think this means?” Saint ancestor Xuanzang said.

“Could he be the one who injured the two divine ancestors?”

“What?” soft cloud’s beautiful eyes widened in disbelief.

She couldn’t believe that a Saint who had just become a saint could deal with two old saints!

“It’s him!”

“Yes.” Saint ancestor Xuanzang said, “I sensed that his realm is higher than mine. It is simply unfathomable! Moreover, didn’t you notice that the clothes on his body are treasured clothes of the fourth tribulation!”

“It can’t be!”

Fairy soft clouds cried out in a low voice as her delicate body trembled.

His cultivation level was actually higher than the palace master ‘s? How could this be possible?

Saint ancestor Xuanzang looked ahead and sighed. “He’s only in his forties, yet he’s already so accomplished. He’s truly a monster. Even I’m a little jealous of him!”

“Sooner or later, the starry sky won’t be able to hold him. The 33 heavens are the place he should go!”

“Thirty-three heavens?”

Fairy soft cloud’s body trembled again.

The thirty-three heavens was a legendary place that was far above this starry sky. It was also a place that all cultivators dreamed of.

In the rumors, the 33 heavens were like a Fairyland, making people yearn for it.

“The Grand ceremony of blood source is coming soon,” Saint ancestor xuangang said. “People like you who have become Immortals still have a chance. So, don’t be in a hurry to become a mortal. Just wait! If you’re selected, your future will be boundless. ”

“However, it’s much more difficult for Saints like me and him to go to the 33 heavens!”

With that, she sighed softly and walked away with some melancholy.

After leaving green spirit Palace, Tang Hao went to the heavenly Academy.

More than ten years ago, he had destroyed Luo Tianjun's physical body in the alchemy saint's cave abode. Only his divine soul and immortal abode had escaped. Now, he had a new physical body. He was shocked to see Tang Hao.

Tang Hao did not waste any time. He just passed the list to her.

"Here!"

After the heavenly book Academy's headmaster came out, he looked at the list and agreed very decisively.

"It's a misunderstanding, Daoist Tang! It was all a misunderstanding! It was the heavenly Academy's fault in the past. We hope that fellow cultivator tang can forgive us if we have offended you in any way! Come on in, fellow Daoist Tang!"

The heavenly Academy's Academy master was very friendly. He invited Tang Hao to take a seat inside.

"Daoist Tang is so young, yet you're already so powerful. I'm ashamed of myself!"

"Fellow cultivator Tang, do you think these things are not enough? It's too little, I'll add a bit more as an apology to you! Aiya! Fellow Daoist, why are you being so polite? come, come, come, take them all!"

The heavenly Academy master flattered Tang Hao as he shoved more treasures into his arms.

He was also a smart person and had long heard about Donglin's matters from kill Saint sect. That was why he was so polite to this person and even had some thoughts of befriending him and winning him over.

Tang Hao could see that too.

"Aiya! Fellow Daoist, you're too kind. How can I accept this?"

"Al! You're so enthusiastic that I'm embarrassed not to take it, so I'll reluctantly accept it!"

Tang Hao's hands were tired from collecting treasures. The Academy master had stuffed all kinds of tribulation weapons and mystical materials into his hands the other day as if they were free.

The heavenly Academy's Academy master welcomed Tang Hao warmly before letting him go.

"This old man is not bad, he knows how to conduct himself."

Tang Hao left with a bunch of treasures in his arms.

Then, he went to many other sects, such as the blood spirit sect and the green clan. He scared the blood patriarch and the Green Patriarch out of their wits and almost ran away with their entire clan.

After going around the factions, Tang Hao managed to collect two more spirit herbs from the pill recipe.

He searched the North Star again and found another one.

He did some calculations. He had obtained five from the Dao of void, four from the killing sacred sect, three from the heavenly Academy and the Jade Spirit Palace. Adding on the two from the other superpowers and the last one he found, he had a total of 18.

On the way here, he found another one, which made a total of 19.

There were only 11 types left to collect.

Tang Hao was quite satisfied with the progress.

“Next, I have to go to the West Sea.”

Tang Hao left Beichen and headed toward the West Sea.

The West Ocean astral was the most special of the five astral realms. It was filled with monks, temples, and ancient temples. It was an exotic place. When Tang Hao arrived at the West Ocean Star, he saw that most of the people there were bald. They were wearing all kinds of golden Kasaya, which dazzled his eyes.

Tang Hao strolled around West Sea star. He was lucky enough to collect two spiritual herbs from the recipe.

“Nine left! It’s almost there!”

After leaving West Ocean Star, Tang Hao headed to South parting astral world. He planned to go to South parting astral world first, then head to the central astral world.

After half a month, he arrived at South li star field.

After visiting a few cultivation planets, he heard a piece of news. It was said that on planet South li, a treasure was shining brightly, as if some kind of peerless treasure had appeared.
