

## The Mightiest Little Peasant Chapter 1626

In the sky, the Golden Dragon quickly flew away.

“I didn’t expect that there would be a time when he would be second!”

Many people sighed.

Their impression of Marquis Wutian was that he was always first in everything he did. They did not expect him to be defeated this time and only get second.

“This is normal! Marquis Wutian is still young. How can he be compared to the old monster? he’s so young and already has such achievements. In a few years, he’ll surpass this immortal venerable Tang.”

“That’s right!”

However, they soon felt relieved.

It wasn’t that Marquis Wutian wasn’t strong enough, it was just that he was too young. It was normal for him to lose when he encountered a hidden old monster.

Marquis Wutian was the pride of the central sacred planet!

The square was in an uproar for a long time before it finally dispersed.

Tang Hao stayed behind and was invited into the pill tower by the hall Master.

He sat opposite the hall Master and began to chat.

“A Supreme Spirit pill. Venerable Tang has won first place this time. You deserve it. I’m also impressed. May I know which sect’s alchemy technique venerable Tang is cultivating?”

“Not really. I’m quite involved in a wide range of sects.” Tang Hao smiled.

“I see!”

The palace Master smiled, and after a moment of silence, he asked, “I wonder how old is venerable Tang this year?”

However, he was a little confused. He had taken first place on the plants and vegetation ranking, grown more than 2.5 million plants, and had such amazing alchemy skills. No matter how he looked at it, he was an old monster.

However, they had clearly measured his age during the registration. The mirror of his pill Palace was not so easy to deceive.

At least, as far as he knew, it had not been wrong so far.

But he couldn't believe that this man was really only in his forties. Wasn't he even more monstrous than Wu Tian?

He must have used some method to deceive the mirror. This wasn't impossible. After all, he was a Saint with remarkable abilities.

"Would you believe me if I told you that I'm only in my forties, Hall Master?" Tang Hao said with a smile.

The palace Master was stunned, and then he was greatly shocked, and his heart was in turmoil.

Could this be true?

That would be too shocking!

While he was still in shock, Tang Hao smiled and waved his hand. "I'm just joking. Hall Master, don't be nervous."

The palace Master was stunned for a moment before he suddenly laughed bitterly. "Master immortal Tang, you've gone too far! Alright, let's not talk about this anymore. Let's talk about alchemy and Exchange our knowledge. By the way, are you interested in the Scripture library of my pill Palace? I can take you there."

"Sutra library?" Tang Hao shook his head. "I'm more interested in your treasure Pavilion!"

"Oh? Are you looking for some spirit herbs, master immortal Tang?" The palace Master said in surprise.

"Have you heard of the fruit of fortune, Hall Master?" Tang Hao nodded.

"The fruit of fortune?" The palace Master frowned and a look of surprise appeared on his face. "How could I not have heard of such a divine item ... Venerable Tang, you may be disappointed. Although my alchemy Palace has a rich collection, we don't have such a divine item. As far as I know, this item has not appeared for thousands of years."

Tang Hao was a little disappointed.

He had originally thought that since the elixir Hall had divine medicine, there was a high possibility that the creation fruit would be there. However, he had not expected that it would be for nothing.

"Then, Palace Master, do you know where I can find the clues to the nature fruit?"

Tang Hao asked again.

"This ... Let me think."

The temple master frowned and pondered. After a moment, he said hesitantly, "speaking of clues, there is one, but I don't know if it's accurate. It's all hearsay! Venerable Tang, do you know of the Supreme star ruins?"

“I’ve heard of it!”

Tang Hao nodded.

He had stayed on the central sacred planet for some time and had learned a lot about the situation.

The Supreme star ruins was a well-known dangerous place. However, it was not on the sacred planet, but in the starry sky. It was said to be extremely dangerous, but there were many treasures inside, which attracted countless people to search for them.

“There’s a fruit of fortune inside?”

The temple master nodded and said, “this happened many years ago. Someone entered the depths of the star ruins. When he came out, he claimed that there was a Divine Tree inside. According to his description, it looked very similar to the creation fruit tree.”

“However, this is just a guess. We can’t be sure if it’s the creation fruit tree. Many people went in later, but they didn’t find it, so the rumor has been left unsettled.”

“If it wasn’t for your cultivation base, I wouldn’t have told you. The depths of the star ruins are extremely dangerous, and even Saints have the risk of dying there. If you’re going, you must be careful.”

“Please rest assured, Hall Master.”

“Thank you,” Tang Hao said.

After chatting with the temple master for a while, Tang Hao followed him to the Scripture chamber and the treasure chamber. He exchanged his spirit herbs for some useful pill Scriptures and some spirit herbs that he was lacking.

Then, he bade farewell to the hall Master and left the pill tower.

He didn’t immediately return to the cave dwelling, but went to find his Masters. He had already found this group of Masters in the crowd.

After gathering with his Masters, he returned to his cave abode and immediately took out the godly medicine.

This stalk of divine medicine was different from ordinary precious medicine. It didn’t have the appearance of a baby, but rather like some kind of auspicious beast. It was shaped like a Qilin, and it emitted a resplendent divine light, with a dense immortal Qi overflowing.

“Lingzhi!”

Tang Hao recognized the type of divine herb.

Lingzhi could be seen everywhere, but those that could become divine medicine were hard to find.

He pondered for a moment and decided not to consume it directly as that would be too wasteful. He concocted a pill formula, took out the pill cauldron, refined it into a pill, and then consumed it.

As soon as the pill entered his stomach, a surge of celestial Qi spread out and surged in his body. After absorbing and transforming it, it turned into pure celestial core power and poured into his dantian's sea of Dao.

His cultivation level rose steadily, and the aura around him soared.

"Just a little bit more!"

After the absorption, he was still a little bit away from perfection.

"It's all because this immortal mansion absorbed a lot of celestial core power. Otherwise, I would have reached perfection long ago!"

Tang Hao smiled wryly.

However, he wasn't in a hurry. He wasn't far from perfection, and he would be able to reach it after a few more opportunities.

After getting used to it, he got up and went to find out the general location of the star ruins.

Then, he left pill cliff city and headed for the starry ruins.

It was said that the Supreme star ruins was a ruin left behind by a Shattered Star in the ancient times. That star was called the Supreme star and was very famous in the ancient times. There was a force on it called the Supreme path.

The entire planet was Taishang sect's territory.

Taishang Dao was an ancient Overlord-level force. It was extremely powerful and naturally had countless treasures. After the star shattered, these treasures were all buried in the ruins.

Nowadays, there were many people entering the star ruins every year, and they would make some discoveries every time.

However, they only dared to explore the periphery and didn't dare to go deep. Danger lurked everywhere in the depths of the star ruins, and even Saints didn't dare to step in rashly. Many saints had gone in and returned with serious injuries.

Tang Hao traveled at full speed. He was close to the Supreme star ruins in two days.
