

## The Mightiest Little Peasant Chapter 1630

The warship continued to advance, going deeper and deeper.

Gradually, they began to feel a little strained. They were constantly in danger, and the large ship was also starting to take damage.

“Advance! Continue forward!” The green-robed young master shouted and continued to drive the ship deeper in.

Tang Hao stood at the bow of the ship and watched quietly.

He was going to the depths anyway, so it was on the way.

From time to time, he would turn around to look. The flame immortal was standing not far away from him, but there were many people between the two of them. Whenever Tang Hao changed positions, these people would follow him. They seemed to be preventing the two of them from communicating.

“Swish!”

Tang Hao laughed in his heart. He wanted to see what these people had up their sleeves.

“Look! There’s an intact Palace there!”

“There’s a treasure light over there!”

As they went deeper and deeper, they gradually saw some unexplored debris of the stars.

Tang Hao realized that flame immortal and a few other elders would always be the first to take the lead. The others would only follow after it was safe to plunder the treasures.

“Five tribulation artifacts already! We’ve earned big this time!”

“Hahaha! Let’s keep going. The treasures of the Taishang sect all belong to our tai-Shu family. ”

With the continuous gains, this group of people became more enthusiastic and bold.

Under the stimulation of these tribulation weapons, they had all lost their minds and continued to venture deeper.

“Young master, we can’t hold on any longer. We can’t go any deeper. That’s the deepest part. The fragments are dense, and there are restrictions and formations everywhere. It’s too dangerous!”

An elder tried to persuade him.

The green-robed young master shook his head resolutely, “the best treasures are only found in the deepest part. This time, I must find the real Taishang Dao’s Supreme treasure! Advance!”

The warship continued to move deeper.

At this point, the fragments became more and more dense, filled with broken restrictions and cracks in the starry sky. Some fragments were big enough to pull some small fragments around, forming a ring.

These fragments were also the most dangerous.

BOOM!

From time to time, fragments would hit the ship and shake it violently.

“Hold on!”

The green-robed young master gritted his teeth and shouted.

After a series of bumps and bumps, the warship still managed to drive in.

“Look, there’s light over there!”

After looking around for a while, a spot of light appeared in the distance.

The warship immediately sailed over. When they got closer, they saw that it was a tree, and its entire body was blooming with brilliant brilliance.

“It’s a tree!”

Everyone in the Tai-Shu family was stunned. They had thought it was some kind of tribulation weapon, but it was just a tree.

“This ... Could this be ...”

An old man seemed to have recognized him and was so excited that he was incoherent, “congratulations, young master! Congratulations, young master! This is a Supreme Divine Tree, the legendary Divine Tree of fate!”

“What? Was this the legendary divine wood of creation? Could that fruit be the divine fruit of creation?”

The people of the Tai-Shu family were all stunned and in disbelief.

Then, they were so excited that they almost went crazy.

Divine fruit of creation!

That was a Supreme divine item! It was said that it had been extinct for thousands of years. He didn’t expect to see one here!

“This is unbelievable!”

“Hahaha! I’m really rich this time!”

They were overjoyed and kept shouting.

The green-robed young master was so excited that his entire body was trembling. He couldn’t help but laugh out loud. He was extremely carefree.

“Young master, this Divine Tree has been discovered by someone a long time ago. After that, countless people have also come in to search for it, but none of them have found it. This time, we were able to find it successfully because of the blessings of the heavens! It’s young master’s luck!”

The old men immediately started to flatter him.

The green-robed young master became more and more complacent. He was even a little smug.

“It’s really the divine wood of creation!”

Tang Hao’s eyes glowed with eagerness.

He had been searching for the divine Tree of fate for so long, and he had finally found it today.

There was only one fruit on the tree, but this wasn’t a problem. He had the celestial water, which could speed up the bearing of fruits. He believed that he would be able to bear a batch of creation fruits soon, and at that time, he could start to refine the creation divine pill.

After a long time, the people on the ship calmed down. After carefully examining it, their faces became serious.

Although the creation divine wood was good, it was not so easy to get it.

The fragment of the star was not big, but it was surrounded by restrictions, and there were also many dark cracks in the starry sky that surrounded it.

“No wonder. Someone discovered it before, but they didn’t manage to obtain it!”

Everyone came to a sudden realization.

This fragment was too dangerous, and it was likely that they would die if they tried to barge in.

An elder in the great circle of the immortal realm used his spiritual eyes to examine the area carefully. He then said, “Young master, it’s not like there’s no other way. You see, these restrictive spells are not complete. There are still some cracks left. As long as we are careful, we can break in.”

The green-robed young master pondered for a moment, then turned to look at someone and shouted, “Elder Qing, you go first and bring me that Divine Tree of fate!”

The elder’s face changed and turned pale.

This situation was different from the previous ones. It was a close call.

Seeing his hesitation, the master in Green's face darkened and he shouted, "Are you deaf? Go over there!"

"Elder Qing, don't forget who you are. It should be your honor to be able to serve the young master. Don't worry. If you successfully bring back the creation divine wood, the young master will definitely reward you."

One of the Grand Perfection elders shouted.

Elder Qing struggled for a moment before giving in. She took out all kinds of defensive treasures and flew out of the ship.

He was very careful and dodged all the way to avoid the cracks in the starry sky. At the same time, he used his spiritual eye to check the positions of the restrictions and arrays.

He kept going deeper and deeper, and soon he was close to the fragment.

But suddenly, with a bang, he came into contact with a restriction, and a ball of fire exploded. Although he wasn't killed, he was also sent flying. In an instant, he was swallowed up by a crack, and there was no trace of him.

The people on the ship were stunned, and they all sighed with regret.

And looking at their expressions, there was no sadness at all.

"Hmph! Trash!" "F \* ck!" The green-robed young master cursed and turned to the other elder, "elder Yun, it's your turn."

Elder Yun's face was pale and he was a little timid.

"Still not going!"

The green-robed young master roared.

Elder Yun struggled for a while, but he still flew up. This time, before he could get close to the fragment, he touched some kind of restriction and instantly turned into dust.

"Motherf \* cker! Another piece of trash! You, go!"

The green-robed young master was getting angrier and angrier. He pointed at another person.

The next few failed. They were either killed by the restriction or swallowed by the crack.

"Trash! Trash! You're all F \* cking useless!" The young man in green cursed. He turned around and pointed at Yan Xian, "Elder li, it's your turn."
