

The Mightiest Little Peasant Chapter 1662

"You little brat, you sure talk big! You even think that the second tribulation divine bow is weak, what else do you want?" The elder glared at him and said in a bad mood.

"However, you don't say, there really was such a thing in the past!" But then, his tone changed and he started to reminisce.

"In the past, our Qiang tribe wasn't weak at all. We had a very powerful treasure. It's a divine arrow that was passed down by our ancestor. I heard that it was obtained when we separated from the main tribe."

Tang Hao was excited when he heard that.

A divine arrow?

That must be one of the three divine arrows of the red bow.

"I didn't expect it to be so smooth!" Tang Hao's heart surged with excitement. He would be able to fight Marquis Wutian and the others once he obtained the divine arrow.

However, the old man's next words sent him back into the abyss.

"That was in the past. Now, this treasure is long gone!"

"No more? What do you mean by that?" Tang Hao was stunned.

"It's gone, it's gone. I threw it away!" That elder spread his hands and said.

Tang Hao was stunned for a long time. His face suddenly twitched. That was a godly arrow! You can even throw this? Were these Xiu clan people all trash?

"How ... How did you lose it?"

"I'm not sure about that. It happened many years ago!" That elder shook his head, "however, we have never given up on finding this divine arrow. All the previous clan leaders have sent people out to search for it."

"Are there any clues?" Tang Hao said.

The elder still shook his head and laughed, "Why are you asking so many questions, you brat? why don't you go back and cultivate properly!"

Tang Hao muttered to himself after he left. If even the most senior elder didn't know, then he wouldn't be able to find any useful information from the Xiu clan.

"What a pity!"

He said in disappointment.

“There should still be some time. Why don’t we go to the other forces on this planet to take a look? maybe we can find out what happened to the che clan that year!” Tang Hao thought for a moment and decided to start with the other factions.

Although they didn’t find the whereabouts of the divine arrow this time, they were certain that this was a descendant of the Xiu clan. They were even certain that there was a divine arrow left in this starry sky. This was already a great harvest.

He released his split soul and scattered it in all directions. Due to the lack of time, he was too lazy to investigate. He directly found the strongest old monsters and used the soul-searching technique to search their memories to find the whereabouts of the divine arrow.

Soon, he found out that the divine arrow was lost more than 5000 years ago. At that time, the che clan was quite powerful and was one of the top forces on this planet. However, at that time, the che clan was too powerful and was besieged by several other forces.

Back then, the clan leader had fought fiercely with the Masters of the other major forces and entered the starry sky. He had never returned, and the divine arrow had also been lost.

Of course, the leaders of the other forces did not return.

It was also after that battle that the che clan declined.

“The immortal astral land!”

It was said that the place where those few people fought was the immortal astral land, the most famous forbidden land in this star field. After they entered, they never came out again.

“Could the godly arrow be in there?”

Tang Hao asked about the situation in the immortal astral land and was a little hesitant.

This place was called the fairy book for a reason. It meant that even a true immortal would die inside. One could imagine how dangerous it was.

In the past, Tang Hao would not be afraid at all, but he was severely injured now. His strength had been greatly reduced, and it was very risky to go in.

“Let’s go all out!”

Tang Hao gritted his teeth and rushed toward the immortal astral land.

This land of extremis was in the starry sky and was similar to the Supreme star ruins. It was filled with Broken Star pieces. It was said that it was not a Broken Star piece, but an entire star field that was destroyed, forming this land of extremis.

Tang Hao rushed in without hesitation and began to search for the divine arrow.

Just as he entered, Emperor Chu and the others arrived on planet Cang Ling.

“What is this place?” The Chu Emperor said doubtfully as he sized up the star below.

For so many days, that brat had never stopped. He had been on the run the entire time, only stopping here for a moment. Could it be that his goal was this star?

He looked around and shook his head. He felt that this idea was ridiculous. This was just an unremarkable Little Star. What could it have to attract that kid?

“He’s not here anymore!” Marquis Wutian fiddled with the Emperor Yan mirror and pointed in the direction of the starry sky.

Following the directions of the mirror, they flew all the way and arrived in front of the immortal astral land.

“This place ... Is not ordinary!”

Looking at the ruins in front of them, the old monsters’ expressions changed.

“I don’t think we should rush in. Let’s first investigate what this place is.” The Chu Emperor said.

He scouted around and found a person to ask about the situation of the immortal astral land.

The Chu Emperor laughed mockingly. “It seems that the boy wants to hide inside and recover from his injuries.”

“Woof! This kid is also naive. Does he really think we don’t dare to go in? If he dares to go in, what are we afraid of?” The old silver Dragon sneered, “hurry up and go in. Catch That Kid and use his flesh and blood to make elixirs.”

“This place ... Is a little strange!”

Marquis Wutian fiddled with the mirror again, and his expression suddenly changed.

“What’s wrong?”

“The mirror can’t detect his exact location. It can only confirm that he’s in here!” Marquis Wutian said, “there must be something very powerful inside that interfered with the mirror. That’s why it can’t detect anything.”

“It’s fine. As long as we can confirm that the kid is inside, it’s fine. We’ll look for him slowly. We don’t have to worry about not finding him.”

Emperor Qi said.

The warship moved slowly and entered the ruins.

After them, beams of light flashed over from the starry sky one after another. When they arrived in front of the ruins, many figures appeared. They were all shining with celestial light and had powerful auras. They were at least in the perfected immortal realm, and there were even many saints.

They were all following Emperor Qi and the others.

After stopping in front of the ruins, they looked forward, and their expressions changed. They had noticed the extraordinariness of the ruins.

However, they only hesitated for a moment before they resolutely charged in. They had already chased after him for so long, so there was no reason for them to retreat here.

Whoosh! Whoosh! Whoosh!

There was a continuous stream of light that gushed into the ruins.

“That’s a Saint!”

“Heavens! What’s going on?”

Beside the ruins, there were many people from this star field. When they saw this scene, they were all greatly shocked. The brilliant celestial light was too much for their eyes to take in, and some of the auras even made them tremble.

“No, I didn’t! Still nothing!”

Tang Hao dashed over and released his soul consciousness to check the surroundings.

However, he didn’t find any aura of the divine arrow at all.

He turned around and discovered the auras of the Chu Emperor and the others in the distance. They were rapidly approaching him.

Tang Hao was getting more and more anxious.

“Keep looking. If you really can’t find it, leave immediately!”

Tang Hao continued his search. Just as he was on the verge of despair and thought of retreating, he suddenly sensed a faint aura from the ruins ahead.

In an instant, his mind jolted. This was the Chi Arrow’s aura!
