

## The Mightiest Little Peasant Chapter 1691

Tang Hao Ran as fast as he could after he left the valley.

He didn't dare to be careless in the face of a three-tribulation Saint. He ran for seven or eight days. After making sure that the old monster didn't follow him, he stopped and heaved a sigh of relief.

"The Trayastrimsa heaven is truly dangerous!"

Tang Hao sighed. He had just arrived, and he had almost lost his life. If it were not for his strong body and the Nirvana Sutra, he would have really lost his life.

"That old freak actually wanted to refine me into a pill, Hmph! How can it be that easy!"

Tang Hao grunted in disdain.

"Sovereign Gu tuo, right? I'll remember you!"

He turned around to look, a cold and stern expression appearing on his face.

"I'm only at the 2nd tribulation right now, so I'm not a match for the 3rd tribulation. I'll remember this for now, and one day, I'll also refine you into a pill!"

This place was full of spiritual Qi and immortal Qi. The overall cultivation level was high, so it must be full of opportunities. It wouldn't be a problem to break through to the third or even the fourth tribulation. Then it would be time for his revenge.

"The most important thing right now is to absorb the medicinal power and consolidate it. Then, I'll understand the situation on this continent and ask about sis Xiangyi and the others."

Tang Hao pondered for a while and came up with a plan.

Previously, he had swallowed the materials that the old monster had used to refine elixirs. The medicinal power in his body was surging. He had been suppressing it along the way. Now, he had to absorb it as soon as possible. This way, his cultivation level would increase by a lot.

He had to figure out sis Xiangyi's situation as well. Otherwise, he would not be at ease. He also had to figure out the situation on this continent. After all, he had just arrived and did not know anything about the situation here.

He looked around, found a Valley, and set up layers of magical formations.

Then, he released a few more clones and sent them out in all directions to investigate the situation on this mainland and sis Xiangyi and the others.

He sat down cross-legged and began to absorb the medicinal power.

It took him three days to finish absorbing it.

“I’ve earned big this time!”

Tang Hao opened his eyes, his face full of joy. The medicinal power contained in these spirit herbs was beyond his expectations. If he really used the blood and flesh of a Saint as a guide to successfully refine it, it would definitely be an incredible pill.

“That’s true! After all, it’s a pill for a three tribulation Saint!”

Tang Hao thought about it and felt relieved.

“This old monster should be crying now!” Tang Hao chuckled.

This time, the old monster had suffered a huge loss. Not only did he swallow the alchemy materials, but he also took away the spiritual herbs and the thatched cottage.

When he thought of the spirit herbs, he quickly took them out and carefully identified them.

He recognized all of these spiritual herbs, but every one of them seemed to be different from the ones outside. Not only were their medicinal effects different, but even their appearances were slightly different. Their leaves were lush and their bodies were larger.

“It should be because the spiritual Qi here is more abundant!”

Tang Hao guessed.

He sensed for a moment. According to the standard of the central sacred planet’s spirit Qi, this place was four to five times stronger. Moreover, this place was probably not the place with the densest spirit Qi in this mainland.

“Strange!”

Tang Hao was confused when he saw the spirit herbs.

In the starry sky outside, spiritual medicine that was around two thousand years old could become spirits and had the chance to become precious medicine. Those that were over ten thousand years old had the chance to become divine medicine. However, many of them were over a thousand years old here, and there was not a single stalk that showed signs of becoming spirit.

Logically speaking, the spiritual energy here was more abundant, so it should have formed a spirit earlier.

“This ... Perhaps the environment here is different!”

Tang Hao could not figure it out.

“This batch all has immortal Qi. Where did this immortal Qi come from?”

Tang Hao could sense a faint trace of immortal Qi from the blood lotus and blood ginseng.

Only with immortal Qi would these herbs be effective for Saints. Saints could increase their cultivation by consuming these spiritual herbs. This was impossible in the outer space. Only divine herbs and a few spiritual essences were effective for Saints.

“It looks like there are quite a few immortal meridians here!”

Tang Hao thought back to when he was fighting for the spirit herbs. He did sense immortal Qi in the herb field, so there must be an immortal vein there.

In the outer space, immortal veins were extremely rare. There were only a few on planet Dong Ling.

“As expected of the 33 heavens. I think there are many immortal veins, immortal spirits, and immortal crystals here, which are extremely rare outside!” Tang Hao sighed. “No wonder those Saints dream of coming here. It’s indeed a holy place for cultivation!”

After sighing, Tang Hao closed his eyes and contacted his clones.

The clones didn’t go far. They were active around the mountain range, gathering information.

In three days ‘time, they had also found out a lot of useful information.

It turned out that this place was called Pangu continent, and the thirty-three heavens were on top of it. This mountain range, also known as The Fiend Star Mountain, was just a small corner of the vast Pangu continent.

The size of Pangu continent was unfathomable. No one knew how big it was, and countless cultivators lived on it. Unlike the starry sky outside, there were fewer sects here, and more clans.

The clan was the most powerful force. Every family name was a clan.

All the surnames that Tang Hao had heard of could be found here. The Qin clan, the Liu Clan, the Shi clan, the Jiang clan, and of course, the Tang Clan.

“The main clan!”

Tang Hao smiled when he heard about the Tang family.

However, even though they were from the same family, he had no intention of joining them. After all, even though they had the same surname, they were still a bunch of strangers. Tang Hao had no interest in joining them.

Most of the clans had their own territory and had countless clans. These clans were called ancient countries, such as the stone Country, the Jiang country, and so on.

Of course, there were quite a few sects, but they were relatively few.

Most of the forces in this mountain range were sects.

The ceremony of blood source had caused a stir on Pangu continent, and the news had spread to this place. During this period, the people here were still discussing which race had been lucky enough to marry a peerless genius.

“The biggest winner this time will be the Liu Clan! I don’t know what kind of good deeds their ancestors have accumulated, but they actually managed to get two peerless geniuses to come out of it. One is the son of blood, and the other is a Supreme divine body. ”

“Al! This was luck! The Liu Clan is destined to rise to power!”

Many people were discussing the Liu Clan.

The Liu Clan was a Dark Horse in this ceremony of blood source. It had emerged out of nowhere and shocked the entire Pangu continent. Now, many people were paying attention to the Liu Clan.

“This ceremony is really weird. I heard that there were eight to nine geniuses with Supreme divine bodies in the ancestral star. Even the big shots found it unbelievable.”

“I heard that even the higher-ups have been alarmed and sent many people down. I heard that they are very interested in these geniuses.”

They even talked about the ancestral star.

Tang Hao breathed a sigh of relief when he heard the news.

Based on the current news, the clans placed great importance on the geniuses that they had brought over. They would all be nurtured in the future, especially sis Xiangyi and the others. They seemed to have attracted the attention of the 33 heavens above, so they would definitely not be in danger for now.

However, how to find them was a problem.

Now that they were all geniuses of their respective great clans, it would not be so easy for him to take them away. He was only at the second tribulation, and on Pangu continent, it was not uncommon to see people at the third or fourth tribulation.

“The key is still strength!”

If he had the strength, he could go and ask for Gu tuo now. However, with his current strength, he was far from being able to do so. A single Gu tuo had already made him so miserable that he had almost been refined into a pill, let alone the more powerful experts.

“I have to quickly increase my strength!”

Tang Hao’s desire to improve his strength grew even more intense.
