

The Mightiest Little Peasant Chapter 1716

Tang Hao gently cut his finger, squeezed out a drop of blood, and dripped it on the Golden foil.

The blood fell and was immediately absorbed by the Golden foil. Those dense patterns gradually lit up, blooming with a dazzling brilliance.

Then, the patterns transformed into words that lined up in front of Tang Hao's eyes.

Tang Hao quickly scanned through the text.

"As expected of an ancient scripture!"

"Amazing!" Tang Hao exclaimed after he finished reading.

The soul burial Scripture was a secret manual passed down in the ancient soul burial clan. It was said that the soul burial clan had built tombs in ancient times. Many important figures' tombs in ancient times were built by the soul burial clan.

The soul burial clan knew how to build graves, so they naturally knew how to steal and dig. In the soul burial Scripture, there were all sorts of grave secret techniques as well as secret techniques for digging graves.

"Four symbols secret burial technique, nine Dragon coffin ..."

Tang Hao clicked his tongue in wonder as he read the ancient secret techniques of ancient tombs.

Most of the ancient tomb techniques were based on the art of Searching for Dragons and the art of formations. Tang Hao was good at both, so he did not seem to have any problems with them.

Tang Hao was mesmerized by it.

After a long time, he put down the Golden foil in his hand, and the words disappeared.

"Wonderful! This is really wonderful!"

Tang Hao shook his head and praised.

Tang Hao's heart itched when he read the scripture. He wanted to Find A Grave and test it out.

"With this strange Scripture in hand, you can dig any grave. Maybe it's a divine grave or an immortal grave! I can also dig for it. Maybe I can find some immortal treasure or God spirit treasure!" Tang Hao thought about it and felt happy.

"Whoever dares to provoke me, I'll dig up his ancestral grave! He dug up the graves of eighteen generations of his ancestors!"

Tang Hao stood up and said proudly.

The previous generation of Sutras holders specialized in digging up ancestral graves.

Most of those clans had ancestral graves, so if he didn't like any clan in the future, he could go and dig up their ancestral graves.

After spending a few days to fully understand the mysterious Scripture, Tang Hao stood up and left the barren mountain.

"Next ... Where should I go?"

Tang Hao hesitated.

He had been traveling around for some time.

"It's better to find a place, stay there, cultivate, and break through to the third tribulation realm as soon as possible!"

Tang Hao did not want to look for sis Xiangyi and the others just yet. First, they were safe for now, and second, his current strength was still a little low. In the outer space, the second tribulation was the peak, but here, it was nothing.

The myriad spirit sect, for example, was strong enough to dominate the starry sky outside. But on Pangu continent, it was just a small power in a remote corner, and could not be compared with the clans of ancient countries.

No matter how weak a clan was, it was not something a sect like the thousand spirit sect could compare to.

There were many saints who had passed the first or second tribulation here, so they were nothing. Only the Saints who had passed the third tribulation were considered to be on the stage and could be considered to be powerful figures.

A four-tribulation Saint could only be considered a true expert after reaching the infinite longevity realm, and people would respect him.

Naturally, the higher one went, the stronger they would be, but the number of them would also decrease. On Pangu continent, there were not many experts at the fifth or sixth tribulation.

At the seventh and eighth tribulations, they could be called emperors. They were existences as rare as Phoenix Feathers and Qilin horns, and each of them was an unparalleled expert.

As for a ninth tribulation Supreme martial artist, no one knew how many years it had been since he had last appeared.

According to Tang Hao's understanding, the Qin clan and the Han clan were not weak. They both had 4th or 5th tribulation experts. He was only at the 2nd tribulation realm, so he could not get them back even if he went.

Therefore, he decided to go and take a look after the third tribulation.

“I’m almost at the third tribulation!”

Tang Hao made a rough estimation.

Pangu continent was full of natural energy, as well as immortal energy. Although the cultivation speed of Saints was much faster, there were many saints, after all, and immortal energy was also an extremely precious thing, so their cultivation speed could not be too fast.

From the first tribulation to the second tribulation, it would still take more than ten years, or even decades.

However, Tang Hao was different. He had celestial water and celestial energy. He could cultivate spirit herbs with celestial energy and continuously produce nine Lotus pills, which would greatly speed up his cultivation.

Moreover, he had dug out the immortal vein of the thousand spirit sect, which was equivalent to carrying half of the immortal vein with him. He could meditate, cultivate, and absorb immortal Qi wherever he went.

With the two combined, the speed of his cultivation was very impressive, and his cultivation level was skyrocketing.

At this rate, Tang Hao would be able to break through to the third tribulation in two or three months.

Tang Hao continued forward and soon arrived at the center of the ancient wilderness.

After wandering around for a few days, he finally heard of the medicine God mountain.

“The medicine God mountain is amazing. It’s the Holy Land for alchemists in the ancient wilderness! It’s very ancient and has gathered nearly half of the alchemists in the ancient wilderness!”

“The medicine God mountain is different from ordinary factions. It’s a pure Alchemist faction. If you want to, you can go and join the medicine God mountain. However, there seems to be a test. You have to pass it first before you can enter.”

“There are many alchemy Saints on the medicine God mountain. They are all legendary figures in the alchemy world!”

Tang Hao’s interest was piqued when he heard the introduction of the medicine God mountain.

The medicine God mountain was not an ordinary power. It was relatively loose. Furthermore, because everyone was an Alchemist, their status in the ancient wilderness was very high. They were relatively safe and very suitable for cultivation.

“Let’s go to the medicine God mountain!”

Tang Hao made his decision after some consideration.

After asking for the location of the medicine God mountain, he hurried over.

“This ... Is the medicine God mountain?”

When Tang Hao arrived at the medicine God mountain and took a look, he could not help but be shocked.

A vast mountain range appeared before Tang Hao’s eyes. Each of the mountain peaks was incomparably majestic, towering into the clouds. Each of them was at least tens of thousands of feet tall, looking majestic.

In this mountain range, there was dense immortal Qi, and cloud cranes could be seen flying from time to time. It was like a treasured land of immortals.

Because of the immortal Qi, Tang Hao could not see into the depths of the forest. All he could see was misty clouds.

One could only vaguely see the outline of the majestic peaks.

“What a majestic mountain!”

“Amazing!” Tang Hao praised.

He scanned his surroundings and found the entrance to the medicine God mountain. He immediately lowered his body and walked over.

On the road leading to the mountain Gate, there were quite a number of people rushing towards the mountain Gate.

There was a wide square in front of the mountain Gate. Tang Hao found the people of the medicine God mountain and asked them about joining the sect.

“You want to join the medicine God mountain?”

“Show me your pill medallion. Although the medicine God mountain is open to all alchemists, we don’t accept just anyone!”

The man from the medicine God mountain looked Tang Hao up and down, then extended his hand to him.

“A pill token?”

Tang Hao was taken aback. He was not from Pangu continent, so where did he get the pill token from?
