

The Mightiest Little Peasant Chapter 1750

“The Jade on the second floor has been destroyed!”

“Look, the third level is lit up! He’s reached the third level!”

There was an uproar outside.

“How could it be so fast?”

Everyone was even more curious. From the moment the Jade on the second floor lit up to the moment it went out, it had only been half an hour. It was too fast.

“The second level is for planting medicine. It takes time to ripen the seeds. It’s impossible to be so fast!”

The two elders, as well as the alchemists who had gone in, were all extremely puzzled.

No matter what kind of secret technique was used, it seemed impossible to pass through the second level in a short period of time.

“He’s already on the third level. It looks like he’s really master Hao!”

At the same time, they were even more certain.

They had been a little suspicious earlier, but now that this person had made it to the third level, it must be master Hao. No one else from the medicine God mountain could make it to this level.

“How could it be so fast?”

The members of the Yao clan were suspicious as well, and their expressions became grave.

Previously, they had looked down on master Hao and thought that he was just an empty title. But now, it seemed that he really had some ability.

Not a single one of them could pass the second level in a short quarter of an hour.

“Hmph! It seems that this fellow has some skills. However, it’s still wishful thinking to think that he can break this pill Divine Tower!”

They sneered and continued to watch.

“Daoist Tang, can I take a look ...”

On the pill God tower’s third level, the pill God’s incarnation was still thinking about the celestial water.

“I’m looking around!”

Tang Hao was generous. He handed the water bottle over.

It was only an avatar formed from a remnant soul, so Tang Hao had no qualms about it.

“This immortal Qi ... Is unbelievable!” The incarnation sniffed the water bottle and couldn’t help but exclaim.

“Hey! Have you seen enough? what is the test on this level?”

Tang Hao said impatiently after a while.

“Oh! For this level, we won’t be testing on plants and vegetation. We’ll be testing on medicinal theory. It’s the same as the first level, a total of 100 questions. As long as you can answer 60, you’ll pass.” The incarnation of the alchemy God said seriously.

“Pharmacology! That’s simple!”

Tang Hao mumbled.

In the field of Pharmacology, he was still quite good at it.

Seeing his relaxed expression, the alchemy God’s incarnation was a little upset. This guy passed the first two stages too easily, making his test seem very simple. This made him feel a little embarrassed.

“No! We have to stop this guy and not let him get too smug!”

He racked his brains and came up with all kinds of difficult problems, ready to give this guy a show of power.

However, no matter how difficult these questions were, they did not seem to stump this fellow. This fellow was very calm throughout the entire process. Even if he was stumped at times, he could answer them quickly after thinking for a moment.

Moreover, this guy could even infer many things from one fact, and could even say some knowledge that even he didn’t know.

He had originally thought that since this fellow was so skilled in the field of plants and vegetation, he must have put in a lot of effort. Naturally, he would be much weaker in the field of medicine. However, he realized that he was wrong, very wrong.

This guy’s attainments in the Dao of medicine did not lose to the Dao of plants at all.

“Freak! What a freak!”

He was getting more and more frightened.

Tang Hao was very calm. He came from Qiyuan and had read countless alchemy Scriptures in the great void realm. Those were the most ancient alchemy Scriptures. He had always had an advantage in alchemy that others could not reach.

When he answered the 60th question, the incarnation revealed a dejected look.

The 60 questions that he had painstakingly prepared did not even pose a problem to this guy.

“Just how high is this guy’s alchemy skill?”

“Is he really in his fifties?”

He was starting to suspect if he had made a mistake. This guy’s alchemy skills didn’t match his age at all. He didn’t look like a young man in his fifties at all. He was more like an old monster.

With his strength as an old monster, it was naturally as easy as cheating for him to participate in the test of the fifty-year-old level.

“Next round!”

He rose to his feet, his expression disdainful. He flicked his sleeve and brought Tang Hao to the fourth floor.

Seeing the Jade on the fourth floor light up, there was another uproar outside.

“The fourth level!”

“Heavens! That’s fast!”

They were all shocked.

This speed was simply too fast. It was so fast that they were suspicious if the pill God tower had made a mistake.

Other people would take several hours to pass a stage, but this person only took an hour at most, so fast that it was somewhat unbelievable.

“It must be master Hao!”

“Master Hao is too amazing!”

Everyone from the medicine God mountain had a change in attitude. They had previously despised this Tang fellow and refused to believe that he was master Hao, but now they were all excited and began to flatter him.

The Yao clan members’ expressions became more and more grave.

Yao Kong Xuan’s face was ashen and extremely gloomy.

“The third level is on medicinal theory. For him to be so fast, it shows that his theoretical knowledge is very strong. However, the fourth level is different. It tests the speed of pill refining. The grades of those pills aren’t low, so the fastest it will take is at least two to four hours!”

He snorted.

“That’s right. It’s just strong in theory. There’s nothing amazing about it.”

The members of the Yao clan agreed.

However, to their shock, in less than an hour, the Jade on the fourth level was extinguished, and the fifth level lit up.

“We’ve passed! We’ve passed!”

The square was in an uproar.

Everyone from the medicine God mountain was extremely excited.

“As expected of master Hao!”

They shouted fanatically.

The faces of the members of the Yao clan turned black and they were extremely embarrassed. At the same time, they were extremely shocked. From the first stage to the fifth stage, this fellow had maintained a shocking speed. It was truly unbelievable.

They didn’t dare to make a sound for fear of being slapped in the face again.

“This master Hao is really amazing!”

“Not long after, another alchemy Saint will appear!”

The two elders of the medicine God mountain laughed in joy and praised him.

Master Hao was a member of the medicine God mountain. The more impressive he was, the more face he would bring to the medicine God mountain. When they looked at the faces of the Yao clan members, they were secretly pleased.

“The fourth level tests one’s speed, while the fifth level tests one’s quantity. I don’t think there’s any problem with this master Hao!”

Grandmaster pill fanatic said excitedly.

Grandmaster Hao’s Foundation was very solid. He had once concocted over nine thousand Vermilion Bird pills in half a month. Whether it was speed or quantity, there was no problem at all.

As expected, after an hour, the Jade on the fifth floor was extinguished, and the sixth floor lit up.

The atmosphere in the square was getting more and more heated.

“How did he make it to the sixth stage?”

The members of the Yao clan found it even more unbelievable. This Grandmaster Hao wasn't some young monster. He should be quite old. The test he would face after entering would be even more difficult. It was already very difficult for him to reach the fourth or fifth level. Now, he had actually reached the sixth level and his speed was shocking!

“Could it be ... He's a young monster?”

They couldn't help but be suspicious.

But when he thought about it carefully, there was no other alchemy prodigy in the ancient desolate alchemy world other than Grandmaster dan Kuang. There was no such person in the other desolate lands.

Moreover, if he was really a monster, with his speed, wouldn't he surpass the Holy Son of the Yao clan?

How could there be an alchemy genius on Pangu continent who was more powerful than him?

Just as they were feeling suspicious, not long after, the Jade on the sixth floor was extinguished, and the seventh floor lit up.

The atmosphere in the square was once again boiling.
