

The Mightiest Little Peasant Chapter 1804

“Where? Where!”

Tang Hao said as he cupped his hands.

If he wanted to enter the immortal graveyard, he had to rely on the help of this group of 5th tribulation Almighty. Otherwise, even if he had the ability to break formations, he would not be able to break through the many restrictive formations in the immortal graveyard.

“Sect fellow Shi! Let’s go!”

The old man from the Zhong clan shouted and led Tang Hao forward.

“Al! Bai ‘er, hurry over and meet this senior Shi!” He glanced and saw his own Saint son at the side. He waved and called out.

“Junior Zhong Bai greets senior Shi!”

Zhong Bai hurriedly stepped forward and bowed respectfully.

“This is the Saint of your Zhong clan!” Tang Hao put on the air of an old senior and said, “natural God’s bones! Not bad! Not bad!”

“Senior is too kind!”

Zhong Bai said humbly.

“Young man, why are you being so humble?” Tang Hao laughed heartily. He acted like a senior and took advantage of the situation.

“Hey! Sect fellow Shi! What’s the Zhong clan’s Holy Son? he’s not as powerful as my Shen clan’s Holy Son!” The old man from the Shen family was indignant and quickly called his saint over.

“Tsk! How can the Holy Sons of your clans be compared to my Yao clan!”

The group of old monsters couldn’t help but call out for their Holy Son, wanting to compete.

“Junior Yao Kong Xuan greets senior!”

“Junior Qin Shijie greets senior!”

The group of Saint children all came forward and saluted respectfully.

“Aiya! No need to be so polite!”

“You’re too polite!”

Tang Hao declined the offer, but he was actually smiling in his heart.

After a while, everyone moved forward. A group of five tribulations Almightyies was in the front, protecting a group of array Masters. Behind them were a group of Holy Sons and people from the major clans. Finally, there were people from the sects and idle cultivators.

“I’ve observed it just now. This formation is quite powerful. If we want to break in, we’ll definitely suffer heavy losses.”

Tang Hao said as he pointed ahead.

Hearing this, the faces of the group of 5th tribulation Almightyies all changed slightly, revealing a bit of seriousness.

From master Shi’s tone, this array was not just an ordinary powerful one.

“This array is indeed extremely dangerous!”

The group of array Masters stroked their beards and agreed.

They weren’t bad, so they could naturally tell.

“Sect fellow Shi, is this formation even more powerful than the killing tribulation of time and the killing tribulation of five elements?”

The old man said.

“Naturally!” Tang Hao nodded. “They’re not even on the same level. This formation is the real killing formation! Take a closer look, do you see anything?”

The group of mighty figures looked forward to make some inquiries. Most of them looked confused, and then they all looked at Tang Hao.

“Sect fellow Shi, please enlighten me!”

Tang Hao smiled and pointed ahead. “Can’t you see that this place is the center of the immortal Meridian? This array borrows the power of the immortal Meridian, and the immortal Qi is endless. It is extremely powerful!”

“What? Immortal Meridian?”

The mighty figures were all shocked.

If it could borrow the power of the immortal Meridian, then the power of this array must be extremely terrifying.

Those array Masters were also shocked. They all looked around and revealed shocked expressions.

“As expected of senior Shi. You have sharp eyes! You saw it right away!”

They all exclaimed in admiration, their faces full of respect.

Immortal veins were not that easy to explore. Just now, they could not see it, but this senior Shi could easily explore it. This kind of ability really made them admire him.

“Everyone, there’s no need to panic!” Tang Hao smiled. “Although this formation borrows the power of the immortal Meridian, it’s only a borrowing. As long as you cut off its connection with the immortal Meridian, it can be easily broken.”

“This formation is different from ordinary formations. Ordinary formations only have one formation eye, but this formation has twelve. We just need to break these twelve formation eyes. The first formation eye is over there, and the second one is over there ...”

He raised his hand and pointed in all directions as he spoke calmly.

The grandmasters were left speechless again, finding it hard to believe.

The eye of a formation was the most important position of a formation. To break the formation, one had to break the eye of the formation. Therefore, most formations would try their best to hide the location of the eye of the formation.

If they wanted to break the array, they would have to spend a lot of effort to find the array eye, but this senior Shi had found the array eye so quickly.

“Senior, this ...”

Many of the grandmasters revealed looks of suspicion.

“What’s wrong? Don’t believe? Then you can follow the seniors and take these 12 spots!” Tang Hao said.

“Alright!”

They hesitated for a while, then gritted their teeth and said resolutely.

The group of fifth tribulation Almighties discussed for a while and also said, “Since sect fellow Shi is so sure, then let’s go and have a look!”

They split into 12 teams, each with a few Masters. Then, they each took out their immortal mansions and various treasures, and forced their way into the formation.

As soon as they entered the formation, sword lights flooded over. Each sword light exuded a shocking evil Qi.

Boom! Boom! Boom!

Immediately after, a deafening roar was heard.

The twelve teams split up and rushed in all directions.

The people who remained in the same place all revealed nervous expressions.

After waiting for about ten minutes, there was still a roar inside. There was no change in the formation, and the crowd began to stir.

“It can’t be a mistake, right?”

“I told you, how could you see the eye of the formation before you even entered the formation?”

Everyone was a little suspicious.

To be able to easily tell where the eye of the formation was before even entering the formation and personally investigating it was like a fantasy to them. It was too unbelievable.

Tang Hao stood where he was, his expression calm.

As time passed, the crowd became noisier.

At this moment, a loud explosion suddenly came from the array, like thunder. Then, the power of the array suddenly weakened.

“Eh? What’s going on?”

“Its power has weakened! Could it be that the formation core has been broken?”

Everyone was bewildered.

Before they could come to their senses, there was another boom, and the power of the formation weakened again. The sword light in the formation shrank a lot, and even the murderous aura on it weakened a lot.

“It’s broken! It’s really broken!”

After being stunned for a while, the crowd finally reacted and burst into an earth-shattering uproar.

Everyone was overjoyed, and their expressions were even more shocked.

Master Shi was right!

“He’s really right!”

“Heavens! This is unbelievable!”

Everyone exclaimed in surprise.

“It’s actually true!”

“This master Shi’s attainments in the array Dao have reached the acme of perfection. He’s truly an extraordinary expert!”

The group of Holy Sons were also somewhat amazed, especially the Holy Sons from the Baili clan who were good at arrays. They were even more shocked. They knew how high Master Shi’s array Dao was.

To be able to reach this stage, not only did one need to have extremely deep attainments, but one also needed a wealth of experience. In their clan, even those old ancestors were probably not so good!
