

## The Mightiest Little Peasant Chapter 1889

In the desolate north.

Above the sea of clouds, a giant ship cut through the clouds and traveled at high speed.

At the bow of the ship, many figures stood still.

Tang Hao and Zao Huazi stood side by side and looked into the distance. His gaze pierced through the clouds and over tens of millions of miles to see the mountain range at the end of the earth.

“Tianluo mountain range ... We’ve arrived!”

Tang Hao said as he pointed ahead.

“I hope it’s not a wasted trip!” Said Zao huazi with a bitter smile as he looked forward.

It had already been five to six days since they left the sect. They had explored quite a few dangerous places, but they had almost all returned empty-handed.

“Little friend Tang, the name list you mentioned, it can’t be wrong, right?”

An old man with a white beard standing next to Zao huazi turned around and looked at Tang Hao.

This person’s Daoist name was Yun Qing and he was one of the two Grand elders of the sect. His cultivation was also at the 6th tribulation.

This time, in order to find the opportunity, almost all the high-level Saints of the creation sect had moved out, leaving only one grand Elder to guard the mountain Gate. Thus, they couldn’t help but be a little anxious after not finding anything for several days.

“Senior, don’t worry!”

Tang Hao smiled. “I devoured patriarch black sky’s primordial spirit and obtained this name list from his memory. I’ve found many opportunities with this name list.”

The beggar pondered for a moment, then nodded and said, “That’s true. After all, it’s been too long. There are bound to be some variables.”

“Yes, yes! Don’t be discouraged, just keep looking. There are still many places on the list. As long as we are lucky once, it will be enough. It is something that even an ancient giant like ancestor black sky is after, it is definitely a good treasure!”

Elder floating cloud chimed in.

Only then did everyone become much more excited and continued on their way.

After a short while, the giant ship landed and stopped above the mountain range below.

“According to ancestor black sky’s memory, in the ancient times, there was a super force in this mountain range called the Tian Luo sect. It was powerful and was the Overlord of a region.”

Tang Hao looked around as he introduced.

“What we’re looking for is the ruins of the Tian Luo sect!”

The beggar frowned and said, “I’ve never heard of this Tian Luo sect, but the Tian Luo mountain is quite famous in the beihuang region. There are many fierce beasts in it, and some people have even witnessed it. There are many terrifying descendants of the prehistorical era in it. Ordinary cultivators don’t dare to enter.”

“Bai Ze, Jin Lu, and the Golden Lion race ... These powerful bloodlines of the primeval era can all be found in this mountain range. It is a primeval world inside.” Fu Yunzi’s expression turned grave as he spoke.

The ancient bloodline was different from normal beasts. They were born with powerful abilities that were many times stronger than cultivators of the same level. Normal cultivators didn’t dare to provoke them.

“I naturally know!” Tang Hao said with a smile.

He had been here before when he was traveling in the desolate north. However, there were too many ferocious beasts inside and they were too powerful. It was difficult for him to enter alone. He only walked around the outer area and left.

Now that he had a group of 5th tribulation and 6th tribulation saints following him, Tang Hao was full of confidence.

“Let’s go! Although it’s dangerous inside, we have so many people, so we’re not afraid!” Said Yun Tianzi.

“It is! What’s there to be afraid of! There are so many of us here, those beasts should be the ones afraid!”

“Those beasts are also treasures! If we can kill a few, then this trip will not be in vain!”

All the elders were excited.

In the eyes of xiuzhe, vicious beasts were treasures. Their entire bodies were treasures. The inner core could be added into the core, and their flesh could be eaten to increase cultivation. Many vicious beasts also had materials that were top grade for forging.

Especially those descendants of the great wilderness, they were all rare treasures.

Tang Hao smiled. “Other than the tianluo ruins, we’re also here for these beasts. If we encounter them later, please be careful. It’ll be best if we can capture them alive. If not, we’ll try to keep their bodies intact.”

When the elders heard this, they were stunned.

“Captured alive? Master Tang, what are you doing?”

They were all a little puzzled. Usually, when they caught ferocious beasts, they would slaughter them, take their inner cores, and then eat their flesh.

“Concoct the pill!”

Tang Hao enunciated every word.

Everyone couldn't help but be even more puzzled. If it was alchemy, why didn't they just take the inner core? why did they have to capture it alive?

“You'll know soon!” Tang Hao smiled but did not explain.

As they spoke, the warship had already entered the mountain range. It slowed down and sailed at a constant speed.

The fog in the mountains was thick, and the mist changed, making it seem ethereal.

Everyone on the ship became alert and released their divine senses to observe the movements in all directions.

After a while, they encountered the first beast. It was a giant black ape that was hundreds of feet tall. It was as tall as a mountain, with blood-red eyes and a crazy and brutal aura.

In his hand, he was holding a giant stick.

“It's the sixth tribulation!”

“Quickly retreat!”

Everyone on the ship was shocked. This was a 6th tribulation beast, and ordinary 6th tribulation saints were no match for it.

Immediately, the warship retreated at full speed, while creation master and Yun qingzi rushed out to meet the giant ape.

After all, Zao huaizi was the master of a sect and was not comparable to an ordinary 6th tribulation expert. Therefore, he was not afraid of this 6th tribulation giant ape.

“Bastard! Eat my seal!”

He shouted and waved his sleeve. A golden light shot into the sky and turned into a small seal.

The seal expanded in the wind and shone with divine light. There was even a true Dragon's Shadow that rushed out and circled around the seal.

Looking at its aura, it was an Emperor artifact level seal.

Clang!

The seal fell and collided with the giant ape's iron staff.

"Roar!"

The giant ape roared and became more and more furious.

Clang! Clang! Clang! Clang!

For a time, the sound of explosions continued.

Yun qingzi also joined in the battle and took out an ancient sword, which was also an Emperor artifact. The two 6th tribulation experts joined forces and began to fight the giant ape.

Tang Hao and the others retreated far away and watched from the ship.

"Go for it, sect master!"

"Martial uncle Yun Qing, well done!"

The group of elders were all at the fifth tribulation and could not join in the battle, so they were cheering and occasionally flattering.

Tang Hao would occasionally cheer for the two.

"It's good to have a helper!"

Tang Hao sighed as he watched the giant ape retreat in defeat and was about to be killed by the two.

In the past, it had not been easy for him to deal with a 6th tribulation beast alone. He could only kill a few 5th tribulation beasts at most. But now, with two 6th tribulation beasts as his helpers, he could kill them easily without having to do it himself.

"Senior, good luck!"

"Senior, hurry up and chase, don't let that beast escape!"

After a while, the giant ape finally fell and was killed by the two.

"This beast is quite powerful!"

The two of them landed, both looking a little tired.

With the two of them working together, defeating the giant ape was not a problem, but killing it would not be easy. The two of them had used all their strength and skills to keep it here.

“The two of you have worked hard. Next, it’s up to me!”

Tang Hao stepped forward and retrieved the pill cauldron.
