

The Mightiest Little Peasant Chapter 1916

"Fellow Daoist, you've returned!"

In the valley, a ray of light swept over, and a figure appeared in front of it. It was a handsome man with a burly figure.

"I'm back!"

Tang Hao nodded.

This was the clone he had left behind.

Other than his clones, he had also left behind many of his souls to guard this place.

This place was the entrance to Pangu, and it was too important to fall into the hands of others.

"No one else came?"

Tang Hao asked.

"No, I didn't!" The clone shook his head.

"That's true, it hasn't been long!" Tang Hao said with a smile.

It had only been a few years since he had entered Pangu, so it was normal that no one had come to the lower realm. Besides, not many people knew about this entrance.

He followed his avatar and landed in the valley.

Tang Hao furrowed his brows slightly as he looked at the exit of the valley. If they entered from there, they would be in the void, which was filled with spatial cracks and tens of thousands of forks. It would not be easy to find the way back.

When he first came, he had relied on the road signs left behind by Gu tuo.

However, it would not be so easy to go back now.

Tang Hao pondered for a moment. A golden primordial spirit emerged from the top of his head. Rays of light emerged from the primordial spirit and transformed into his appearance.

One, two ...

Soon, the split souls he had cut out covered the entire Valley. Each split soul had the strength of a first or second tribulation.

In the space crack, danger was everywhere. Without the strength of the first or second tribulation, it was impossible to survive.

“Go!”

Tang Hao waved his hand.

Tens of thousands of souls responded and rushed out of the exit.

Tang Hao sat cross-legged on the ground. Countless images appeared in his mind, all of which were seen by the split souls. Through these split souls, he could find the way back faster through the cracks.

He sat there for several days.

There was a constant loss of contact with the split souls, which disappeared into the spatial cracks.

Tang Hao kept sending more and more souls into the crack.

After five days, one of the souls finally found the way back.

“There it is!”

Tang Hao opened his eyes and smiled.

“You will continue to guard this place!”

“Let’s go!” Tang Hao said to his clone, then set up a few more formations to protect the valley before entering the crack.

With a few clanking sounds, the Taiyi mind-clearing armor appeared on his body. Under the protection of this Supreme artifact-level divine armor, the void squall and turbulence could not hurt him at all. He just rushed through it directly like a bolt of lightning.

Cracks appeared behind him.

After traveling for several hours, a crack finally appeared in front of him.

That was the entrance that he came from. Outside this crack was the boundless starry sky.

“I’m finally back!”

Tang Hao sighed with emotion as he passed through the rift and saw the vast ruins of the stars in all directions and the boundless Starlight in the distance.

It had only been a few years, but it felt like a lifetime.

“This is ... The central star region. In that case, let’s go to great Qin to take a look. I wonder if Brother Qin has advanced to the 2nd tribulation!”

He pondered for a while, then moved and headed toward the central star area.

He moved forward at full speed, his body turning into a bright meteor as he flew through the starry sky. The huge movement had attracted the attention of many xiuzhe from far away.

“Heavens!”

“What’s that?”

On the stars in the distance, countless cultivators raised their heads and looked at the bright shooting star in the sky.

In the starry sky, many xiuzhe that were hurrying on their journey also had shocked expressions.

This shooting star was too fast and too dazzling. Its light was like a blazing sun.

As the shooting star passed by, more and more stars began to boil.

Tens of thousands of stars and hundreds of millions of cultivators all looked up at the sky, shocked by this scene.

“That ... Doesn’t seem to be a celestial body!”

“There’s a shadow inside!”

A Saint came out of seclusion and jumped into the starry sky. He looked at the shooting star and exclaimed.

Ordinary cultivators could only see a bright divine light, but as Saints, they could see more clearly. In the sun-like light, there was a figure.

Its entire body was shrouded in divine light, and its appearance could not be seen clearly at all.

“This ... This kind of power ... Could it be that a God has descended?”

They couldn’t help but exclaim in shock.

It was as if an ancient God had descended to the world!

The shooting star sped towards the central planet, and the stars along the way all shook.

The news of this incident had spread to the central sacred planet through various channels.

The sacred planet immediately boiled.

“It must be the descent of an ancient God! Didn’t a God descend on the Donglin sacred planet before?”

The sacred planet was in an uproar.

Countless xiuzhe rose into the air and looked at the sky with apprehensive expressions.

He didn't know if it was a blessing or a curse for a living God to descend into the world!

Soon, they saw a shooting star flying in the distance.

"Look, they're here! They're coming straight for our sacred planet!"

"Hurry up and run!"

A flustered emotion spread among the xiuzhe. Many xiuzhe rode on spiritual lights and escaped into the starry sky.

The three God dynasties were on guard.

The three lords of the divine dynasty all rushed out of the palace and met in the starry sky. They looked at the shooting star in the distance with extremely serious expressions.

"This is the first time I've seen such power. I'm afraid it's really the descent of an ancient God!"

The leader of the great Qian divine dynasty, Emperor Qian, furrowed his thick brows and had a worried expression.

"God? That's not necessarily true. There's actually another possibility for someone to have such power, and that's the people above!" The Qin Emperor shook his head and also looked worried. "No matter which one it is, it's not optimistic."

"Yup!"

The other two sovereigns nodded.

In this starry sky, the strongest force was only at the 2nd tribulation level. If the other party had any ill intentions, they would not be able to resist at all and would only be slaughtered.

"The only thing we can do now is to open the formation!"

The Qin Emperor said.

The three of them discussed for a moment, then went back to open the formation and waited.

As the shooting star got closer and closer, the panic on the sacred planet gradually intensified. Countless cultivators fled, and the remaining cultivators were also uneasy.

Just like that, the shooting star finally arrived in front of them. The light suddenly faded away, and a figure appeared, standing in the sky above the sacred planet.

"That appearance ... He doesn't look like a god. He looks like a human!"

“People? He was also a xiuzhe? No way! How could there be such a powerful xiuzhe in this Galaxy? could it be ... From above?”

Everyone looked at it and was a little confused.

All Immortals had a different appearance from humans. This person clearly looked like a human, but his aura was unbelievably powerful.

As he stood there, the aura he exuded filled the entire sky and suppressed half of the sacred planet.

Although he wasn't a God, he wasn't far from it.
