

## The Mightiest Little Peasant Chapter 1971

"Don't worry, brother Tang. I'm not hostile to you!"

Li gongzi's figure moved and landed lightly.

She pursed her lips and smiled. Her face was so beautiful that it was dazzling.

The Vermillion Bird young master was a famous beauty in the 33 heavens. Her status and beauty made her as famous as young master Taixu and the divine curse young master.

She was also very popular on Pangu continent, and was known as the most beautiful woman in the thirty-three heavens.

Any other cultivator would have been dazed, but Tang Hao was used to seeing beautiful women. He did not feel anything.

"I hope so!"

Tang Hao smiled politely.

He pondered for a moment and felt relieved. There was no deep hatred between him and Vermillion Bird heaven. What happened in Emperor Pan City was just a small conflict at most. Master Li didn't have to deal with him over such a small matter.

Moreover, his strength had recently increased greatly and he had reached the middle stage of the 6th tribulation. Even if this young master Li had other intentions, he was not afraid at all.

"It seems that brother Tang still doesn't believe me!"

Li gongzi laughed.

Tang Hao smiled but did not answer. He pointed at the sea below and said, "Since we've decided to cooperate, I won't hide it from you. I'm here for the treasure. There's an entire ten thousand years old ice sea divine iron ore down here."

"Oh? That's good!"

Li gongzi's beautiful eyes lit up.

"There's no time to waste, let's go down!" Tang Hao said.

As he said that, he was about to rush down.

"Wait a moment!" At this time, he heard young master Li shout, "it is inconvenient for us cultivators to move in the sea. We still need a good water-repelling treasure."

"A water repelling treasure? I have one!"

Tang Hao was surprised. He then took out a large pearl from his ring.

This was a high-level water repelling Pearl. He had many of such treasures.

Master Li glanced at him and smiled. "Brother Tang, your treasure is far inferior to mine!"

Tang Hao was a little upset when he heard that. He took out an even bigger one and showed it to the others.

"How about this one? it's big enough, right?"

Li gongzi laughed and said, "I'm still far from it!"

"It can't be!"

Tang Hao was stunned. The water-repelling treasure in his hand should be quite high-grade. Although Master Li was the successor of Vermillion Bird heaven and must have a lot of money, he could not have a better water-repelling treasure!

"What's wrong? You don't believe that I have a better one?"

She pursed her lips into a smile, and a hint of slyness was hidden in her bright and beautiful eyes.

"Take it out and take a look!"

Tang Hao was still not convinced.

He rarely lost to others in terms of treasures.

"Brother Tang, watch carefully!"

Li gongzi chuckled and raised her white jade hand. A beam of clear light flew out and fell on the sea, turning into a treasure boat.

This treasured boat was made of some kind of glazed material. It was crystal clear and covered with a bright divine light. Its style and dress were all extremely beautiful and dazzled people. What was more shocking was that the aura emitted by this treasured boat was that of an eighth tribulation!

"This ... This is ..."

Tang Hao's eyes widened when he saw what it was.

F \* ck! This was the eighth tribulation! No, it seemed to be an Emperor artifact!

Tang Hao was shocked!

It wasn't that he didn't have any Emperor artifacts. He had many with him, such as the great flame spear, the heaven battling divine spear, and a large number of others that he had robbed from various races. However, these were all Spears, Spears, mirrors, and seals, the most common types.

This was the first time he had seen an eight-tribulation Emperor weapon boat!

It was too extravagant! What a prodigal!

Tang Hao cursed in his heart. All the materials that could be used to make Emperor weapons were real dragon bones. Materials like Phoenix Feathers were rare. Most people would use them to make offensive treasures. Who the hell would use them to make a flying ship?

Even though he had many treasures, he still felt a little pained at this moment. He felt that these materials were not worth it.

"This boat is called the mystic Light glazed boat. It's an item passed down from my Vermillion Bird heavenly ancestor. It's extremely fast and is one of the best flying treasures. It also has hundreds of functions such as avoiding water, fire, and lightning, and shuttling through the void!"

"Whether it's in the outer space or the bottom of the ocean, this boat can travel freely. Most importantly, it's very stable."

Li Gongzi landed on the boat, raised her pretty face, and introduced her to Tang Hao proudly.

Tang Hao's face twitched when he heard that.

F \* ck!

With so many functions, how much of a prodigal was this!

At this moment, he really wanted to drag the guy who made this boat over and give him a good beating until his face bloomed.

"Hahaha! It's indeed a treasure boat!" Tang Hao laughed dryly.

He had always felt that he had quite a lot of treasures and could be considered rich. However, compared to the thirty-three heavens, he was simply a pauper!

He looked at the boat, and his eyes lit up. Then he looked at young master Li and estimated the things on her body. His eyes couldn't help but shine even brighter, with a trace of green light.

Not a single one of this guy's items was bad. Just on the surface, there were five or six eighth tribulation weapons. Whether it was his earrings, rings, or the Jade on his waist, they were all eighth tribulation weapons.

Not to mention the clothes, which were also Emperor artifacts and exuded the aura of the divine beast Vermilion Bird.

In terms of grade, this treasured clothing was only below his Taiyi mind-clearing banner.

“These thirty-three heavens are really F \* cking rich!” Tang Hao muttered to himself.

He almost couldn't hold it in and was about to attack her.

Soon, Tang Hao was relieved. Those fifth or sixth tribulation saints were so rich and had a body full of treasures, not to mention the eldest young master. In the thirty-three heavens, the eldest young master's status was extremely high. It was normal to have many treasures.

Back then, he had experienced the ancient Kunwu in his dreams. He knew how powerful and rich these ancient orthodoxies were.

If even an ordinary incense burner was made of ten-thousand-year ice sea godly metal, then this Emperor artifact-level boat was nothing.

“Brother Tang, don't look at it. The treasures I have are not even as good as yours! After all, I don't have two Supreme artifacts in my hands!”

Li gongzi said, as if he could read Tang Hao's mind.

“Hahaha! Brother Li, you're joking, I'm just a little amazed, no other meaning!” Tang Hao laughed dryly and waved his hand.

“Is that so?”

Li gongzi said noncommittally, but the smile in her beautiful eyes became more and more intense.

“Brother Tang, come up!”

She waved at Tang Hao.

“Yes,” Tang Hao replied, then landed on the treasured boat.

The next moment, the treasured boat trembled and opened up a light screen. It then sank down and dove into the sea.

After entering the sea, the speed of the treasured boat didn't decrease at all. Instead, it became faster and faster.

Tang Hao felt it for a moment and was a little surprised. The speed was even faster than his flying speed. It was truly shocking.

The sea was deep and quiet.

The treasured boat continued its journey downward. The two of them sat opposite each other on the boat. The atmosphere was a little awkward, and Tang Hao did not know what to say.

“Brother li, have some tea! Have some tea!”

Tang Hao took out a tea set and placed it on the table.

“Many thanks!”

She chuckled and took the cup from Tang Hao. She took a sip of the tea.

Then, she raised her head and looked at Tang Hao with her beautiful eyes.

“Brother Tang, pardon me for asking, but do you have a Dao companion?”

She opened her red lips and said softly.

“Pfft!”

Tang Hao almost spat out the tea he had just drunk when he heard that.
