

The Mightiest Little Peasant Chapter 1973

The treasured boat sped through the deep sea, and the figures of ferocious beasts could be seen from time to time.

When they had just entered the sea, they had encountered many fierce beasts. However, their cultivation levels were not high. When they sensed their auras, they had fled far away.

There were more and more ferocious beasts in the depth, and their realms were getting higher and higher. Almost all of them were in the Saint realm. They were huge, and there were all kinds of beasts, such as giant whales, giant sharks, shrimp, crabs, and turtles ...

There were many kinds of fierce beasts in the sea, far more than the beasts and birds on land.

Even with Tang Hao's experience, he could not be called a beast of the sea.

The ferocious beasts on land were all thousands of feet tall when they reached the Saint realm, especially the Apes. Each of the giant apes was like a small mountain.

The ferocious beasts in the sea were not inferior at all, especially the whales and turtles. Although they were not that tall, they were unbelievably large. Their bodies were more than ten thousand feet wide, and their size was somewhat shocking.

Tang Hao sat on the treasured boat and looked at the figures of the giant beasts that passed by in all directions. He was amazed.

"That's an ... Ancient Golden Shark?"

Suddenly, a bright light appeared in the dark sea ahead. Looking closely, it was a giant shark with a golden body and complicated patterns.

"Golden Shark? Brother Tang, it seems like we're in luck!"

Li gongzi looked over and smiled.

"Brother Tang, do you want to do it or should I?" she asked Tang Hao.

"It's just a mere fifth tribulation beast, there's no need to trouble brother li to deal with it!" Tang Hao chuckled. He raised his hand and extended it in the direction of the giant shark. He clenched his fist in the air, and the water around him suddenly became chaotic.

The sea water rolled and turned into a gargantuan dark blue palm that grabbed at the giant shark.

The giant shark was shocked. Its body swayed and it wanted to escape, but it was too late. The palm grabbed it firmly and even with its strength of the fifth tribulation, it could not break free.

"Brother Tang, I didn't expect you to have such profound attainments in the water element Tao technique!"

Li gongzi was surprised.

“Young master is too kind, I only have a slight understanding!”

Tang Hao said humbly.

In terms of Tao techniques, he had dabbled in a wide range. Thunder techniques, fire techniques, wood element Tao techniques ... He had cultivated in all kinds of them and could be considered to have some attainments in them. Especially now that he had the creation divine body, the power of his Tao techniques was much stronger.

He flicked his sleeve again, and a Jade bottle flew out. The mouth of the bottle suddenly produced a suction force that sucked the giant shark in.

“This Golden Shark is a good thing. Just like that Golden Lion, they both have an ancient bloodline. Their flesh and blood are great tonics. Their Golden Bones are also the best material for forging weapons.”

Tang Hao said happily.

This five calamity Golden Shark was a small surprise.

“It’s a seven-colored Daoist flag!”

Soon, they encountered another rare beast.

“Brother Li, I’ll let you have this!”

“Many thanks!”

Li gongzi smiled and raised her hand. A golden light flew out, which was a golden net. When it arrived in front of the seven-colored streamer, it suddenly became big and the net was tightly bound.

Then, the fish and the net shrank to the size of a palm and flew back into her hand.

“This treasure is not bad!”

Tang Hao looked at the net again.

Judging from the aura of this net, it was also an 8th tribulation. Looking at the talisman on it, it was obviously extremely ancient and an ancient treasure.

“This treasure is called heaven bind. It was refined by my ancestor in Suzaku!”

Li gongzi laughed.

“As expected of an ancient orthodoxy!” Tang Hao sighed.

An ordinary clan would not have too many eight tribulation weapons, because there were not many eight tribulation experts in their clan. However, the 33 heavens were different. For example, Kunwu used to have five sovereigns and hundreds of eight tribulation experts. The treasures left behind by these experts were the foundation of the 33 heavens.

“Brother Tang, you don’t have to be so envious. In terms of treasures, you don’t lose to me.” Li Gongzi said.

“That’s different!”

Tang Hao smiled wryly and shook his head.

His treasures were all obtained through his own hard work, and many of them were obtained through near-death experiences. He was not like this young master Li, who had a good background and could easily obtain good treasures.

“Brother Tang, look! That’s an illusionary spirit Python!”

“It’s a blood whale!”

The lower you go, the stronger the fierce beasts are. 5th tribulation, 6th tribulation, they can be found everywhere, and from time to time you can encounter some rare species.

The two of them took turns to attack, each displaying their magical powers and taking care of all these fierce beasts.

They were all at the 6th tribulation and their magical powers were the best among their peers. They could easily capture those at the 5th tribulation and those at the early stage of the 6th tribulation with a little effort.

However, at the middle stage of the 6th tribulation, these ferocious beasts are not easy to deal with. The two of them generally do not take the initiative to provoke them.

Such ferocious beasts would not usually provoke them. They would avoid them when they sensed their auras from afar.

Further down, some late-stage sixth tribulation fierce beasts began to appear. The size of these fierce beasts was indescribable. There were ancient giant octopuses with more than 10000 tentacles, giant whales the size of a divine mountain ...

These ancient fierce beasts all lived in this deep sea.

Their temperaments were violent, brutal, and full of aggression. As soon as they sensed the aura of the two, they took the initiative to pounce over.

“Let’s go!”

Tang Hao was a little scared when he saw the enormous beasts.

No one knew how long these beasts had lived in the deep sea. They might have even been here since the formation of Pangu continent.

“Brother Tang, please rest assured! They won’t be able to catch up to us!”

Li gongzi urged the boat and sped away.

The speed of this treasured boat was extremely fast and it was also extremely flexible. It circled around and soon, it could shake off these fierce beasts.

Further down, there were seventh tribulation fierce beasts. Whether it was their size or aura, they were even more terrifying. However, with the help of a treasured boat, the two of them were able to escape quickly. It was scary but not dangerous.

“It should be in that direction!”

After reaching the bottom of the ocean, Tang Hao followed the memories of The White Tiger heavenly Saint to determine the direction.

The treasured boat sailed away, and after a moment, they found the ice sea divine iron mine.

“What a long ore vein!”

The two of them followed the mine vein and flew forward. Soon, they were shocked by the size of the mine vein.

This mine vein was buried deep under the sea and stretched for tens of thousands of Zhang. The amount of divine metal it contained was an astonishing amount.

Even li gongzi, who was used to seeing treasures, was speechless at this moment.

“The value of this mine vein is hard to estimate!” She exclaimed, her beautiful eyes burning with passion.

Tang Hao was also extremely excited. Back then, even the White Tiger heavenly Saint had not figured out the size of the entire mine vein, so he had never expected it to be this huge.

“This is ...”

When Tang Hao sent his divine sense into the mine vein, he quickly made another discovery. He cried out in surprise, and then revealed a look of wild joy.

“It’s the mother! This mine vein has given birth to a fetus mother!”

He said in surprise.

The fetal mother was a rare and precious treasure that could only be found in a few gold and iron ore veins.

Although the ten-thousand-year-old ice sea divine metal was a rare item and some people compared it to divine materials, it was still far from being comparable to true divine materials like the creation true gold. However, this fetus mother was different.

This was the essence of the entire mine vein, a Supreme divine item!

“The mother?”

Li gongzi was stunned, and his breathing stopped for a moment.

Then, her breathing became rapid, and her eyes shone with a hot light as she stared at the mine below.
