

The Mightiest Little Peasant Chapter 1994

“This monk kuxin is quite powerful!”

After leaving the kuyun temple, Tang Hao had obtained all the information about monk ku Xin.

Where he was born, when he entered the sect, what cultivation technique he cultivated, what kind of encounters he had, all of these were introduced in detail in this.

In the history of the kuyun temple, monk ku Xin was the most powerful figure. He was a legendary existence. Therefore, there were still detailed records of him in the kuyun temple, even compiled into a biography and placed in the sutras Depository.

Now, these records and biographies had become important clues for them to track down the remains of the heaven Buddha Temple.

“He was an orphan from the ancient kingdom. When he was five years old, he was taken in by the kuyun temple’s Abbot and began to cultivate Buddhism.”

“His talent is amazing, and his spiritual root is intelligent. He has a speed of understanding Dharma that ordinary people can’t reach. When he was 60 years old, he successfully broke through to the Saint realm and became the youngest Saint in the history of the kuyun temple.”

Tang Hao paused for a moment when he read this. He looked surprised.

60 years old, Saint realm!

Even on Pangu continent, this was an outstanding performance, especially when he was in a small force like the withered cloud temple, which was enough to show his outstanding talent.

Tang Hao was even more shocked as he continued to read. This person was outstanding in both talent and temperament. He was a formidable figure. Under his leadership, the reputation of the kuyun temple rose greatly and became the Overlord of the mountains.

Back then, he had also made a name for himself in the entire spiritual wilderness.

If it wasn’t for this Kasaya that had attracted the attention of the various great clans and countless people, he wouldn’t have been forced into the demon burial abyss and died there.

“What a pity!”

“Sigh ...” Tang Hao sighed regretfully.

In some ways, this monk kuxin was similar to him.

"It's indeed a pity!" Li gongzi looked at it and said regretfully, "if he didn't fall, he would be a hero and Overlord now." But then again, if he wasn't powerful, how could he have obtained this Supreme Kasaya?"

"Back then, the various races of the spiritual wilderness participated in the fight and pursuit. Countless 4th tribulation and 5th tribulation experts joined in the pursuit. Even so, they were unable to kill him. Instead, he managed to escape into the demon burial abyss."

Tang Hao sighed again, then picked up the list of suspicious locations.

There were more than 50 locations listed on the list, which were organized according to the records and biographies.

Monk ku Xin had been to these fifty-odd locations before, and there was a possibility that the passage to the ruins of the heavenly Buddha courtyard might be hidden in them.

"There are 53 of them in total. It's not easy to find them!"

Tang Hao furrowed his brows.

"They've split into five teams. They're going to these five places first. Mountain Changming, Lake bibo ... These places will be crossed out first. If they discover anything in these places, we'll be the first to receive the news."

Li gongzi reached out and swiped across the five locations on the list.

"There are still 48 left, let's just randomly pick! Brother Tang, what do you think of this? Xianyu mountain, the name is very spiritual, maybe it's in here!"

Li gongzi looked up and down a few times and pointed to one of the places.

"Good! Then let's go there first!" Tang Hao nodded.

In the next moment, the boat accelerated and headed toward the immortal Feather Mountain.

Soon, a Misty Mountain range appeared in front of the two of them. It looked like a paradise.

This was the Xianyu mountain!

"What we're looking for should be a crack in the void, because after the Great War, the heavenly Buddha courtyard fell into the void. It must have passed through layers of cracks in the void, and the heavenly Buddha courtyard is connected to a crack somewhere on Pangu continent."

"This crack is our target!"

Young master Li said, "but it's not easy. There are many void cracks in many places. Moreover, some cracks are very hidden and difficult to find. Even if it is found, there may be thousands of forks in this crack. It is extremely difficult to find the right way in here."

“Yup!”

Tang Hao nodded.

“Let’s go together!” Li Gongzi got up and stood at the bow of the ship. In that pair of beautiful eyes, two rays of golden light suddenly burst out.

These two beams of golden light shone on the mountain range in front of them. Like a radar, they scanned the entire mountain range.

Tang Hao also stood up and stood beside her.

The faint golden pattern between his brows cracked open, revealing a vertical eye.

The ancestor of technique’s divine eye was activated instantly!

Nothing in the mountains could escape Tang Hao’s eyes.

Although this divine eye was only a weapon of the seventh tribulation, it had many uses. It was created by the ancestor of technique after exhausting all his wisdom.

The ancestor of technique, the Heaven Reverse Emperor, the Soul Emperor. These experts from the lower worlds were all outstanding and famous figures.

“No, I didn’t!”

Tang Hao shook his head after he scanned the room three times.

He searched very carefully, even searching hundreds of thousands of feet underground, but he didn’t find a void crack. He searched every corner of the mountain, every blade of grass, and every tree, but he found nothing.

“I didn’t find anything either.”

After a while, Master Li also retracted his gaze and showed a trace of disappointment.

“It seems like the immortal Feather Mountain is not the target we are looking for!”

She shook her head, took out the name list and crossed out the Xianyu mountain.

“Next, let’s go to this place! Get closer!”

She looked at it and pointed to one of the places, Eagle Cliff Mountain.

Activating the treasured boat, it only took a moment for the two of them to arrive. Once again, they activated their spiritual eyes and began searching.

“Look, there’s a crack!”

In a Valley, the two of them found a crack.

“Let me do it!”

Tang Hao’s body trembled. A golden light flashed above his head as his primordial spirit stepped out. Countless golden specks of light flew out from his primordial spirit.

These were all thoughts that he had cut down.

The spots of light transformed into “Tang Haos” and charged toward the rift.

In these cracks, there might be tens of millions of different routes, and it was very difficult for the two of them to find them.

“What is this?”

Young master Li was stunned and asked in surprise.

“It’s just a small soul splitting technique!” Tang Hao said with a smile. He commanded the souls to charge into the rift, then each chose a path and entered it.

His primordial spirit was extremely powerful now. Even if it was just a small thought, it was still very powerful. It could withstand the various dangers in the crack in the void and help him explore the situation inside.

In order to increase the speed, Tang Hao continuously sent out thoughts, which turned into split souls and poured into the sword.

He sat down and used these souls to see the situation inside the crack.

It took him a full four hours to finish his exploration.

When he opened his eyes again, he shook his head and said in disappointment, “The place we’re looking for isn’t here!”

Li gongzi replied with an ‘Oh’ and was slightly disappointed.

“Then let’s go to the next one. We’ll go to this place, Mount Dongyao!”

The two of them set off and rushed to the next location to continue their investigation.
