

## The Mightiest Little Peasant Chapter 1998

“Brother Tang, what’s the matter with you?”

Young master Li was surprised to see Tang Hao standing there in a daze.

“I’m just thinking about how I should use all these armors.” Tang Hao smiled bitterly. “A thousand pieces ... That’s too many!”

Li gongzi was stunned, and then he laughed.

“Who’s like you, complaining about having too many treasures! But it makes sense. There aren’t that many high-level Saints in the creation sect. Those low-level Saints can’t use such powerful armor.”

“There are many advanced Saints in the Vermillion Bird sky, but we don’t lack armor. You can take all these Buddha’s light armors! You might not be able to use it now, but you might be able to in the future.”

After saying that, she swept forward and continued to check the treasures on this floor.

“These are all elixirs, so many of them. This is the Dragon Elephant Treasure pill of the Buddhist sect, and this is the medicine glaze pill. These are all elixirs that strengthen the body and help them cultivate the Buddha body!”

She flicked her sleeve, and rows of treasure chests opened, revealing the treasures inside.

These were all pills, huge treasure pills that bloomed with shocking Buddhist light. They were casually placed in these treasure boxes.

There were also many pills.

Tang Hao put away the armor and came over.

He looked at the pills one by one and praised, “The value of this batch of pills is no less than the armor just now. These are all pills of the fifth or sixth tribulation. For Buddhist cultivators, they can strengthen their Buddha bodies. Ordinary cultivators can also use these pills to strengthen their bodies and make them stronger.”

Even a Saint at the 5th or 6th tribulation had to strengthen his body. The stronger his body was, the stronger his combat power would be.

Moreover, many saints had bones in their bodies. Some were born with a Saint bone, and some acquired it later on. They had taken other Saint bones or beast bones, such as Dragon Bone or Phoenix bone.

These pills would also help strengthen these bones.

“It would be even better if I could find some second or third tribulation pills!”

Tang Hao mumbled.

For 5th or 6th tribulation saints, strengthening the body was just adding flowers to a brocade. This was because advancing to the 3rd tribulation was the biggest change in the body. After that, the body was already extremely strong. Every time they crossed another tribulation, their body would only strengthen by a small margin.

However, for a second-trial Saint, strengthening the body was the most urgent need. As long as the body was strengthened to a certain level, they could quickly pass the third trial and advance to the third trial.

If they had a large number of such pills, they could greatly speed up the cultivation speed of second tribulation saints and create a large number of third tribulation saints.

“There should be some on the lower floors!” Li gongzi said.

After a moment of silence, she said: “I won’t fight for these pills. They are of no use. If I find some spiritual materials or spiritual medicine later, I will pick some for myself. You can take the rest!”

“Thank you!” Tang Hao said gratefully.

He really needed these pills.

It wasn’t difficult to make these pills, and he had a lot of materials. However, he didn’t have the time or energy to make these pills. He had to nurture the divine fruit of creation and the materials for the supplement pill. The celestial water was too tight.

Otherwise, he wouldn’t have gone to Emperor Pan City to buy medicine.

“What are you thanking me for? There’s no need to be so polite between us!” Li gongzi laughed.

“I’ll help you! We have to move faster!”

Then, with a wave of her hand, she collected all the treasures and put them into a bracelet.

“Alright!”

“Yes,” Tang Hao replied. The two of them split up and began to collect the treasures.

The eighth floor was extremely spacious and there were countless treasures. Even though half of them had been moved away, there was still a shocking number of treasures left. Furthermore, there was a wide variety of spiritual medicines, elixirs, spiritual materials, tribulation weapons, and all kinds of treasures.

As for the grade, most of them were suitable for five tribulation saints.

After plundering, the two of them immediately broke through the ground and entered the next level.

If the pagoda was intact, the two of them wouldn't have been able to break it with their strength. This was the most important place of the heavenly Buddha Academy's treasure vault, and it turned out that the pagoda was also an extremely powerful treasure.

With their 6th tribulation strength, how could they possibly break through?

However, ever since the Alliance Army of the thirty-three heavens broke through the ninth floor, this Pagoda had been destroyed. That was why the two of them could easily enter the seventh floor.

The seventh floor was well preserved. Although the grade of the treasures inside was much lower, they were all at the level of the third or fourth tribulation. However, there were many of them. It took the two of them a lot of effort to collect all of them.

"There are really too many treasures!"

As the two of them kept collecting, they felt their hands go soft.

Tang Hao was getting more and more excited. The collection of an ancient sacred ground was an astonishing treasure. With these treasures, he could rapidly increase the strength of the gate of fortune.

And Kun Lun!

There were too many treasures. With the current number of people in the gate of fortune, it was impossible for them to use up all the treasures.

"I'm really rich this time!"

The origin core avatar also came out and joined the treasure Collection team.

As he kept it, he mumbled to himself, his face red with excitement.

He had never seen so many treasures before!

Soon, all the treasures on the seventh floor were swept clean. The two of them quickly headed to the sixth floor. The grade of the treasures inside was much lower, but there were more of them. The group spent a lot of effort before they finished collecting them.

Then, it was the fifth floor.

One floor after another, they swept down.

In the beginning, they were still a little excited, but very quickly, they became a little numb and just collected it mechanically.

"Cool!"

When he came out of the first level, the clone sighed with a satisfied expression.

Li gongzi also had a smile on his face and was very happy.

She had also taken quite a few things on this trip.

“Argh! That’s right, this Pagoda is also a treasure!”

Just as he was about to leave, Tang Hao slapped his forehead and shouted,”

Then, he made a move and shattered the broken Pagoda into pieces. With a sweep of his sleeve, he kept all of them.

The tower was already useless, but the materials were good and could be recycled.

“Go! Continue!”

The group of them continued to collect the treasures.

“That’s ... The Sutra library!”

Not long after, they discovered another Pagoda. It was also broken through, but when they went in to take a look, most of the sutras inside were well-preserved, and only a small portion had been collected.

“It seems that we were really in a hurry back then. We had no choice but to retreat as soon as we broke through!”

Li gongzi said.

“The precious Lotus Sutra, the Dragon elephant Sutra ... These are all Buddhist body-tempering manuals!”

Tang Hao picked a few books and flipped through them.

“These are the top cultivation techniques of the Buddhist sect!” Li gongzi said,“I have some use for these cultivation techniques too. How about this, we can make a copy of each of them. That will do.”

“Alright!”

Tang Hao nodded. He cut out a few more souls to copy the Scriptures. He took out a book from time to time and flipped through it.

“Look ... What’s that?”

He followed Master Li to the center of the hall and saw a huge Buddha statue. In the middle of the Buddha’s eyebrows, there was a floating golden light.

Upon closer inspection, there was a golden Buddhist scripture in the ball of light.
