

The Mightiest Little Peasant Chapter 2012

“Pangu pill realm is usually divided into two parts. One is my thirty-three heavens, and the other is Pangu continent!”

“Although they are both from Pangu world, they have always been separate. Of the two people I’m talking about, one is from my thirty-three heavens, and the other is from Pangu continent.”

Li gongzi said.

“In the 33 heavens, there are many who are skilled in the Dao of alchemy. After all, they are all ancient orthodoxies. They are skilled in alchemy and weapon refinement and have a long history. However, in terms of expertise, there are still my Vermillion Bird heaven, great void heaven, and purple void heaven.”

“The person I’m talking about is from the purple void heaven. His name is Daoist Xu Chen. He’s the head of the purple void alchemy path and the number one person in the pill realm of the 33 heavens!”

“Void dust? I’ve heard of it before!”

Tang Hao nodded when he heard that.

He had some understanding of the 33 sky pill realms and often heard the pill Saints talk about it.

The Vermilion Bird, great void, and purple void heavens all had the inheritance of true fire, so their alchemy Dao was the most powerful.

He had heard of this Daoist void dust before. He had been famous for a long time and was an old alchemy Saint. He was a legend in the alchemy world.

“What about the other one?” Tang Hao asked curiously.

Young master Li said, “on Pangu continent, the alchemy Dao is more complicated. There are more forces, and there are also many experts. There are many leading figures. However, in terms of power, the most powerful one is still the ancestor of the Yao clan!”

“Oh? It’s him!”

Tang Hao was surprised.

He naturally knew of the old ancestor of the Yao clan. He was indeed very famous in the pill world. However, he had always felt that there were many people in the pill world who could compare to him. Therefore, he had never thought that it would be him.

“That’s right! It’s this old ancestor of the Yao clan!” Li gongzi said solemnly, “this Yao clan is not ordinary!” They’re from an ancient race, just like the Thunder race, rain race, and wind race. It’s said that these races all have a trace of God spirit blood in their bloodlines, and they’re considered descendants of God spirit. ”

“The members of the Yao clan are born with a strong affinity with plants and vegetation. This is something that ordinary people can’t compare with. It can be said that they were Born to Be Good at making medicine and refining pills.”

“This patriarch of theirs is a figure of the older generation, just like Daoist void dust. He has cultivated for many years and his alchemy skills are unfathomable. A few hundred years ago, he was already one of the top figures in the alchemy world. In these few hundred years, I heard that he has been concentrating on studying alchemy and trying to break through to the alchemy God Realm.”

“I can conclude that he is now the strongest Alchemist on Pangu continent! He’s only a fine line away from the alchemy God Realm!”

“Him, Daoist void dust, and you. The three of you can be ranked among the top three in the world!”

As she spoke, young master Li kept staring at Tang Hao. Her beautiful eyes revealed a hint of surprise.

It must be known that both of them were elders who had cultivated for thousands of years. They were old monsters at the seventh tribulation. It was not surprising that they could achieve such an achievement.

However, this person was only fifty to sixty years old!

Compared to the other two, he was too young! He was so young that it was hard to believe!

If he was given another thousand years, what level would his alchemy skills reach?

She didn’t even dare to imagine it.

Brother li, comparing me to these two people, aren’t you thinking too highly of me!” Tang Hao said with a smile.

“You, ah, don’t be so modest. Although my alchemy skills are not as good as yours, my eyes are still accurate. If I say that you are one of the top three in the world, then you are. If you were not only at the 6th tribulation, you might have even surpassed the other two.”

Li gongzi said.

Then, she seemed to have thought of something and said,“That’s right. Speaking of the ancestor of the Yao clan, you have to be careful. The hatred between you and the Yao clan is too deep. You might even meet him in the future. This person is rather terrifying. He is also a rather powerful character among the seven tribulations.”

“With this old ancestor and the master of the Yao clan, the Yao clan has two seven tribulations on the surface. No one knows if there are any more in the dark. The Yao clan’s Foundation is quite deep. You must be careful.”

“I understand!”

Tang Hao nodded. His expression was grim.

“Fortunately, you still have that old demon Xue behind you. Ordinary seventh tribulation cultivators won’t dare to touch you for the time being!” Li gongzi said.

Looking at Tang Hao, she said: “brother Tang, with your current alchemy skills, you are not far from the alchemy God Realm. You are the same as the other two, you have the ability to break through to the alchemy God Realm. But unfortunately, the alchemy God Realm is too special. Even if you have the ability, you may not have the chance.”

“You mean the divine pill token, right?” Tang Hao said.

“That’s right!” Young master Li nodded and said, “if you want to become an alchemy God, you must have an alchemy God token. However, in the current alchemy world, alchemy God tokens are extremely rare. My Vermillion Bird heaven and purple void heaven are gone, but there is one in great void heaven.”

“The Yao clan is also gone. Therefore, over the years, both the Yao clan and Zi xutian have been anxiously looking for the alchemy God token in order to break through to the alchemy God Realm.”

“If it weren’t for this alchemy badge, there would be two alchemy gods in Pangu world by now.”

“I do have one of these divine alchemy badges!” Tang Hao smiled.

“You?”

Li gongzi was stunned and a little startled.

“Look, what’s this!” Tang Hao raised his hand. A token made of bronze appeared in his palm. The word “pill” was carved on one side, and a divine mountain hidden in the clouds was on the other side.

It was the alchemy God token he had obtained from the alchemy God Palace in the ancient wilderness.

“Is this ... True?” Li gongzi’s beautiful eyes widened, looking at the token in disbelief.

“Of course! This is what I got when I passed the test of the alchemy God Bai Feng.” Tang Hao said.

Not only did the Yao clan know that he had the alchemy God token, but many people also knew about it. When he had passed the alchemy God’s test with the identity of Grandmaster Hao, it had caused a sensation for a time. The news that he had obtained the alchemy God token had also spread.

This Li gongzi didn’t know. Maybe it was because he had only paid attention to him recently, so he didn’t know about the things that happened a few years ago.

“You even have such a treasure!”

After a while, young master Li smiled bitterly and sighed.

Then, she smiled."Brother Tang, I have to congratulate you in advance. I wish you to become an alchemy God soon. Don't forget me when that time comes!"

"What are you saying, it's still early!" Tang Hao said, shaking his head.

He had been holding the alchemy God token for several years, but he still didn't dare to use it because the alchemy God Bai Feng had said that there was only one chance to become an alchemy God. Once he failed, he would never have another chance in his life.

That was why Tang Hao didn't dare to use it. He wanted to wait until he was completely confident before using it to summon the ancient pill mountain and become an alchemy God.

"That's true! This matter can't be rushed. My Vermillion Bird heaven also has an ancestor who tried to become an alchemy God. If you don't have a seventh tribulation, it's best not to try. If you want to become an alchemy God, cultivation is also indispensable. "

Young master Li nodded and said,"by the way, in the alchemy books of the Vermillion Bird heaven, there are many insights of the alchemy God, many of which mention the situation of the ancient pill divine mountain. You can take a look, so that you will be more confident when you try to break through in the future."

"That's great!"

Tang Hao was overjoyed.

He didn't know much about the pill ancient sacred mountain. Neither the Enlightenment left behind by the pill God Bai Feng nor the Enlightenment of the other pill gods in the creation sect mentioned much about the pill ancient sacred mountain.

If he could understand a thing or two, he would have more confidence when he tried to break through in the future.

"Then I'll go back now and use your alchemy Scripture to exchange for those alchemy books!"

After Li Gongzi finished speaking, he went to thirty-three heavens.

After about an hour, she returned with many alchemy books.

After receiving the alchemy manual, Tang Hao asked about the great void divine wheel.

"I'm not sure how many years they'll be cultivating in there and when they'll come out, but I heard that the hundred races have put in a lot of effort this time. They should be able to keep the divine wheel open for a while. "

Li Gongzi shook his head.

"I'll ask around a little more. I'll let you know when I have new information!"

“Good! We’ll meet again!”

Tang Hao cupped his hands and said goodbye.
