

The Mightiest Little Peasant Chapter 2050

"I didn't expect that the passage to the lower realm would be in this small valley!"

Looking at the ripples in the void in front of him, young master Li was a little surprised.

"Pangu world used to have a few passageways leading to the lower realm, but they've been gone for a long time. The one you have now should be the only one." She said as she looked at Tang Hao.

"This passage is very precious. Do you know that many forces are looking for it? they once suspected that the passage you came up from was in the ancient wilderness. For this reason, they searched the ancient wilderness several times, but they couldn't find it."

"I've heard of it before!" Tang Hao nodded.

He had many eyes and ears all over Pangu, so he had naturally heard of this news.

Back when he returned to Pangu and encountered the Yao clan in the ancient wilderness, he knew that the Yao clan had already guessed the rough location of the passage.

However, he wasn't too worried. Firstly, he was confident in his own formation. Secondly, he had also sent a clone to keep watch in the valley. Once the valley was discovered, he would know.

"In fact, I've always been a little curious about what the lower universe is like ..." Young master Li murmured, "I've always heard that the lower universe is extremely barren, and the cultivation world is weak. There are only a few Saints."

"That's right!" Tang Hao said with a smile.

Compared to Pangu continent, the lower realm was indeed quite barren.

In the lower realm, it was difficult to find even one immortal Meridian, but on Pangu continent, there were many immortal meridians. The immortal Qi in the lower realm was far less than that of Pangu, and the treasures and other resources were also far inferior.

"However, it's such a barren land that produced a genius like brother Tang. It's really amazing! Oh! That's right, there's more than one. The Liu Clan's son of Blood Origin is also quite outstanding."

Master Li looked at Tang Hao with a smile in his eyes.

"Brother Liu! He's indeed a character!" Tang Hao smiled. "He's My Lucky Star."

"That's true. Without her, brother Tang would not have obtained King ROC's halberd!" Li gongzi laughed.

"That's not all! I have a deep relationship with him!" Tang Hao said.

"Oh?" Li gongzi was surprised.

“Why don’t you go with us, brother li? Haven’t you always been curious about what the lower realm is like? you can go down and take a look around. I can also tell you about my relationship with brother Liu.”

Tang Hao said.

“This ... Is good!” Li gongzi pondered for a while and agreed.

If it was someone else who invited her, she would naturally not agree. After all, she had never been to the lower realm and she had to travel through a crack in the void, which was quite risky. However, this was an invitation from brother Tang, so she was not worried at all.

“Let’s go!”

Tang Hao took the lead and walked into the tunnel.

After a few trips, Tang Hao was familiar with the place. Along the way, he told li gongzi about his relationship with Liu heihu.

He had started from the ninth continent of Qiyuan, when the two of them had first met.

Li gongzi listened, and from time to time, her beautiful eyes widened, revealing an extremely shocked look.

She had never thought that the two of them would have such an interesting past. It was even more difficult for her to believe that this kind, pure, and upright brother Tang actually had such a past.

After hearing this, she felt that Liu heihu was not a thief. This man was the real expert.

From the bottom of her heart, she even pitied Liu heihu.

To fall into the hands of the same person again and again, and to have all their treasures snatched away, no one could bear it!

“No wonder he looks like he has a deep grudge against you every time he sees you, brother Tang!” She pursed her lips and smiled strangely.

“Isn’t that so!” Tang Hao said.

“I’m starting to pity him!” Li gongzi laughed.

The two of them chatted for a while, and soon, they came out of the passage and arrived in the starry sky.

“This ... Is the starry sky?”

Young master Li looked around and saw the vast stars in all directions, and he was a little stunned.

This scene was too spectacular.

“Does this starry sky have an end?”

Tang Hao shook his head. “I don’t know. In terms of size, Pangu continent is indeed vast, but it’s still a little small compared to the vast starry sky.”

Beyond the eight wastelands, Pangu continent was still a boundless territory. Donglin and the central sacred planet could not be compared to it, but they were definitely not as big as this starry sky.

Li gongzi’s figure moved and was about to sweep over, but then her face changed, “this void seems to be much weaker and easier to break.”

Tang Hao nodded. “The space in Pangu world is much tougher. Only cultivators at the sixth or seventh tribulation can shake the void. But it’s different here. One or two tribulations is enough.”

“There aren’t many saints in this void,” he continued after a pause. “There’s very little immortal Qi. The strongest one is only at the second tribulation.”

Tang Hao concealed his aura and carried her forward.

Along the way, the two passed by many stars before they landed.

Whatever Li gongzi saw, it was a little novel, and he looked around.

Then, Tang Hao brought her to the immortal astral land.

He had come to this immortal astral land once to find the astral arrows.

It was also in this place that he summoned the nightmare arrow and defeated the old silver Dragon, Emperor Chu, and the others who were chasing him.

After that, he left and did not explore further.

To be honest, he didn’t know much about this place.

“You see, this is the famous immortal astral land. It’s called the immortal astral land because even if a true immortal enters, there’s a risk of death. I didn’t go deep into it back then, so I don’t know what’s inside.”

The two of them stopped outside the immortal astral land.

“Then what treasure is brother Tang here for?” Li gongzi said.

She had only heard from brother Tang that he was here to find an important treasure, and also to clarify some things in the lower realm.

“It’s a cultivation technique!”

Tang Hao said.

“Cultivation technique?” Li gongzi was stunned.

Could there be some world-shaking cultivation technique here?

If it was just an ordinary cultivation technique, I’m afraid it wouldn’t be able to attract someone like brother Tang.

“I don’t know what it’s called, what it looks like, or where it’s exactly. I only heard that there’s a very powerful cultivation technique in there that’s suitable for me to cultivate, so I came to check it out.”

After li gongzi heard this, he became more and more confused.

According to brother Tang’s realm, you should be at the blood solidification realm, so why are you still cultivating?

“Let’s go in and explore!”

Tang Hao pondered for a moment, then swept forward and entered the star ruins.

In this starry sky, there were shattered pieces of stars everywhere. The small ones were like mountains, while the big ones were like continents, all of them floating in the air.

In the starry sky, one could occasionally see some cracks in the void.

Occasionally, the two of them could see some streams of light shuttling through the broken stars outside the ruins. They should be the xiuzhe that had come to search for treasures.

However, if they went deeper, they would not be able to see anyone.

The starry sky was deathly silent.

As the two of them flew over, they used their divine telekinesis to scan every fragment and explore every corner.

However, he gained nothing.

Just as Tang Hao was feeling a little disappointed, his mind suddenly stirred. He could vaguely sense a familiar aura coming from deep within the ruins.

“This aura is ...?”

Tang Hao was shocked, but he could not recall what that aura was.

As he got closer, the aura grew stronger. Tang Hao realized that the aura was the same as the aura of the ancestor of technique's divine eye.

"This is the aura of the ancestor of technique!"

Tang Hao was even more surprised.

There was actually the aura of the ancestor of technique in the depths of this place. Could it be that the ancestor of technique had come here before and left something behind? Otherwise, how could his aura still be left behind after so many years?

Tang Hao's suspicion grew. He picked up his pace and headed toward the source of the aura.
