

The Mightiest Little Peasant Chapter 2058

Tang Hao met Yun qingzi in the main hall.

Zao huaizi had already gone into seclusion and started condensing blood. All the affairs of the sect had been handed over to Yun qingzi.

“You’re finally back!”

Yun qingzi heaved a sigh of relief.

Fellow Daoist Tang had been gone for more than a month, and there had been no news from him. In the past, he would not have been worried at all, but the situation was complicated now. Those seven tribulations were all staring at him, so how could he not be worried?

Fellow Daoist Tang was the pillar of their creation sect. The treasure and the sect’s revival all depended on him. They could not afford to have any mishaps.

“In the future, don’t go out. If you don’t have to go out, don’t go out! What if something happens? what should we do?”

Yun qingzi persuaded her with great effort, looking as if he was worried sick.

“I shouldn’t go out in the following period of time. I’ll focus on comprehending Dao!” Tang Hao smiled when he saw that.

“Yes, yes, yes! This is how it should be!”

Yun qingzi said happily.

“Nothing much happened this month ... The situation in the sect is pretty good, and many people have broken through. Above the mountain range of fortune, the fushou lightning and immortal abode lightning have never stopped.”

Speaking of the sect’s situation, Yun qingzi was elated, and his joy was beyond words.

“That group of little kids is not bad. They are very hardworking and their cultivation has improved very quickly. Many of them are at the 5th tribulation. Gao Dayong, who you asked for, is also very capable. He is the first to reach the 5th tribulation.”

Yun qingzi began to talk about the disciples with the creation divine body.

This group of disciples was the secret weapon of the creation sect. They were also the key to the future revival of the creation sect. Whether it was destiny son or him, they both placed great importance on them.

Tang Hao nodded slightly when he heard that. He looked satisfied.

In just a few years, he had grown from a puny disciple who had become an immortal to a fifth tribulation Saint. The speed was quite amazing.

On one hand, it was because of the miraculous creation divine body. On the other hand, it was also because of the creation gate's nurturing.

Although the creation sect had declined, it still had a small Foundation. All of it had been used on them. Furthermore, many of the treasures he had given to Zao Huazi had been used on these disciples.

"How many ... Are there now?" Tang Hao asked.

"A hundred!"

Yun qingzi said, his expression excited.

Hundreds of creation divine bodies!

What an astonishing number!

One had to know that during the ancient path of creation's peak, there were only so many divine bodies.

Of course, in terms of quality, they could not compare to the ancient path of creation. However, in terms of quantity, they were about to catch up.

"I should be able to cultivate a few more!"

Tang Hao muttered.

If it was the old gate of fortune, it definitely wouldn't be able to nurture more divine bodies. However, he had gained quite a lot recently. He had gained a lot from the ruins of the heavenly Buddha courtyard and the heavenly Peng mountain. He could continue to nurture more divine bodies.

"Let me calculate, 300 should be enough!"

Tang Hao estimated that three hundred should be the limit.

Even if he could continuously create divine medicine now, if there were too many divine bodies, he wouldn't be able to nurture them. 300 was the limit. Once he reached 300, he would stop refining the creation divine pill.

"Three hundred is enough!"

Yun qingzi said.

Then, he sighed with emotion.

In the past, he wouldn't even dare to think about nurturing 300 divine bodies.

After explaining the situation in the sect, Yun qingzi began to talk about the situation outside.

“There’s nothing much going on outside. Most of the cultivators had some gains from that trip to the sky ROC mountain. They got a lot of spirit herbs and divine herbs. Many of them even got the sovereign’s blood. Because of these treasures, there was a lot of fighting.”

“However, this is only a small number. Most of the cultivators went into seclusion to digest these treasures after they got them. During this time, I often heard news of people breaking through, and all kinds of Thunder tribulations can be seen everywhere in Pangu.”

“Also, in many clans, there are also news that many old monsters are in seclusion and are beginning to coagulate. I believe that in the near future, there will be many new seven tribulations.”

Tang Hao nodded slightly when he heard that.

There were indeed too many treasures in Tian Peng mountain. He had gotten the majority of it, but there were still countless treasures that had fallen into the hands of other xiuzhe.

Especially the emperor’s blood. There were thousands of drops in the blood pool, and he had only obtained thirty drops.

Those clans have many 6th tribulation old monsters. As long as they get a few drops of Emperor blood, they can break through to the 7th tribulation.

However, Tang Hao wasn’t too worried. Those clans already had many seven tribulations, so a few more wouldn’t matter.

When Zao Hua Zi advanced to the seventh tribulation, the creation sect would have the ability to protect themselves.

They chatted for a while longer, then went to meet the elders. Tang Hao returned to his cave abode.

He first took out the divine herbs he had accumulated during this period of time, then refined the creation divine pill and sent it to Yun qingzi.

After he had settled everything, Tang Hao sat down, took out the path-understanding tree, and began to study.

This time, he chose the path of ultimate Thunder.

He was also extremely skilled in Thunder magic and was not inferior to Fire Magic. Therefore, he chose this great Dao for the third Dao.

As he sat down, he lost track of time.

One month, two months ...

Time flew by.

In the blink of an eye, a year had passed.

This year, the land of Pangu was much more peaceful.

There was no sensational event, nor was there any explosive news. There was silence all around.

That demon surnamed Tang had disappeared. There had been no news of him in the past year.

Everyone thought that he should be attempting the blood solidification realm to break through to the seventh tribulation.

There was also very little news about young master Taixu. He would only appear once in a while. It was said that he was looking for something and was also making preparations for the blood solidification realm.

As for the people of the hundred races, they had also laid low after the disappearance of that Tang brat.

Without these people, there would be nothing to talk about, and the world would find it boring.

However, the thief from the Liu Clan was still active. He was running around and committing crimes crazily, causing the world to curse him.

However, they could not do anything about it. With the little thief's abilities, there were very few people who could deal with him.

As time passed, everyone became numb to it and couldn't be bothered with this little thief.

Just like that, another half a year passed.

The atmosphere in Pangu land grew heavier and heavier.

On this day, on the creation peak, the dusty stone door suddenly shook. Then, it opened, and a handsome young man in white clothes and black hair stepped out.

His skin was like jade, shrouded in a layer of immortal radiance.

As he took a step forward, golden patterns appeared and spread out around him.

These were all Dao laws!

Different Dao laws took turns to appear on his body.

At the same time, all kinds of strange phenomena appeared behind him. There was the mighty reincarnation River, a huge blood-colored fire Lotus, an endless sea of lightning, and an extremely cold ice crystal that exuded a bone-chilling cold ...

In the end, there was a long river of sword light. Billions of golden sword lights crisscrossed in the void behind him, emitting a shocking aura.

These five phenomena represented the five great DAOs of reincarnation, extreme fire, extreme Thunder, extreme cold, and sword Dao.
