

The Mightiest Little Peasant Chapter 2074

“With this battle armor, who would dare to provoke the night race!”

“This armor can travel through the void at will and perfectly conceal one’s aura. Even the Almightyies of the eighth or ninth tribulation would find it hard to detect. In ancient times, the primogenitor of the night race once used this armor to kill a Supreme level figure.”

All the cultivators were shocked.

The clan leaders all revealed a bit of worry.

“The ancestors have come!”

The night race cultivators cheered and many of the elders even cried tears of joy.

“This ... Is this true?”

Ye Jiuxuan was stunned for a long time, still in disbelief.

After a moment, he finally reacted. He was so excited that his entire body was trembling.

With this primogenitor’s armor, the night clan’s strength would increase greatly. In the past, although the night clan was strong and was considered a first-tier force among the ten thousand clans, they had never been able to compare with the top clans like the stone clan and the Jiang clan.

But now, it was different. With this armor, the night clan could rise to the top of the list of such great clans.

“Hahaha! With this armor, that Tang guy and young master Taixu will be nothing. I’ll be the strongest of the younger generation.”

He was overjoyed.

Tang Hao furrowed his brows when he heard the discussion.

Listening to these people’s words, this battle armor seemed to be extremely powerful. If the night race obtained it, they would definitely pose a great threat to him.

“The night clan ... Is really lucky!”

Yushi min sighed, then turned to Tang Hao.””Fellow cultivator Tang, you have to be careful of this armor. If this monster of the night clan refines it and uses it with another supreme weapon of the night clan, even a seventh tribulation would have to be wary of it.”

“Thank you for your reminder, rain master!”

Tang Hao said, nodding.

Then, he narrowed his eyes and looked at ye jiuxuan. He then glanced at the armor and his eyes lit up.

“What a great treasure!”

He smacked his lips, and his eyes became brighter and brighter, flashing with a green thieving light.

Not only could this armor freely travel through the void, but it could also perfectly conceal one’s aura. It was simply a top-tier treasure for beating people and robbing them! With this treasure, he could snatch anyone he wanted. Even if it was a seventh tribulation, he might be able to give it a good beating!

“Perfect! It’s too F * cking perfect!”

On the other side, Liu heihu was also staring at the armor. His eyes were green, and he was drooling.

He had also realized the value of this treasure.

Although the thief immortal’s treasured clothing he was wearing had similar functions, it was not as powerful as this night owl.

“Fellow cultivator Tang ... You ...”

“What’s wrong?” Yu Shimin asked in surprise when he saw Tang Hao’s strange expression.

“Oh! It’s ... Nothing!”

Tang Hao raised his hand and made a gesture of wiping away his saliva. He then shook his head. “I’m just thinking about how to deal with this armor.”

“Oh!”

Yushi min said in realization.

She did not know that Tang Hao was not worried about how to deal with the armor. Instead, he was thinking about how to get his hands on it.

The square was in an uproar for a while before it slowly calmed down.

Although everyone was a little envious and wanted to snatch this treasure away, no one dared to do so. After all, this was the spirit treasure heaven.

The group of night race people had already rushed up, kept their armors, and returned to their seats.

The ceremony continued.

With this Supreme artifact in front of him, the 6th, 7th tribulations and even the 8th tribulation Emperor artifacts of the later geniuses would not cause any waves.

The Emperor weapon had been dropped by Yao kongxuan. It was a battle spear, but it was of no use to him. The Yao clan had a barbarian killing spear, a supreme weapon.

As for the Yao clan geniuses and the others, they only dropped treasures of the 6th or 7th tribulation.

Just as everyone was feeling a little bored, another precious treasure appeared. It was a set of formation techniques that had fallen from the Baili clan.

“Is this the long-lost immortal-eliminating formation of the Baili clan?”

“Hiss! This is one of the four ancient killing formations!”

The crowd exclaimed again.

The Baili clan was a large clan in the field of arrays. In ancient times, they had refined many shocking arrays. Some of them were passed down, and many were lost. This immortal-eliminating array was one of the most famous.

This was the same as the Night Owl, a legendary item.

All the cultivators were envious.

The ceremony continued. All kinds of famous people, geniuses, and seven tribulations old monsters kept coming forward. There were many dazzling treasures, some lost ancient cultivation methods, and elixirs. One of them was a divine elixir, which caused a sensation.

This elixir was called the indestructible divine elixir. As long as one took this elixir, they would gain the ability of an indestructible body, just like an eight-tribulation venerable Emperor. No matter what kind of injury they suffered, as long as there was a drop of blood or a piece of flesh left, they could be reborn quickly.

This elixir was dropped by the young master of the purple sky heaven, which made the seven tribulations people a little envious.

Tang Hao was also very interested in the indestructible divine pill. He had heard of it before, but he had never refined it. After all, it was a divine pill on the same level as the creation divine pill. The materials were too difficult to collect.

In order to refine this elixir, one first needed a piece of flesh of an eight tribulation venerable sovereign, in addition to all kinds of extremely rare medicinal herbs. It was impossible to gather all of them.

The current purple sky might not be able to gather so many rare materials.

After the young masters of the 33 heavens came forward, young master Taixu couldn't help but step forward.

After a series of strange phenomena, a ring fell out of the ripple and rolled into the basin with a clink.

“A ring?”

The crowd was stunned and shook their heads.

Things like rings were usually storage tools. There wasn't much difference. For xiuzhe, rings of normal grade were enough, and the space inside was large enough.

If it was really not enough, he could just bring a few more. Therefore, among the many treasures, the ring was not very precious.

When young master Taixu saw this, he was a little disappointed.

But then, his expression changed. He suddenly raised his hand and picked up the ring.

“This is ...?”

Numinous treasure Dao master looked at the ring and frowned slightly.

This ring ... Was not ordinary! There was a trace of a Supreme-being's aura on it!

Soon, all the cultivators sensed it, and their expressions changed drastically.

“Is that the aura of an Autarch?”

“Which Supreme martial artist does this ring belong to?”

All the cultivators exclaimed.

The square was instantly in an uproar.

A Supreme Being's ring was no ordinary item. The space within it was probably unimaginably large, and there might even be Supreme treasures inside.

“His luck is too good!”

All the cultivators were extremely jealous.

“Hahaha!”

Young master Taixu laughed out loud. He was overjoyed.

He put away the ring, thanked the Lord of numinous treasure, and turned to leave.

When he turned around, he glanced at Tang Hao with a challenging look in his eyes.

After him, the divine curse young master stepped forward. However, a talisman landed on the ground. It was an ancient talisman from the divine curse sky, and it caused a small commotion.

This talisman was extremely powerful. However, it was a talisman after all and was a one-time use treasure. It could not be compared to a supreme weapon.

“I’ll try my luck too!”

After the cursed young master, Li Young Master stood up and went forward.

What fell was not a tribulation weapon, nor was it a pill, a formation, or a cultivation technique. Instead, it was a feather—the feather of an ancient divine beast, the Vermillion Bird. This also caused quite a stir.

After a few more people passed by, Tang Hao could no longer hold it in.

After Yu Shimin went up, he stood up and walked forward.

“It’s him!”

“That brat surnamed Tang has gone up!”

The square instantly became lively.

All the cultivators looked over with curious expressions.

At this point in the ceremony, many good treasures had appeared, such as Supreme weapons, Supreme rings, ancient killing formations, and ancient divine elixirs. What kind of treasures would this kid get?

After all, in everyone’s impression, this kid was someone with shocking luck and had many Supreme-grade treasures on him.

Tang Hao stood in front of the treasure bowl and took a deep breath to calm himself down.

At this moment, he was also a little nervous, not knowing what kind of treasure he would fall into.

He slowly raised his hand and pressed it on the basin.

The treasure basin shook violently, and divine light shot into the sky.

A moment later, the divine light dissipated, and something fell from the ripples.

It was a string of bells.

It was a string of ordinary bells without a trace of immortal Qi!
