

The Mightiest Little Peasant Chapter 2081

On the warship of fortune, Tang Hao activated the heavenly eye again.

This time, his gaze pierced through the great void heaven's barrier and looked into the interior of the great void heaven. He could see that the huge ship had stopped in front of a sacred mountain.

This sacred mountain was extremely majestic and was hundreds of thousands of feet tall, almost the same as the heavenly Peng sacred mountain.

The mountain was shrouded in clouds and mist, and multicolored light rose up. From time to time, there were all kinds of immortal cranes and Luan birds appearing in the clouds and mist, giving off a celestial atmosphere.

Above the divine mountain, a huge ring of light could be seen. Indistinctly, a huge wheel-like object could be seen spinning slowly within the ring of light.

In all four directions, floating islands were arranged in a row. There were palaces on each of them, and there were streams of light shuttling back and forth everywhere. These were all disciples of the great void sect. Some of them were flying on swords, while others were riding various strange beasts.

Each of these disciples had a bright immortal radiance.

"It is indeed the great void heaven!"

Tang Hao thought to himself.

The current creation sect could not compare to such a prosperous scene.

There was still quite a distance between it and the ancient Kunwu.

Young master Taixu leaped down from the ship and landed in front of the palace at the peak of the divine mountain. In the palace, many elders of the great void heaven walked out to welcome him.

Among these elders, a few of them were at the seventh tribulation.

The elders were overjoyed when they saw the treasure that young master Taixu had taken out.

"I've gathered one of the nine Supreme Bloods. I think I'll be able to gather the remaining two soon!"

"Don't worry, young master. We're already trying our best to find out where there is Supreme blood. We've sent people to the void of the outer domain, the eight desolates, and the ruins of the four Seas. I think we'll get some news soon."

"Alright!" Young master Taixu nodded.

There were only two Supreme Bloods left, and it wouldn't take long for him to gather them.

“I don’t have much use for these treasures. Take them and put them in the Treasury! I’ll take the rest of the divine materials and reforge the immortal estate.”

Young master Taixu took out the treasures from the ring and gave them to the elders. Then, he left the divine mountain and arrived on a floating island.

This Island was the cave abode of the eldest young master.

He sat down and began to reforge the immortal estate.

Tang Hao retracted his gaze.

He was somewhat amazed by the magic of this pair of heavenly eyes.

Not only could this pair of heavenly eyes enhance his eyesight and see billions of miles away, but it could also break illusions. Its most magical function was the one he was using at this moment.

This function was tracking.

This ability was somewhat similar to the Supreme treasure of Emperor Xi heaven, Emperor Xi’s ruler. This treasure was a Supreme treasure of divination, able to trace back to the past and predict the future.

Predicting the fate of the heavens and tracking down traces were nothing difficult for him.

The Cangjie ancient clan’s ability was similar, but it was not as good as the ruler of Xi.

Back then, all the races had gathered at the Cangjie ancient tribe to calculate his location.

However, the tracking ability of this pair of sky eyes was different from that of Emperor Xi’s ruler. The latter could calculate out of thin air, but this pair of sky eyes was different. It needed to lock on to the aura in advance before it could track.

Tang Hao had familiarized himself with this pair of heavenly eyes during the treasure falling ceremony. He had locked onto young master Taixu’s aura.

This was why he could easily track young master Taixu’s location and see his every move with the power of his heavenly eye.

This was like a combination of a tracker and a surveillance camera. Back in Qiyuan, he had relied on his many split souls, as well as his clairvoyance and clairaudience techniques to invent a surveillance network, and this pair of heavenly eyes was undoubtedly more powerful than his surveillance network.

As long as this pair of heavenly eyes locked onto the aura, it could easily find it. As for his surveillance network, he needed to use many of his split souls to work together to find the target.

Moreover, at his current realm, he was facing 6th or 7th tribulation saints, all of whom had amazing divine powers. It was impossible to monitor them with a split soul as he would be sensed immediately. However, this pair of sky eyes would not be sensed.

Just now, he had been watching for a long time. Be it young master Taixu or the elders of the great void heaven, none of them had noticed.

This was also the most magical part of this pair of heavenly eyes!

No wonder that Supreme martial artist said that this eye was full of mysteries!

With this pair of heavenly eyes, he would be able to perfectly grasp the whereabouts of his opponent and observe his opponent's plans. In a battle at their level, this was the most terrifying technique, more powerful than any supreme weapon.

"It's a pity that I can only lock onto one target at the moment!"

Tang Hao mumbled with a regretful expression.

He had tried before. This pair of heavenly eyes could only lock onto one target at a time. He had originally wanted to lock onto ye jiuxuan's aura and find an opportunity to seize the armor. At the same time, he wanted to know the whereabouts of the hundred clan Alliance.

However, compared to the hundred clan Alliance, he was more afraid of young master Taixu, which was why he had chosen him.

"Immortal execution king ring ... Immortal blood of no beginning ..."

Tang Hao furrowed his brows.

He had heard of immortal execution King before. He was one of the hundred Immortals, just like immortal Changliu and reincarnation immortal venerable. It was no wonder that his ring had so many treasures.

The ring wouldn't help young master Taixu much.

The immortal blood of no beginning was what Tang Hao was most concerned about.

"I wonder which is more powerful, the immortal blood of no beginning or my blood of chaos?"

Tang Hao wasn't sure either. No beginning immortal venerable was the head of the hundred Immortals, so the cultivation method he created must be very powerful. The ancestor of technique was a bit mysterious, and Tang Hao didn't know what cultivation base he had.

He had no way of comparing the cultivation techniques created by the two.

"Of the nine types of Supreme Bloods, he's already collected seven, leaving only two. It's the same for me. I've already collected three of the five types, and I'm also left with two. Now, it's time to see who can be faster."

Tang Hao stood at the bow of the ship and pondered for a long time.

The warship under his feet sped toward the gate of fortune.

At this moment, following the return of the various races, news of the situation at the treasure falling ceremony had already spread, causing an intense commotion.

Many treasures had appeared in this ceremony. For example, the ancient armor that the night race genius had obtained and the indestructible divine pill from the purple sky were all top-notch treasures.

However, none of these treasures could be compared to a string of ordinary bells.

It was this string of bells that had drawn out a living Supreme martial artist. In a fit of anger, he had killed many six tribulation saints.

This news shocked everyone.

For a long time, the world had believed that there were no more Supremes in this world, and that great emperors were the Supreme realm. No one had expected that a living Supreme-being would appear in this ceremony.

The reincarnation Lake and the reincarnation immortal venerable who had died in it were once again heatedly discussed by the crowd.

The crowd began to explore various legends to find out the identity of this mysterious Supreme.

Some of the more courageous ones even rushed towards the reincarnation Lake. They wanted to observe the elegant demeanor of this Supreme martial artist from afar.

The crowd was shocked by Tang Hao's appearance, and a heated discussion broke out among them.
